A-1 Recirculated NOP

CITY OF SANTA MONICA
CITY PLANNING DIVISION
1685 MAIN STREET, ROOM 212
SANTA MONICA, CA 90401

RECIRCULATED NOTICE OF PREPARATION/NOTICE OF SCOPING MEETING FOR A DRAFT ENVIRONMENTAL IMPACT REPORT FOR THE MIRAMAR HOTEL PROJECT

DATE: June 28, 2018

TO: State Clearinghouse, Responsible & Trustee Agencies, Organizations, Neighborhood Groups, and Interested Parties

LEAD AGENCY:
City of Santa Monica
1685 Main Street Room 212
Santa Monica, CA 90401
EIR Contact: Rachel Kwok
Email: rachel.kwok@smgov.net
Phone: (310) 458-8341

A Notice of Preparation/Notice of Scoping Meeting was originally sent out for the project on May 1, 2013. However, since that time, the project has been revised. Therefore, the City is recirculating the Notice of Preparation and will be hosting a new Scoping Meeting.

The City of Santa Monica intends to prepare an Environmental Impact Report (EIR) for the Miramar Hotel Project (the proposed project). In accordance with Section 15082 of the State CEQA Guidelines, the City of Santa Monica has prepared this Notice of Preparation (NOP) to provide the public, Responsible Agencies, and other interested parties with information describing the proposed project and its potential environmental effects in order to solicit input on the scope and content of the EIR. The EIR will address the proposed project's potential effects for the following environmental issue areas:

- Aesthetics (including Shadows)
- Biological Resources
- Construction Effects
- Geology and Soils
- Hazards & Hazardous Materials
- Land Use and Planning
- Noise
- Tribal Cultural Resources
- Mandatory Findings of Significance
- Air Quality
- Cultural Resources
- Energy
- Greenhouse Gas/Climate Change
- Hydrology/Water Quality
- Neighborhood Effects
- Transportation and Circulation
- Utilities (Sewer & Water)

PROJECT APPLICANT:
Ocean Avenue, LLC
100 Wilshire Boulevard, Suite 1700
Santa Monica, CA 90401

PROJECT LOCATION AND EXISTING ONSITE USES: The project site encompasses two parcels in the Downtown district of the City of Santa Monica, County of Los Angeles (see Figure 1 – Project Location).

The main parcel, occupied by the Miramar Hotel, is approximately 4.5 acres in size and is located at 1133 Ocean Avenue (Main Parcel). The Main Parcel is currently improved with 301 hotel rooms and related hotel programming space located within a number of buildings. There are two city-designated landmarks located on the Main Parcel – the Moreton Bay Fig Tree and the six-story Palisades Building.

The other parcel is located directly across the street to the east at 1127 2nd Street (Second Street Parcel). The Second Street Parcel is currently improved with a surface parking lot. The Santa Monica Freeway (I-10) is

located less than one mile to the south of the site and provides regional access. Pacific Coast Highway to the west of the project site also provides regional access. Local access is provided via Wilshire Boulevard, Ocean Avenue, and Second Street.

PROJECT DESCRIPTION: The proposed project would involve redevelopment of the Main Parcel and Second Street Parcel. The Main Parcel would include a new mixed-use hotel and residential project with ground level open space, food and beverage facilities, meeting space, and ground floor retail uses along Wilshire Boulevard. The two City-designated landmarks would be retained. The Second Street Parcel would include a new 100% affordable housing development. The table below provides the conceptual land use program for the proposed project:

Land Use	**Proposed SF/DU**
Guestrooms	312 rooms (11 net new)
Food and Beverage Space	11,500 sf (4,418 net new)
Meeting Space	13,000 sf (net reduction of 5,525)
Retail	6,600 sf (5,365 net new)
Spa/Fitness Facility	12,500 sf (6,931 net new)
Market Rate Residential Units[1]	Up to 60 DU
Affordable Residential Units[2]	Up to 48 DU
[1]*Actual number of units has not been determined, but will not exceed 60.* [2]*Actual number of affordable housing units on the Second Street parcel has not been determined, but will not be less than 30.*	

The proposed total above grade floor area would be approximately 502,157 sf; the current hotel on the main parcel consists of approximately 262,284 sf of floor area.

In addition to retaining the two City-designated landmarks, the Main Parcel is proposed to be redeveloped with two new buildings, the California Building and the Ocean Building (Figure 2 – Conceptual Site Plan and Figure 3 – Project Rendering). The California building would be seven stories (~79 feet tall) and would include hotel guestrooms and amenities. The Ocean Building would range in height between two-stories (29 feet) at Wilshire Boulevard, seven stories along Second Street, and ten stories (a maximum of 130 feet) in the center of the Main Parcel. It would include hotel guestrooms and other hotel programming (spa, meeting space, and food and beverage), residential units, and ground floor retail along Wilshire Boulevard. The existing Landmark Palisades Building would be rehabilitated for continued use as hotel guestrooms. In addition, the existing Landmark Moreton Bay Fig Tree on the project site would be preserved and featured. The Main Parcel would also include ground level open space that would consist of an approximately 14,000 sf publicly accessible open space at the corner of Wilshire Boulevard and Ocean Avenue and approximately 36,000 sf of open space around the Moreton Bay Fig Tree. These open space areas would be activated with food and beverage uses. A three level subterranean garage below the Main Parcel would provide for up to 428 striped parking spaces. Vehicular access is proposed on Second Street (main hotel entrance), Ocean Avenue (residents only), and California Avenue (employees only).

The Second Street Parcel would be redeveloped with up to 48 affordable housing units and subterranean parking.

The proposed project is located in the Downtown Community Plan area within the Established Large Sites overlay. In accordance with the Downtown Community Plan, the project requires a Development Agreement. The City is preparing a Local Coastal Program Update of its Land Use Plan (LCP). Until such time as a final LCP is adopted by the City Council and certified by the Coastal Commission, the proposed project will require an amendment to the City's 1992 Land Use Plan.

CITY OF SANTA MONICA
CITY PLANNING DIVISION
1685 MAIN STREET, ROOM 212
SANTA MONICA, CA 90401

REVIEW PERIOD: As specified by the State CEQA Guidelines, this Notice of Preparation will be circulated for a 30-day review period. This NOP and project site plans can be viewed online at https://www.smgov.net/Departments/PCD/Environmental-Reports/Miramar-Hotel-Mixed-Use-Project-EIR/. The City of Santa Monica welcomes public and agency input during this period regarding the scope and content of environmental information to be included in the Draft EIR. **Comments may be submitted in writing, by 5:30 PM on July 30, 2018** and addressed to:

Rachel Kwok
City of Santa Monica – City Planning Division
1685 Main Street, Room 212
Santa Monica, CA 90401
E-mail: rachel.kwok@smgov.net

SCOPING MEETING: A Public Scoping Meeting for the EIR will be held to describe the proposed project, the environmental review process, and to receive public comments on the scope and content of the EIR. The Public Scoping Meeting is scheduled at the following date, time and location:

Thursday July 19, 2018
6:00 PM – 7:30 PM
Ken Edwards Center (Rooms 100A & 100B)
1527 4th Street
Santa Monica, California 90401

(Public transit to the scoping meeting location is provided by the Big Blue Bus and Expo Light Rail. Parking is available nearby at Parking Structures No. 7 and No. 8. The City does not validate parking)

The City will consider all comments, written and oral, in determining the final scope of the EIR.

ESPAÑOL: Este es una noticia para la preparación de un reporte sobre los posibles efectos ambientales en referencia a la construcción propuesta de un edifico, lo cual puede ser de interés a usted. Para más información, llame a Carmen Gutierrez, al numero (310) 458-8341.

