Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Bridge Rehabilitation and Replacement Project (PW1603/BPMP-5008(157))

Lead Agency: City of Stockton, Public Works Department

Contact Name: Ahbid Mohammad, Associate Engineer

Email: Ahbid.Mohammad@stocktonca.gov Phone Number: 209/ 937-7903

Project Location: The Project is located at six sites in the City of Stockton, San Joaquin County
City *County*

Project Decription (Proposed actions, location, and/or consequences).

The City proposes to use Bridge Preventative Maintenance Program funds from the Federal Highway Administration to conduct maintenance work on six City bridges (West Lane and Pershing Avenue over Calaveras River, Diamond Street over Mormon Slough, Santa Paula Way over Mosher Slough, Aurora Street over Mormon Slough, and Turnpike Road over Walker Slough). Preventative maintenance work includes scour countermeasures, deck sealing with methacrylate, road approach repairs, joint seal replacements, concrete spall and drainage repairs, thermoplastic striping application, barrier rail and sidewalk replacements, and erosion control. A detailed project description is included in Section 3 of the environmental document.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Project could have potentially significant impacts the following resource categories: biological resources.
BIOLOGICAL RESOURCES
Implementation of mitigation measures BIO-1 through BIO-5 will reduce potential impacts to less than significant for biological resource impact topics: a (sensitive species), b (sensitive natural community), and c (wetland and waters).

CULTURAL RESOURCES
Implementation of mitigation measure CULT-1 will reduce potential impacts to less than significant for cultural resource impact topics: b (change in the significance of an archaeological resource pursuant).

HAZARDS AND HAZARDOUS MATERIALS:
Implementation of mitigation measure HAZ-1 will reduce potential impacts to less than significant for hazards and hazardous materials topic: b (reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment)

TRANSPORTATION/TRAFFIC:
Implementation of mitigation measure TRANS-1 will reduce potential impacts to less than significant for transportation/ traffic topic: g (Conflict with adopted policies, plans, or programs supporting alternative transportation).

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

NA

Provide a list of the responsible or trustee agencies for the project.

Responsible Agencies
-Caltrans
-Central Valley Regional Water Quality Control Board

Trustee Agencies:
-California Department of Fish and Wildlife
