Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Marsh Creek Regional Trail Project - Brentwood to Round Valley Regional Preserve

Lead Agency: East Bay Regional Park District

Contact Name: Sean Doogan

Email: sdoogan@ebparks.org Phone Number: 510-544-2611

Project Location: Brentwood (*City*) Contra Costa (*County*)

Project Description (Proposed actions, location, and/or consequences).

The District proposes to construct an extension of the existing Marsh Creek Regional Trail, closing an approximately 3-mile gap from the intersection of Vineyards Parkway and Marsh Creek Road in the City of Brentwood to the District ' s Round Valley Regional Preserve Trailhead in unincorporated Contra Costa County. Portions of the proposed trail would be located on lands owned by Contra Costa County, the City of Brentwood, Contra Costa County Flood Control and Water Conservation District (CCCFCWCD), and the California Department of Parks and Recreation (State Parks).

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project has potentially significant impacts to several CEQA Appendix G checklist items, but all are reduced to less than significant with mitigation incorporated. These checklist items, and mitigation measures, include: Air Quality (BAAQMD Basic Construction Mitigation Measures), Biological Resources (pre-construction surveys avoidance, and transplant measures for plants and species of special concern, restricted construction time frame, permits including 401, 404, and a streambed alteration agreement, tree avoidance measures, and other measures), Cultural Resources (excavation of on site cultural resources and the monitoring of ground disturbance by a qualified archaeologist and other cultural mitigation measures), Geology/soils (geotechnical investigation to inform design for seismic ground failure and liquefaction, landslides, and a storm water pollution prevention [SWPP] plan), Hydrology/water quality (erosion control, the SWPP, and bridge design approval), and Noise (construction time frame and other requirements). Details on potentially significant impacts and the project's mitigation measures can be found in the ISMND.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.

There are no responsible or trustee agencies