A-2 Initial Study

CITY OF SANTA MONICA

INITIAL STUDY
AND NEIGHBORHOOD IMPACT STATEMENT

1. **Project title:**

   Miramar Redevelopment Project

2. **Lead agency name and address:**

   City of Santa Monica
   1685 Main Street
   Santa Monica, CA 90407

3. **Contact person and phone number:**

   Roxanne Tanemori
   (310) 458-8203

4. **Project location:**

   The project site encompasses two parcels in the Downtown area of the City of Santa Monica, County of Los Angeles (see Figure 1 – Project Location). The main parcel occupied by the existing Miramar Hotel is approximately 4.5 acres in size and is located at 1133 Ocean Avenue (Hotel Parcel). The other parcel is located directly across the street to the east at 1127 2nd Street (Second Street Parcel). The Santa Monica Freeway (I-10) is located less than one mile to the south of the site and provides regional access. Pacific Coast Highway to the west of the project site also provides regional access. Local access is provided via Wilshire Boulevard and Ocean Avenue.

5. **Project sponsor's name and address:**

   Ocean Avenue LLC
   c/o MSD Capital, L.P.
   100 Wilshire Boulevard, Suite 1700
   Santa Monica, CA 90401

6. **General plan designation:**

   The project is located in the Downtown Community Plan area within the Established Large Sites overlay. The project site is located in both the Ocean Transition District and the Wilshire Transition District. The Ocean Transition Land Use District is intended to promote public and private enhancements to make Ocean Avenue a more consistently enjoyable walking experience and more integrated into the larger Downtown multi-modal circulation network. The Wilshire Transition District is intended to support the smaller local serving uses and create a transition from the downtown to the adjacent residential uses.

7. Zoning:

Ocean Transition District is a mixed-use district (Zoning Ordinance Section 9.02.010.001). Permitted uses in the Ocean Transition District include housing developments, hotels, restaurants and small retail (Zoning Ordinance Table 9.10.040). The Wilshire Transition District is a residential district (Zoning Ordinance Section 9.02.010.001). Permitted uses in the Wilshire Transition include multi-family and single-family residential uses, restaurants of 2,000 square feet or less, small-scale commercial, entertainment and recreation facilities, and retail sales uses (Zoning Ordinance Table 9.10.040).

8. Description of Project:

The Project would replace much of the existing Miramar hotel and includes (i) adaptive reuse and rehabilitation of the existing historic Palisades Building (a City designated landmark), (ii) protection and preservation of the Moreton Bay Fig Tree (a City designated landmark) and (iii) development of the remainder of the Hotel Parcel to provide a mixed-use luxury hotel with food and beverage facilities, open space, spa, meeting/banquet facilities, ground floor retail space, along with 60 new residential condominium units and subterranean parking. The Project also includes a 100 percent affordable housing component with a minimum of 30 and a maximum of 48 deed-restricted affordable apartments on the Second Street Parcel directly across Second Street from the Hotel Parcel. The table below provides the conceptual land use program for the proposed project:

Miramar Hotel Project	
Land Use	**Proposed SF/DU**
Guestrooms	312 rooms (11 net new)
Food and Beverage Space (Indoor)	11,355 SF (3,976 net new)
Food and Beverage Space (Outdoor)	8,373 SF (2,153 net new)
Function Space	13,000 SF (net reduction of 5,040)
Retail	6,600 SF (5,365 net new)
Spa/Fitness Facility	12,500 SF (6,931 net new)
Market Rate Residential Units[1]	60 DU
Affordable Residential Units[1,2]	Up to 48 DU

[1] *Actual number of units has not been determined. However, the project would not exceed the number of units studied in the EIR*

[2] *Affordable housing units to be located on the Second Street Parcel; actual number of affordable housing units has not been determined*

The proposed total above grade floor area would be approximately 502,157 sf; the existing hotel consists of approximately 262,284 sf of floor area.

In addition to retaining the two City-designated landmarks, the Hotel Parcel is proposed to be redeveloped with two new buildings, the California Building and the Ocean Building (Figure 2 - Conceptual Site Plan). The California building would be seven stories (~80 feet tall) and would include hotel guestrooms and amenities. The Ocean Building would range in height between two-stories (28 feet) along Wilshire Boulevard, seven stories (94 feet) along Second Street, with a taller portion setback from Second Street at 116 feet, and ten stories (a maximum of 130 feet) in the center of the Hotel Parcel. It would include hotel guestrooms and other hotel programming (spa, meeting space, and food and beverage), residential units, and ground floor retail along Wilshire Boulevard. The existing Landmark Palisades Building would be rehabilitated for continued use as hotel guestrooms. In addition, the existing Landmark Moreton Bay Fig Tree on the project site would be preserved and featured. The Hotel Parcel would also include ground level open space that would consist of an approximately 14,000 sf publicly accessible open space at the corner of Wilshire Boulevard and Ocean Avenue and approximately 33,000 sf of open space in approximately the middle of the Hotel Parcel including area around the Moreton Bay Fig Tree. These open space areas would be activated with food and beverage outlets. A subterranean garage below the Hotel Parcel would provide for up to 428 striped parking spaces plus 49 aisle spaces. An additional 60 parking spaces are available after 7:00 P.M. weekdays and all day on weekends at the 120 Wilshire Boulevard garage pursuant to a covenant that runs with the land through 2053. Secure parking for bicycles would also be provided in the parking structure. Vehicular access is proposed on Second Street (main hotel entrance), Ocean Avenue (residents and their guests only), and California Avenue (employees only).

The Second Street Parcel would be redeveloped with up to 48 affordable housing units and subterranean parking. The structure would have a maximum floor area ratio of 2.75 (41,250 square feet of floor area) and a height of 60 feet.

The project is located in the Downtown Community Plan area within the Established Large Sites overlay. In accordance with the Downtown Community Plan, the project requires a Development Agreement. The City is preparing a Local Coastal Program Update of its Land Use Plan (LCP). Until such time as a final LCP is adopted by the City Council and certified by the Coastal Commission, the project would require an amendment to the City's 1992 Land Use Plan.

9. Surrounding land uses and setting:

The project site is located in the OT Zoning District and the Downtown Core area of the City of Santa Monica. The surrounding area includes a diverse mix of medium density residential and commercial uses. Specifically, surrounding land uses for the Hotel Parcel include a 14 story apartment building and a three story apartment building to the north; a two story apartment building, a 17 story hotel (the Huntley Hotel), a two story office building, and a three story mixed-use retail and office building to the east; a one-story retail building and 21 story office building to the south; and the Pacific Palisades Park to the west. The Second Street Parcel lies between the Huntley Hotel and the two story office building.

10. Approvals required (e.g., permits, financing approval, or participation agreement.)

- Certification of The Final EIR (City Council with recommendations from Planning Commission), adoption of a mitigation monitoring and reporting program, and adoption of a statement of overriding considerations, if necessary.
- Approval of the final Development Agreement (City Council with recommendations from Planning Commission).
- Approval of the Tentative and Final Tract Map for up to 60 residential units (Planning Commission).
- Design review and approval for building design, materials, colors, and landscaping as well as rehabilitation and renovation of the existing Palisades Building by a to be determined public body such as the Architectural Review Board, Landmarks Commission or another design review process/body.
- Approval for the 100 percent affordable housing project on the Second Street Parcel (Administrative approval or entitled through a Development Agreement covering the Hotel Parcel and the Second Street Parcel); design approval by the Architectural Review Board.
- Issuance of demolition permits for the Ocean Tower, the Ocean Tower Elevator Tower, the two-story ballroom and back of house structures along Second Street and the one and two-story buildings along Ocean Avenue and California Avenue.
- Tree protection plan for the Moreton Bay Fig Tree.
- A Coastal Development Permit(s) from the California Coastal Commission, and if necessary, a site-specific amendment to the Land Use Plan for Coastal Zone of the City previously certified by the Coastal Commission effective November 17, 1992.
- Any other discretionary or administrative approvals needed for the construction and operation of the proposed project.

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

☒	Aesthetics	☐	Agriculture and Forestry Resources	☒	Air Quality
☒	Biological Resources	☒	Construction Effects	☒	Cultural Resources
☒	Greenhouse Gas Emissions	☒	Geology/Soils	☒	Hazards & Hazardous Materials
☒	Hydrology/Water Quality	☒	Land Use/Planning	☐	Mineral Resources
☒	Neighborhood Effects	☒	Noise	☐	Population/Housing
☒	Public Services	☐	Recreation	☒	Shadows
☒	Tribal Cultural Resources	☒	Transportation/Traffic	☒	Utilities/Service Systems
☒	Mandatory Findings of Significance				

DETERMINATION: (To be completed by the Lead Agency)

On the basis of this initial evaluation:

☐ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.

