STATE CLEARINGHOUSE

RESPONSIBLE AGENCY: State Water Resources Control Board
CONTACT PERSON: Tricia Wathen
PHONE NUMBER: (559) 447-3300

PROJECT LOCATION: In the vicinity of Highway 99, Avenue 17, and Sharon Boulevard in Madera within Merced County.

PROJECT DESCRIPTION: The State Water Resources Control Board (State Water Board), as the responsible agency, will be issuing a water supply permit. The City of Madera will drill a 480-foot deep, 1,200-gallon per minute well and install a pump. A pump house will be constructed around the well and pump. An 8-foot tall, 96 foot² chlorination building will also be constructed to house a chlorination system and brine tank. Granulated activated filtration tanks may also be installed, as needed. Electrical panels, an emergency generator, bollards, a drop inlet, and a 6-foot tall wall with barbed wire, and gates will also be installed. Associated piping, including 300 feet of water main, will be laid. Landscaping and lighting will also be installed. The additions to the city's water system will provide approximately 33,800 gallons per day of water for a commercial development that will construct a restaurant, hotel, travel stop tire shop, and RV and boat storage on 24.5 acres of land.

PUBLIC AGENCY APPROVING PROJECT AND CARRYING OUT PROJECT: This is to advise that the State Water Board has issued a water supply permit 03-11-20P-003 for the above described project on February 3, 2020, and has made the following determinations regarding the project:

1. The project will not have significant effects on the environment.
2. A mitigated negative declaration and addendum was prepared for this project pursuant to the provision of CEQA.
3. Mitigation measures were not made a condition of the issuance of this permit.
4. A mitigation reporting or monitoring plan was not adopted for this project.
5. Findings were not made pursuant to the provisions of CEQA.
6. A Statement of Overriding Considerations was not adopted for this project.

This is to certify that the record of permit issuance for the project is available to the general public at the State Water Board Division of Drinking Water District office noted above. The mitigated negative declaration and addendum is available from the lead agency.

The State Water Board is a responsible agency for this project and is not responsible for the Department of Fish and Wildlife filing fees.
