Start Year

2024 (When accounting for Age Factors, first years are more highly impactful; Higher exposure in 2025 than in 2023)
2024 (Higher exposure from 12 years of overlapping Construction & Operations than 12 years of Operations)
2035 (Higher exposure from 12 years of Operations than from 12 years of overlapping Construction & Operations)

Construction + Operations Relative Potency

It is assumed that relative cancer potency would remain constant ad infinitum past 2035… *and on…*

Start Year

2024 (When accounting for Age Factors, early years more highly impactful; Higher exposure in 2025 than in 2023)

2024 (Higher exposure from 12 years of overlapping Construction & Operations than 12 years of Operations)

2035 (Higher exposure from 12 years of Operations than from 12 years of overlapping Construction & Operations)

Construction + Operations Relative Potency

It is assumed that relative cancer potency would remain constant ad infinitum past 2035… *and on…*