☐ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

☒ I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

☐ I find that the proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.

☐ I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

Amanda Schachter
Planning Manager

Date

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
I. AESTHETICS. Would the project:				
a) Have a substantial adverse effect on a scenic vista?	☒	☐	☐	☐
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	☒	☐	☐	☐
c) Substantially degrade the existing visual character or quality of the site and its surroundings?	☒	☐	☐	☐
d) Create a new source of substantial light or glare that would adversely affect day or nighttime views in the area?	☒	☐	☐	☐

a) **Potentially Significant Impact.** A scenic vista is typically defined as a public view of highly valued visual and scenic resources such as the ocean and distant mountain ranges, particularly from public vantage points. The project site is located along Ocean Avenue on top of a bluff, which offers scenic views of the Pacific Ocean and Santa Monica Pier. Additionally, channelized views of the distant Santa Monica Mountains are intermittently available from certain vantage points.

The City's 1992 Local Coastal Program (LCP) Land Use Plan (LUP) identifies policies directed toward preserving and enhancing public views of scenic resources. Specifically, LUP Policy 46 states that public views to, from, and along the ocean, the Pier, Inspiration Point, and Palisades Park are protected, and permitted development including public works of art, are to be sited and designed to protect views to and along the ocean and scenic coastal areas.

In addition, the DCP identifies goals and policies to promote public and private enhancements to make the Ocean Transition area a more consistently enjoyable walking experience and more integrated into the larger Downtown multi-modal circulation network. Standards for the District support the overall improvement of the pedestrian experience, restaurants with outdoor dining, small-scale retail and services, and housing and office uses on upper floors.

The City's LUCE includes policies intended to preserve public view corridors, including western views of the ocean from east-west streets and boulevards, public views of the ocean and the Pier from Palisades Park, and public views from the Pier to the City. The proposed project would replace the existing buildings on the Hotel Parcel with new buildings. The California building would be seven stories (~80 feet tall), and the Ocean building would be 10 stories (~130 feet tall). In addition, the proposed project would develop a new affordable housing building on the Second Street Parcel, which is currently developed as surface parking. Development of the proposed project could potentially have a

substantial adverse effect on a scenic vista. Therefore, this issue will be further analyzed in an EIR.

b) **Potentially Significant Impact.** Currently, there are no scenic highways officially designated by the State of California in the City of Santa Monica.[1] However, Pacific Coast Highway (SR-1 or PCH) is located just west of the project site (below the bluff) and is eligible for State scenic highway designation. While no State-designated scenic highways are located in the City, the City of Santa Monica's Scenic Corridors General Plan Element identifies Ocean Avenue (located adjacent to the west of the Hotel Parcel) and the Santa Monica Municipal Pier to the south as designated scenic corridors. In addition, Ocean Avenue is identified as a scenic corridor in the City's Local Coastal Program Land Use Plan.[2] Ocean Avenue along the bluff offers scenic views of the ocean and Pacific Palisades Park, a scenic resource. Furthermore, the project site includes the Moreton Bay Fig tree, a City designated Landmark, and the Pacific Palisades Wing, which is considered eligible for local designation as a historic resource. Development of the proposed project could have an adverse effect on scenic resources. Therefore, this issue will be further analyzed in an EIR.

c) **Potentially Significant Impact**. The Hotel Parcel of the project site is currently developed with the existing Miramar Hotel while the Second Street Parcel is currently a surface parking lot. The proposed project would alter the visual character of the project site by developing new buildings and open space. The existing Landmark Palisades Building would be rehabilitated with continued use for hotel operations. In addition, the existing landmark Moreton Bay Fig Tree on the project site would be preserved. Development of the proposed project would alter the visual character of the project site. Therefore, this issue will be further analyzed in an EIR.

d) **Potentially Significant Impact.** Light impacts are typically associated with the use of artificial light during the evening and nighttime hours. Glare may be a daytime occurrence caused by the reflection of sunlight or artificial light from highly polished surfaces, such as window glass and reflective cladding materials, and may interfere with the safe operation of a motor vehicle on adjacent streets. Daytime glare is common in urban areas and is typically associated with mid-to high-rise buildings with exterior facades largely or entirely comprised of highly reflectively glass or mirror-like materials. Nighttime glare is primarily associated with bright point source lighting that contrasts with existing low ambient light conditions.

The proposed project would intensify land uses on the project site. Light spillage from the interior of project buildings and new exterior lighting sources would potentially increase on-site nighttime illumination. In addition, the proposed project may introduce new exterior reflective surfaces that could generate glare. Therefore, potential impacts associated with light and glare will be analyzed further in an EIR.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
II. AGRICULTURE AND FORESTRY RESOURCES. In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997), prepared by the California Department of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the state's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment project; and forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board. Would the project:				
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?	☐	☐	☐	☒
b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?	☐	☐	☐	☒
c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g))?	☐	☐	☐	☒
d) Result in the loss of forest land or conversion of forest land to non-forest use?	☐	☐	☐	☒
e) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland to non-agricultural use or conversion of forest land to non-forest use?	☐	☐	☐	☒

a) **No Impact.** The project site is located in an urbanized area. The Hotel Parcel is currently developed with a hotel and the Second Street Parcel is currently developed as surface parking. No agricultural uses occur on the project site. Furthermore, the California Division of Land Resources Protection has not designated this area as Prime Farmland, Unique Farmland, or Farmland of Statewide Importance.[3] No such designated farmland exists within the City. Therefore, the proposed project would not convert farmland to non-agricultural use. No impacts would occur. Further analysis of this issue is not required.

b) **No Impact.** The project site is not zoned or designated for agricultural uses. In addition, no agricultural uses occur on the project site. Only land located within an agricultural preserve is eligible for enrollment under a Williamson Act contract. Accordingly, the project site is not covered by a Williamson Act contract. Therefore, the proposed project would not conflict with existing agricultural zoning or a Williamson Act Contract. No impacts would occur. Further analysis of this issue is not required.

c) **No Impact.** The Hotel Parcel is currently developed with a hotel and the Second Street Parcel is currently developed as surface parking. No forest land occurs on the project site or surrounding area. Therefore, the proposed project would not result conflict with existing zoning, or cause rezoning, of forest land. No impacts would occur. Further analysis of this issue is not required.

d) **No Impact.** The Hotel Parcel is currently developed with a hotel and the Second Street Parcel is currently developed as surface parking. Surrounding land uses consists of a mix of open space, residential, retail, office, and hotel uses. As previously described, no forest land occurs on the project site or surrounding area. Therefore, the proposed project would not result in the loss of forest land or conversion of forest land to non-forest use. No impacts would occur. Further analysis of this issue is not required.

e) **No Impact.** The Hotel Parcel is currently developed with a hotel and the Second Street Parcel is currently developed as surface parking. Surrounding land uses consists of a mix of open space, residential, retail, office, and hotel uses. No farmland or forest land occurs on the project site or in the surrounding area. Therefore, the proposed project would not result in the conversion of farmland to non-agricultural uses or the conversion of forest land to non-forest use. No impacts would occur. Further analysis of this issue is not required.

[3] *California Division of Land Resource Protection, Farmland Mapping and Monitoring Program, Los Angeles County Map;* online at ftp://ftp.consrv.ca.gov/pub/dlrp/FMMP/pdf/2016/los16.pdf;2018.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
III. AIR QUALITY. Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:				
a) Conflict with or obstruct implementation of the applicable air quality plan?	☒	☐	☐	☐
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?	☒	☐	☐	☐
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is in non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)?	☒	☐	☐	☐
d) Expose sensitive receptors to substantial pollutant concentrations?	☒	☐	☐	☐
e) Create objectionable odors affecting a substantial number of people?	☐	☐	☒	☐

a) **Potentially Significant Impact**. The project site is located in the South Coast Air Basin. The South Coast Air Quality Management District (SCAQMD) and the Southern California Association of Governments (SCAG) is responsible for establishing air pollution control strategies for the Basin. The Air Quality Management Plan (AQMP) was recently updated in 2012 and includes policies and measures to meet federal and State air quality standards.

