Project Title: South Pasadena 2020 Climate Action Plan

Lead Agency: City of South Pasadena

Contact Name: Julian Lee, Deputy Public Works Director

Email: jlee@southpasadenaca.gov Phone Number: (626) 460-6392

Project Location: South Pasadena (*City*) Los Angeles (*County*)

Project Decription (Proposed actions, location, and/or consequences).

The City of South Pasadena is preparing the 2020 CAP to include measures addressing municipal and communitywide GHG emissions. Using the 2016 GHG emissions as a baseline, the City is committed to a GHG emissions reduction target of 40 percent below 2016 levels by 2030. This 2030 GHG emissions goal is selected to be consistent with California Senate Bill 32 State emissions targets and CEQA Guidelines §15183.5 for a qualified GHG emissions reduction strategy, and to be achievable by City-supported measures identified in the 2020 CAP. To achieve the South Pasadena 2030 GHG emissions target, the City has developed 15 CAP Plays (i.e., measures) and supporting Moves (i.e., actions) related to energy, transportation, water, solid waste, and carbon sequestration.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

All environmental effects were found to be less than significant or no impact, and an Initial Study/Negative Declaration was prepared.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No areas of controversy were identified as applicable for the proposed plan.

Provide a list of the responsible or trustee agencies for the project.

No responsible or trustee agencies were identified as applicable for the proposed plan.