The proposed project would generate air pollutant emissions during construction and operation. Specifically, pollutant emissions would be generated during construction from earthwork activities and use of construction equipment/machinery. Operation of the proposed project would generate pollutant emissions from vehicle trips and stationary sources. Pollutant emissions resulting from construction and operation of the proposed project would have the potential to affect implementation of the AQMP. Therefore, this issue will be analyzed further in an EIR.

b) **Potentially Significant Impact.** Pursuant to the California Clean Air Act and the federal Clean Air Act, State and Federal air quality standards have been established for seven criteria air pollutants: NO_x, VOC, PM_{10}, $PM_{2.5}$, So_x, CO, and lead. The project site is located within the South Coast Air Basin, which is in non-attainment under State and Federal air quality standards for several criteria air pollutants. As stated above, construction and operation of the proposed project would generate air pollutant emissions. Such emissions could violate air quality standards or contribute substantially to an existing air quality violation. Therefore, this issue will be analyzed further in an EIR.

c) **Potentially Significant Impact.** As stated above, the project site is located within the South Coast Air Basin, which is in non-attainment under State and Federal air quality standards for several criteria air pollutants. Construction and operation of the proposed project would generate air pollutant emissions which could violate air quality standards established by the SCAQMD or contribute substantially to an existing air quality violation. Therefore, this issue will be analyzed further in an EIR.

d) **Potentially Significant Impact.** Sensitive receptors are located in the project vicinity. These sensitive receptors include residential uses to the north and Pacific Palisades Park to the west. Construction and operation of the proposed project could increase air pollutant emissions above current levels, thereby potentially affecting nearby sensitive receptors. Therefore, this issue will be analyzed further in an EIR.

e) **Less Than Significant Impact.** According to the SCAQMD CEQA Air Quality Handbook, objectionable odors are typically associated with industrial uses such as agricultural facilities (e.g., farms and dairies), refineries, wastewater treatment facilities, and landfills. The proposed project involves the development of a mix of hotel, residential and commercial uses, which would not generate significant odors. Limited odors during project operation may occur as a result of trash areas, the use of certain cleaning agents, and/or food service establishments, all of which would be consistent with existing conditions on-site and in the surrounding area. In addition, limited and temporary odors may occur during project construction from diesel operated machinery/equipment and application of architectural coatings. However, any odors that may be generated would be localized and temporary in nature, and would not affect a substantial number of people or result in a nuisance as defined by SCAQMD Rule 402. Therefore, impacts with regard to odors would be less than significant. Further analysis of this issue is not required.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
IV. BIOLOGICAL RESOURCES. Would the project:				
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	☐	☐	☐	☒
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	☐	☐	☐	☒
c) Have a substantial adverse effect on federally protected wetlands, as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal wetlands, etc.), through direct removal, filling, hydrological interruption or other means?	☐	☐	☐	☒
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	☒	☐	☐	☐
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	☒	☐	☐	☐
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional or state habitat conservation plan?	☐	☐	☐	☒

a) **No Impact.** The project site is fully developed and is located in a highly urbanized area in the City of Santa Monica. No special status/sensitive species occur on the project site or surrounding area. Additionally, given the urbanized nature of the project area and considering that the project site has already been disturbed, the likelihood of the presence of any sensitive or special status species is unlikely. Species expected to occur on-site would be limited to terrestrial species (such as squirrels) and birds that are common found in urban

environments. The proposed project would not have a substantial adverse effect on any sensitive or special status species. No impacts would occur, and further analysis of this issue is not required.

b) **No Impact.** As stated previously, the project site is fully developed and located in an urbanized area within the City. No riparian habitat or other sensitive natural community exists on the project site or in the surrounding area. The proposed project would not have a substantial adverse effect on any riparian habitat or other sensitive natural community, and no impacts would occur, and further analysis of this issue is not required.

c) **No Impact.** As stated previously, the project site is fully developed and located in an urbanized area within the City. There are no wetlands on the project site or in the surrounding area. As such, the proposed project would not have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act, and no impacts would occur, and further analysis of this issue is not required.

d) **Potentially Significant.** As stated above, the project site is fully developed and located in an urbanized area within the City. Surrounding land uses consists of a mix of park space, residential, retail, office, and hotel uses. No wildlife corridors, native wildlife nursery sites, or bodies of water in which fish are present are located on or near the project site. Furthermore, due to the urbanized nature of the project area, the potential for native resident or migratory wildlife species movement to occur through the site is highly unlikely. However, removal of trees on the project site could potentially disturb nesting habitats for migratory birds protected under the Federal Migratory Bird Treaty Act (MBTA) and the California Fish and Game Code. The MBTA and California Fish and Game Code prohibit the take or destruction of migratory birds/raptors, their nests, and/or eggs. Impacts on nesting birds protected by the MBTA and similar provisions of the Fish and Game Code could occur if work is conducted during the breeding season (February 1 through August 15). Therefore, this issue will be further analyzed in an EIR.

e) **Potentially Significant Impact.** As stated above, the project site includes the Moreton Bay Fig Tree, a designated City Landmark. While the proposed project would not involve removal of this tree, construction activities around the tree could have an adverse impact. In addition, existing street trees within the City right-of-way could also be removed/adversely impacted by the proposed project. Street trees are protected by the City's Tree Ordinance and the City's Urban Forest master Plan. Therefore, this issue will be further analyzed in an EIR.

f) **No Impact.** No habitat for any special status or sensitive biological species exists on the project site or in the vicinity. Accordingly, no Habitat Conservation Plan, Natural Community Conservation Plan, or other approved habitat conservation plan applies to the project site.[4] Therefore, the proposed project would not conflict with the provisions of an adopted habitat conservation plan. No impacts would occur, and further analysis of this issue is not required.

[4] *California Department of Fish and Game, http://www.dfg.ca.gov/habcon/nccp/status/index.html; accessed November 2018.*

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
V. CONSTRUCTION EFFECTS. Would the project:				
a) Have considerable construction-period impacts due to the scope, or location of construction activities?	☒	☐	☐	☐

a) **Potentially Significant Impact.** Construction of the proposed project would temporarily generate air pollutant emissions and increase noise levels which could significantly and adversely affect nearby sensitive receptors as well as the existing on-site Palisades Building and Moreton Bay Fig Tree that would remain on the site. In addition, construction of the proposed project would generate temporary traffic associated with construction trucks and workers that could significant and adversely affect the roadway network and disrupt neighborhoods. As such, this issue will be analyzed further in an EIR.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
VI. CULTURAL RESOURCES. Would the project:				
a) Cause a substantial adverse change in the significance of a historical resource as defined in §15064.5?	☒	☐	☐	☐
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5?	☒	☐	☐	☐
c) Directly or indirectly destroy a unique paleontological resource or site or unique geological feature?	☒	☐	☐	☐
d) Disturb any human remains, including those interred outside of formal cemeteries?	☒	☐	☐	☐

a) **Potentially Significant Impact**. The project site includes the Moreton Bay Fig tree and the Pacific Palisades Wing, which are considered historical resources under CEQA. The Moreton Bay Fig was designated in August 1976 by the Santa Monica Landmarks Commission. On January 14, 2013 the Landmark Commission approved an amendment designating the Palisades Building as a City Landmark and the Hotel Parcel as a Landmark Parcel. Therefore, development of the proposed project could cause a substantial adverse change in the significance of a historic resource. Therefore, this issue will be further analyzed in an EIR.

b) **Potentially Significant Impact**. The proposed project would include the construction of subterranean parking garages on the Hotel Parcel and the Second Street Parcel. During excavation activities, there is a potential to uncover archaeological resources. Therefore, this issue will be further analyzed in an EIR.

c) **Potentially Significant Impact.** As indicated above, the proposed project would include the construction of subterranean parking garages. During excavation activities, there is a potential to uncover paleontological resources. Therefore, this issue will be further analyzed in an EIR.

d) **Potentially Significant Impact**. As indicated above, the proposed project would include the construction of subterranean parking garages. During excavation activities, there is a potential to uncover human remains. Therefore, this issue will be further analyzed in an EIR.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
VII. GEOLOGY AND SOILS. Would the project:				
a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury or death, involving:				
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	☒	☐	☐	☐
ii) Strong seismic ground shaking?	☒	☐	☐	☐
iii) Seismic-related ground failure, including liquefaction?	☒	☐	☐	☐
iv) Landslides?	☒	☐	☐	☐
b) Result in substantial soil erosion or the loss of topsoil?	☒	☐	☐	☐
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?	☒	☐	☐	☐
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?	☒	☐	☐	☐
e) Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater?	☐	☐	☐	☒

a) **Potentially Significant Impact**. Fault rupture is the displacement that occurs along the surface of a fault during an earthquake. The project site is located in the Southern California region, which is crossed by numerous active, inactive, and blind faults. The California Geological Survey (CGS) designates Alquist-Priolo Earthquake Fault Zones, which are regulatory zones around active faults. These zones, which extend from 200 to 500 feet on each side of known active faults, identify areas where potential surface ruptures along active faults could prove hazardous and identify where special studies are required to characterize hazards to habitable structures. There are no areas within the City of Santa Monica that are located within an Alquist-Priolo Fault Zone. However, the project site is located within the City of Santa Monica, which is crossed by the south branch and north

branch of the Santa Monica Fault. The City of Santa Monica treats the Santa Monica Fault as an active fault, and as such, has designated Fault Hazard Management Zones, which extend 380 to 500 feet north of the north branch and 100 to 600 feet south of the south branch of the Santa Monica Fault. The project site is not located in these zones. As such, the potential for fault rupture to occur at the project site is low. Nonetheless, during a seismic event, the project could be subject to strong ground shaking and other seismic related ground failure. Given that the project site is located on top of the bluff and would increase development on the site, the project has the potential to result in the increased exposure of people to potential ground shaking impacts and other seismic related ground failure. Therefore, this issue will be further analyzed in an EIR.

b) **Potentially Significant Impact**. As discussed further in Section X, Hydrology and Water Quality, in accordance with the City's Urban Runoff Pollution Ordinance, good housekeeping practices and Best Management Practices (BMPs) would be implemented during project construction to minimize erosion and stormwater runoff. In addition, an Urban Runoff Mitigation Plan would be in place throughout the operational life of the project to reduce erosion or siltation effects. As such, implementation of the project would not result in substantial erosion or siltation. Impacts would be less than significant. Further analysis of this issue is not required.

c) **Potentially Significant Impact.** The proposed project includes the construction of new buildings on the site and a subterranean parking garage. Excavation for the subterranean levels and foundation design could result in unstable soils on the site. In addition, the project site is located in the seismically active region of southern California and would be subject to seismic groundshaking that could result in unstable soils. Therefore, this issue will be further analyzed in an EIR.

d) **Potentially Significant Impact.** At this time, the composition and characteristics of the underlying soils are unknown. As such, soils beneath the site could have the potential for expansion. Therefore, this issue will be further analyzed in an EIR.

e) **No Impact.** The project site is located in the City of Santa Monica which is entirely supported by existing municipal wastewater infrastructure. Alternative wastewater disposal systems would not be necessary, and therefore, no impacts related to soils supporting septic tanks or alternative wastewater disposal systems would occur. Further analysis of this issue is not required.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
VIII. GREENHOUSE GAS EMISSIONS. Would the project:				
a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?	☒	☐	☐	☐
b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases?	☒	☐	☐	☐

a) **Potentially Significant Impact.** Greenhouse gases (GHGs) are gases that trap heat in the earth's atmosphere. GHGs include carbon dioxide (CO2), methane (CH4), ozone (03), water vapor, nitrous oxide (Nx0), hydrofluorocarbons (HFCs), perfluorocarbons (PFCs) and sulfur hexafluoride (SF6). The international scientific communities have recognized that GHGs are contributing to global climate change. Predicted effects of global climate change include sea level rise, water supply changes, changes to ecosystems and habitat, and human health effects. The proposed project would generate greenhouse gas emissions during construction and operation of the project, which could contribute to a cumulative significant impact. As such, this issue will be analyzed further in an EIR.

b) **Potentially Significant Impact**. Greenhouse gas emissions are addressed at the federal, state, and local level through a number of plans, policies, and regulations. At the federal level, in 2007, the US Supreme Court ruled in Massachusetts v. Environmental Protection Agency (127 S. Ct. 1436) that greenhouses gases are pollutants under the federal Clean Air Act, and therefore, the US Environmental Protection Agency has the responsibility to regulate greenhouse gases.

At the state level, Assembly Bill 32 (AB 32) was passed as the California Global Warming Solutions Act of 2006 which mandated reduction in the State's greenhouse gas levels. In addition, Senate Bill (SB) 375 was passed by the State of California in 2009, requiring metropolitan regions to adopt transportation plans that reduce vehicle miles travelled. Additionally, California SB 97 required the California Office of Planning and Research (OPR) to develop guidelines for the analysis and mitigation of greenhouse gas emissions impacts in draft CEQA documents.

The City of Santa Monica has adopted the Sustainable City Plan (SCP), which includes targets of reducing greenhouse gas emissions by at least 30 percent below 1990 levels by 2015 for City government operations and 15 percent below 1990 levels by 2015 Citywide. The SCP anticipate that most of the reductions will be achieved through increased energy efficiency, increased renewable energy production, and reduced transportation-related emissions through increased use of alternative modes of transportation. In addition, the LUCE links land use and transportation policies to reduce GHG emissions in accordance with the SCP

In addition, the City's LUCE links new development and urban character and form with a shift in transportation to reduce GHG emissions in accordance with the Climate Action Plan. The LUCE goals and policies align with State regulations and policies for GHG reductions, and it is intended to achieve the GHG reduction targets reflected in the Climate Action Plan. The LUCE includes policies that reflect the City's commitment to achieving a reduction in GHGs through reduction in vehicle trips. As stated above, the proposed project would generate greenhouse gas emissions during construction and operation, which could conflict with the above plans. Therefore, this issue will be analyzed further in an EIR.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
IX. HAZARDS AND HAZARDOUS MATERIALS. Would the project:				
a) Create a significant hazard to the public or the environment through the routine transport, use or disposal of hazardous materials?	☐	☐	☒	☐
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?	☒	☐	☐	☐
c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances or waste within one-quarter mile of an existing or proposed school?	☐	☐	☒	☐
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code §65962.5 and, as a result, would it create a significant hazard to the public or the environment?	☒	☐	☐	☐
e) For a project located within an airport land use plan area or, where such a plan has not been adopted, within two miles of a public airport or a public use airport, would the project result in a safety hazard for people residing or working in the project area?	☐	☐	☐	☒
f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area?	☐	☐	☐	☒
g) Impair implementation of, or physically interfere with, an adopted emergency response plan or emergency evacuation plan?	☐	☐	☒	☐
h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	☐	☐	☐	☒

a) **Less Than Significant Impact.** Construction activities for the project would involve the use of potentially hazardous materials including vehicle fuels, oils, transmission fluids, paint, adhesives, surface coatings and other finishing materials, cleaning solvents, and pesticides for landscaping purposes. However, the use of these hazardous materials would be temporary, and all potentially hazardous materials would be handled, used and stored in accordance with manufacturers' specifications, applicable federal, state, and local health and safety regulations. As such, impacts associated with the transport, use, or disposal of hazardous materials would be less than significant during construction.

Operation of the project would involve the use of potentially hazardous materials typical of those used in hotel, residential, and commercial developments, such as cleaning solvents, paints, vehicle fuels, spray paints, pesticides, fertilizers for landscaping, and adhesives. These materials would not pose a significant health hazard to the public and would be used in limited quantities. Furthermore, all potentially hazardous materials would be handled, used, and stored in accordance with manufacturers' specifications and applicable federal, state, and local health and safety regulations. As such, operational impacts related to the transport, use, or disposal of hazardous materials would be less than significant. Further analysis of this issue is not required.

b) **Potentially Significant Impact.** The Hotel Parcel of the project site historically included a dry cleaner as well as an automotive repair garage. In addition, an underground storage tank (UST) is known to be on-site for emergency generator use. The historic uses as well as the UST could have potentially resulted in contamination at the project sites. Construction and operation of the proposed project could potentially result in upset and accident conditions involving the release of hazardous materials into the environment. Therefore, this impact is potentially significant and will be further analyzed in the EIR.

c) **Less Than Significant Impact.** The project site is not located within one quarter mile of an existing school. The nearest school to the project site is St. Monica High School, approximately 0.4 mile to the east of the project site and Roosevelt Elementary School, located approximately 0.6-mile north of the project site. Therefore, the proposed project would not emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school. Impacts would not occur. Further analysis of this issue is not required.

d) **Potentially Significant Impact**. The project site could be listed on hazardous materials databases due to historical uses that have occurred on the project site (e.g., dry cleaner, automotive repair garage). In addition, an underground storage tank (UST) is known to be on-site for emergency generator use. Therefore, impacts are considered potentially significant and this issue will be further analyzed in the EIR.

e, f) **No Impact.** The project site is located approximately 2 miles north of the Santa Monica Airport. However, the project site is not located in the area covered by an airport land use plan.[5] Furthermore, given the current level of airport operations, the proposed project would not result in airport-related safety hazards for the people residing or working in the area.

[5] *Los Angeles County Airport Land Use Commission Site, Airport Influence Area. Available at http://planning.lacounty.gov/ assets/upl/project/aluc_airport-santa-monica.pdf. Accessed November 2018*

Furthermore, on January 28, 2017, the City of Santa Monica and the U.S. Government, acting on behalf of the Federal Aviation Administration (FAA), signed a historic settlement agreement. The settlement agreement will return Santa Monica Airport to an airport serving primarily small propeller plans. The settlement agreement will lead to the eventual closure Santa Monica Airport in 2028.[6] No impacts would occur. Further analysis of this issue is not required.

g) **Less Than Significant Impact**. Emergency access to the project site is currently provided to emergency vehicles on the adjacent streets (Ocean Avenue, California Avenue, Wilshire Avenue, and 2nd Street). During project operation and construction, emergency access to the project site would continue to be provided via these streets. Furthermore, the project site plans would be reviewed prior to issuance of a building permit plans to ensure that all fire safety requirements of the Santa Monica Fire Department (including those related to emergency access) are met. The proposed project's impacts on an emergency response plan or emergency evacuation plan would be less than significant. Further analysis of this issue is not required.

h) **No Impact.** The project site is located in an urbanized area where no wildlands are present. Furthermore, the project site is not designated by the California Department of Forestry and Fire Protection as a Fire Hazard Severity Zone.[7] The project would comply with the DCP which requires applicants of development projects with buildings that are above seven stories to prepare a high-rise pre-fire plan. Therefore, no wildfire impacts would occur. Further analysis of this issue is not required.

[7] *California Department of Forestry and Fire Protection; Los Angeles County Fire Hazard Severity Zone Map; available online at http://frap.fire.ca.gov/webdata/maps/los_angeles/fhszs_map.19.pdf; accessed November 2018.*

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
X. HYDROLOGY AND WATER QUALITY. Would the project:				
a) Violate any water quality standards or waste discharge requirements?	☒	☐	☐	☐
b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	☒	☐	☐	☐
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site?	☒	☐	☐	☐
d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site?	☒	☐	☐	☐
e) Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	☒	☐	☐	☐
f) Otherwise substantially degrade water quality?	☒	☐	☐	☐
g) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	☐	☐	☐	☒
h) Place within a 100-year flood hazard area structures that would impede or redirect flood flows?	☐	☐	☐	☒
i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of a failure of a levee or dam?	☐	☐	☐	☒
j) Inundation by seiche, tsunami or mudflow?	☐	☐	☒	☐

a) **Potentially Significant Impact.** Construction of the project would require earthwork activities, which could subject exposed and stockpiled soils on the construction site to minor erosion and stormwater runoff into municipal storm drains. In addition, operation of the proposed project would change on-site drainage patterns and introduce new land uses that could adversely affect water quality. Therefore, this issue will be further analyzed in the EIR.

b) **Potentially Significant Impact.** Groundwater beneath the project site is estimated to be approximately 74 feet below ground surface (bgs).[8] The proposed project would include the development of a subterranean parking garage, which would require a depth of excavation of approximately 33 feet bgs. Therefore, no withdrawal of groundwater (i.e., dewatering system) would be necessary for the proposed project. The proposed project would not result in a substantial increase in impervious surface in relation to the existing project site. Rather, the proposed project would increase the amount of on-site pervious areas through new open space and landscaped areas (such as the new plaza at the corner of Wilshire Boulevard and Ocean Avenue). Water infiltration on the project site could affect the groundwater regime, and affect the bluffs. Therefore, this issue will be further analyzed in the EIR.

c) **Potentially Significant Impact.** The proposed project would increase the amount of pervious areas on the project site through the introduction of new open space and landscaped areas (such as the new public plaza at the corner of Wilshire Boulevard and Ocean Avenue). Construction of the project would require earthwork activities, including excavation and grading of the site. During storm events, construction activities associated with the project would have the potential to result in minor soil erosion from grading and soil stockpiling, subsequent siltation, and conveyance of other pollutants into municipal storm drains. In addition, operation of the proposed project would change on-site drainage patterns and introduce new land uses that could adversely affect water quality. Therefore, this issue will be further analyzed in the EIR.

d) **Potentially Significant Impact**. The proposed project has the potential to result in changes to existing drainage patterns that could result in flooding on-site and off-site. Therefore, it is recommended that this issue be analyzed further in an EIR.

e) **Potentially Significant Impact**. The proposed project would prepare an Urban Runoff Mitigation Plan in accordance with Santa Monica's Urban Runoff Pollution Ordinance. However, proposed project has the potential to result in changes to existing drainage patterns that could exceed the capacity of existing and planned stormwater systems. Therefore, it is recommended that this issue be analyzed further in an EIR.

f) **Potentially Significant Impact**. As discussed above, construction of the project would require earthwork activities, including excavation and grading of the site. During storm events, construction activities associated with the project would have the potential to result in minor soil erosion from grading and soil stockpiling, subsequent siltation, and conveyance of other pollutants into municipal storm drains. In addition, operation of the proposed project would change on-site drainage patterns and introduce new land uses that could adversely affect water quality. Therefore, this issue will be further analyzed in the EIR.

[8] *Geotechnologies, Inc.; Preliminary Geotechnical Evaluation for an Environmental Impact Report, Proposed Miramar Hotel Renovation and Expansion, October16, 2018.*

g) **No Impact.** According to the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps (FIRM) for the City of Santa Monica, the project site is not located within a 100-year flood plain.[9] Therefore, the proposed project would not place housing within a 100-year flood plain. No impacts would occur, and further analysis of this issue is not required.

h) **No Impact.** According to the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps (FIRM) for the City of Santa Monica, the project site is not located within a 100-year flood plain. Therefore, the proposed project would not place structures within a 100-year flood plain such that flood flows would be impeded. No impacts would occur, and further analysis of this issue is not required.

i) **No Impact.** No dams, levees, or flood control channels exist in the City of Santa Monica. Therefore, the proposed project would not expose people or structures to a significant risk of loss, injury or death involving flooding as a result of the failure of a levee or dam. No impacts would occur, and further analysis of this issue is not required.

j) **Less Than Significant Impact**. A seiche is a standing wave occurring in an enclosed or partially enclosed body of water, such as a lake, reservoir, or bay. There are no enclosed or partially enclosed bodies of water near the project site. Therefore, the potential for inundation from a seiche is considered remote. No impacts relative to a seiche would occur.

A tsunami is a large ocean wave caused by a significant undersea disturbance such as earthquakes. The project site is located approximately 900 feet (east) from the Pacific Ocean. However, the project site is located on top of the existing bluff and is approximately 100 feet above sea level, and as such would not be at high risk of inundation from a tsunami. In addition, the project site is not located in a City designated tsunami hazard area.[10] Impacts would be less than significant.

Mudflows (also called debris flows) result from the downslope movement of soil and/or rock under the influence of gravity. The project site is not located downslope from any steep hillsides. Rather, the project site is located on top of the existing bluff. The project site would not be at risk from inundation by mudflow. No impacts would occur, and further analysis of this issue is not required.

---

[9] *Federal Emergency Management Agency, Flood Insurance Rate Map, Panel 1590F*

[10] *City of Santa Monica, 2013 SEMS/NIMS Multi Hazard Functional Emergency Plan; online at https://www.smgov.net/departments/oem/sems/multi-hazard-functional-emergency-plan.pdf; accessed November 2018.*

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XI. LAND USE AND PLANNING. Would the project:				
a) Physically divide an established community?	☒	☐	☐	☐
b) Conflict with any applicable land use plan, policy or regulation of an agency with jurisdiction over the project (including, but not limited to, the general plan, specific plan, local coastal program or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?	☒	☐	☐	☐
c) Conflict with any applicable habitat conservation plan or natural community conservation plan?	☐	☐	☐	☒

a) **Potentially Significant Impact.** The project site is located on the northern edge of the downtown area of Santa Monica. Surrounding land uses include medium density residential uses to the north; medium density residential uses, hotel and office uses to the east; office and retail/restaurant uses to the south; and the Pacific Palisades Park to the west. The Pacific Palisades Park is a popular open space destination for visitors and residents alike. The Third Street Promenade, located to the south of the project site, provides a mix of high activity, pedestrian oriented retail, restaurant, and entertainment uses and functions as a popular regional and local destination. The proposed project would increase the density of uses as well as introduce new residential uses on the Hotel Parcel and the Second Street Parcel. Therefore, the proposed project's relationship with existing land uses in the area should be analyzed. Therefore, this issue will be further analyzed in an EIR.

b) **Potentially Significant Impact.** As designated in the DCP, the Hotel Parcel is located within the Ocean Transition District and has an Established Large Site Overlay while the Second Street Parcel is within the Wilshire Transition (WT) District. The OT District is intended to promote public and private enhancements to make Ocean Avenue a more consistently enjoyable walking experience and more integrated into the larger Downtown multi-modal circulation network. Standards for the District support the overall improvement of the pedestrian experience, restaurants with outdoor dining, small-scale retail and services, and housing and office uses on upper floors. The WT District is intended to support the smaller local serving uses and create a transition from the downtown to the adjacent residential uses. In addition, the project site is located within the California Coastal Zone. The City is in the process of updating the Land Use Plan (LUP) and its Implementation Plan, which have not yet been certified by the California Coastal Commission. As such, an amendment to the City's 1992 LUP may be necessary. Thus, in light of the requirement for a Development Agreement and a potential LUP amendment, the issue of plan consistency will be further analyzed in an EIR.

c) **No Impact.** As previously stated in Section IV, Biological Resources, no Habitat Conservation Plan, Natural Community Conservation Plan, or other approved habitat conservation plan applies to the project site. Therefore, the proposed project would not conflict with the provisions of an applicable habitat conservation plan or natural community conservation plan. No impacts would occur, and further analysis of this issue is not required.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XII. MINERAL RESOURCES. Would the project:				
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	☐	☐	☐	☒
b) Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?	☐	☐	☐	☒

a) **No Impact.** No mineral extraction operations occur on the site or in the nearby vicinity. Additionally, the project site is not designated as an existing mineral resource extraction area by the State of California. Given that the project site is located within a highly urbanized area of the City and has been previously disturbed by development, the potential for mineral resources to occur on-site is low. Therefore, construction and operation of the proposed project would not result in the loss of availability of a mineral resource. No impacts would occur. Further analysis of this issue is not required.

b) **No Impact.** As stated above, no mineral extraction operations occur on the site or in the nearby vicinity. Additionally, the project site is not designated as an existing mineral resource extraction area by the State of California. Given that the project site is located within a highly urbanized area of the City and has been previously disturbed by development, the potential for mineral resources to occur on-site is low. Therefore, construction and operation of the proposed project would not result in the loss of a mineral resource recovery site. No impacts would occur. Further analysis of this issue is not required.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XIII. NEIGHBORHOOD EFFECTS. Would the project:				
a) Have considerable effects on the project neighborhood?	☒	☐	☐	☐

a) **Potentially Significant Impact**. As previously discussed, the proposed project has the potential to result in significant impacts related to aesthetics, air quality, construction effects, land use/planning; noise; transportation/traffic, and shadows. These potentially significant impacts could adversely affect the surrounding neighborhood. As such, this issue will be analyzed further in an EIR.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XIV. NOISE. Would the project result in:				
a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance or of applicable standards of other agencies?	☒	☐	☐	☐
b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?	☒	☐	☐	☐
c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	☒	☐	☐	☐
d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	☒	☐	☐	☐
e) For a project located within an airport land use plan area or, where such a plan has not been adopted, within two miles of a public airport or a public use airport, would the project expose people residing or working in the project area to excessive noise levels?	☐	☐	☐	☒
f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?	☐	☐	☐	☒

a) **Potentially Significant Impact.** During construction, the proposed project would temporarily generate an increase in noise levels due to the use of heavy machinery and equipment. In addition, during operation, the proposed project would generate noise on a long term basis due to project-generated traffic and potential on-site noise sources (HVAC equipment). The proposed project could potentially expose nearby noise-sensitive receptors to noise levels above established standards on a short term and long term basis. As such, the proposed project's impacts relative to exceedance of the local noise standards will be analyzed further in an EIR.

b) **Potentially Significant Impact.** During construction, the proposed project could potentially generate groundborne vibration from the use of heavy machinery and equipment. The proposed project could potentially expose nearby noise-sensitive receptors to vibration levels above established standards. Additionally, construction vibration could affect the existing historical Palisades Building and the landmark Moreton Bay Fig tree. As such, project impacts relative to groundborne vibration will be analyzed further in an EIR.

c) **Potentially Significant Impact.** During operation, the proposed project would generate noise on a long-term basis due to project-generated traffic and potential on-site noise sources (HVAC equipment). As such, the proposed project's impacts relative to operational noise will be analyzed further in an EIR.

d) **Potentially Significant Impact**. During construction, the proposed project would temporarily generate an increase in noise levels due to the use of heavy machinery and equipment. As such, the proposed project's impacts relative to construction noise will be analyzed further in an EIR.

e, f) **No Impact**. The project site is located approximately 2.5 miles north of the Santa Monica Airport and the project site is located outside of the 65 and 70 CNEL Airport Land Use Plan Noise Contour.[11] Therefore, the proposed project would not expose people residing or working in the project area to excessive noise levels from an airport or airstrip. No impacts would occur, and further analysis of this issue is not required.

[11] *Los Angeles County Airport Land Use Commission Site, Airport Influence Area. Available at http://planning.lacounty.gov/assets/upl/project/aluc_airport-santa-monica.pdf; accessed November 2018.*

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XV. POPULATION AND HOUSING. Would the project:				
a) Induce substantial population growth in an area, either directly (e.g., by proposing new homes and businesses) or indirectly (e.g., through extension of roads or other infrastructure)?	☐	☐	☒	☐
b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	☐	☐	☐	☒
c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?	☐	☐	☐	☒

a) **Less Than Significant Impact.** The proposed project would develop up to 60 market rate units on the Hotel Parcel and up to 48 affordable housing units on the Second Street Parcel. Assuming the City's average household size of 1.38 persons per unit,[12] the project's market rate residential units would result in a residential population of approximately 83 people and the affordable housing units would result in a residential population of approximately 66 people for a total residential population of 149 people. Relative to the existing City residential population of 92,987 the proposed project's increase in population would not be substantial.[13] In addition, the proposed project's residential population would represent 0.15 percent of the 2035 population (94,700 people) expected in the City.[14] In the larger context of the region, the Projects' population of 149 would make up a small percentage of the anticipated population growth for Los Angeles County. The proposed project's anticipated population would comprise approximately 0.01 percent of the growth in the County between 2016-2035. The proposed project would not induce substantial population growth.[15]

The proposed project's increase in approximately 149 new residents is consistent with SCAG's growth projections for the period between 2016 and 2020 and between 2016 and 2040, the RTP/SCS horizon year, for the City and the County as a whole. The proposed project would not induce growth beyond anticipated.

In terms of the provision of housing within the Downtown area, as indicated in the DCP EIR, the City has a high demand for housing.[16] In addition, with the Expo light rail transit (which

[12] *Average household size in Santa Monica from the Downtown Community Plan Final Environmental Impact Report (State Clearinghouse Number 2013091056), April 2017.*

[13] *Santa Monica's existing residential population from the Downtown Community Plan Final Environmental Impact Report (State Clearinghouse Number 2013091056), April 2017.*

[14] *2035 population growth from the Downtown Community Plan Final Environmental Impact Report (State Clearinghouse Number 2013091056), April 2017.*

[15] *2035 Los Angeles County projected population growth from the Downtown Community Plan Final Environmental Impact Report (State Clearinghouse Number 2013091056), April 2017.*

[16] *Downtown Community Plan Final Environmental Impact Report (State Clearinghouse Number 2013091056), April 2017, page 3.15-27.*

began operation in 2016), the housing demand is expected to grow in the Downtown. The project would provide up to 108 residential units, of which up to 48 affordable units would be provided on the Second Street Parcel. The project would provide a mix of unit size and affordability. The project would be consistent with the DCP's guiding principle to promote new housing opportunities. The project would include infill development on the Second Street Parcel that would efficiently utilize the Downtown's limited land resources. The DCP, consistent with the LUCE, emphasizes future land uses near transit to reduce vehicle trips and VMT. The project would provide new housing opportunities within the transit-rich Downtown area of the City, thereby serving to help meet the City's housing demand and achieve the City's sustainability goals. In addition, as indicated in the certified DCR EIR, affordable housing is a top priority for the city and the community. The addition of up to 48 affordable units with a mix of one-, two-, and three-bedroom units, would expand the City's inventory of affordable units.

Furthermore, the project site is located within the urbanized City of Santa Monica, which is served by existing roads and other supporting infrastructure. Accordingly, the proposed project would not require new roads or other infrastructure that would induce new development and population growth beyond the proposed project itself. Minor infrastructure improvements/utility connections would be implemented to serve the proposed project only. Therefore, impacts relative to population growth would be less than significant, and further analysis of this issue would not be required.

Population growth, in and of itself, does not constitute a physical impact on the environment. However, population growth is relevant in that it may generate secondary environmental impacts as defined under CEQA, such as increased demands for public services, surpassing of infrastructure capacities, or increased traffic congestion and resulting air pollutant emissions. These indirect environmental effects related to population growth are addressed in other sections of this Initial Study and will be evaluated as necessary in the applicable sections of an EIR.

b, c) **No Impact**. The Hotel Parcel is currently developed with a hotel and retail/restaurant uses and the Second Street Parcel is a surface parking lot. No housing exists on-site. Therefore, the proposed project would not displace people or existing housing, nor necessitate the construction of replacement housing elsewhere. No impacts would occur, and further analysis of this issue would not be required.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XVI. PUBLIC SERVICES. Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:				
a) Fire protection?	☒	☐	☐	☐
b) Police protection?	☒	☐	☐	☐
c) Schools?	☐	☐	☒	☐
d) Parks?	☐	☐	☒	☐
e) Other public facilities?	☐	☐	☒	☐

a) **Potentially Significant Impact**. The Santa Monica Fire Department (SMFD) provides fire protection services in the City of Santa Monica. The proposed project would result in an increase in residences and commercial uses on the project site. Therefore, the project would result in an increased demand for SMFD services and could increase the need for new or expanded fire protection services. Therefore, this impact is considered potentially significant and will be further analyzed in an EIR.

b) **Potentially Significant Impact**. The SMPD provides police protection services in the City of Santa Monica. The proposed project would result in an increase in residences and commercial uses on the project site. Therefore, the project would result in an increased demand for SMPD services and could increase the need for new or expanded police protection services. Therefore, this impact is considered potentially significant and will be further analyzed in an EIR

c) **Less Than Significant Impact**. The Santa Monica Malibu Unified School District (SMMUSD) provides primary and secondary public education services to the students living within the City. The proposed project includes the development of up to 60 market rate units and up to 48 affordable housing units. These residential units could result in an increase in school-age population. However, the project Applicant would be required to pay school facility fees to the SMMUSD. These fees are assessed on new developments for each new square foot of new residential and commercial space. Pursuant to SB 50 (the Leroy Green School Facilities Program), the payment of these fees constitute full mitigation of a project's impacts on schools. Therefore, with payment of these fees, the proposed project's impacts on schools would be less than significant. Further analysis of this issue would not be required.

d) **Less Than Significant Impact**. The City of Santa Monica provides a number of recreation and park facilities to its residents. City residents have access to 26 local neighborhood parks as well as the joint-use recreational facilities at the City's schools. In addition, the City provides and maintains regional recreational facilities to accommodate tourists and visitors, including the Santa Monica Pier, the Santa Monica Beach, and Annenberg Community Beach House (a publicly accessible beach club). The proposed project would generate a residential population of approximately 149 residents, which would generate an incremental

demand on parks. However, the proposed project includes public and private on-site open space, which would help meet the recreational needs of project guests and residents. In addition to the new public plaza at the corner of Wilshire Boulevard and Ocean Avenue, project guests and residents would have access to the on-site landscaped pathways, spa and fitness facilities, swimming pools, and balconies. As such, the proposed project would not result in a significant increased use of existing neighborhood and regional parks or other recreational facilities. Impacts would be less than significant, and further analysis of this issue is not required.

e) **Less Than Significant Impact**. The City of Santa Monica is currently served by four SMPL libraries: the Main Library, the Montana Avenue Branch, the Fairview Branch, the Pico Branch, and the Ocean Park Branch. The Main Library, located at 601 Santa Monica Boulevard, is the closest library to the project site. Due to the increasing use of electronic resources (i.e., on-line websites) as well as the modest increase in residential population, it is not anticipated that the proposed project would generate a substantial demand on the City's library facilities. The proposed project would not result in a significant increased use of the existing library. Therefore, impacts would be less than significant, and further analysis of this issue is not required.

The proposed project would redevelop the site with hotel uses (which already exist on the site) as well as new residential and commercial uses. Given the transitory nature of hotel guests, hotel uses typically do not generate a substantial demand on the City's library facilities. Furthermore, hotel guests would have access to Wi-Fi internet access on-site. The proposed project's residential population could generate an incremental increase in demand for library services. However, it is not anticipated that cumulative development within the City (which includes the proposed project) would create or significantly contribute to a reduction in library services. The proposed project would not result in a significant increased use of the existing library. Therefore, impacts would be less than significant, and further analysis of this issue is not required.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XVII. RECREATION.				
a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	☐	☐	☒	☐
b) Does the project include recreational facilities, or require the construction or expansion of recreational facilities, which might have an adverse physical effect on the environment?	☐	☐	☒	☐

a, b) **Less Than Significant Impact**. The City of Santa Monica provides a number of recreation and park facilities to its residents. City residents and visitors have access to 26 local neighborhood parks as well as the joint-use recreational facilities at the City's schools. In addition, the City provides and maintains regional recreational facilities to accommodate tourists and visitors, including the Santa Monica Pier, the Santa Monica Beach, and Annenberg Community Beach House (a publicly accessible beach club). As indicated above, the increase in population that would result from the proposed project would not generate a significant demand for neighborhood parks and recreational facilities such that substantial physical deterioration.

It is anticipated that residents of the proposed project would visit the nearby Palisades Park, Palisades Garden Walk, the Santa Monica Pier, and the Santa Monica Beach. However, these parks and recreational facilities are commonly visited by tourists and visitors and as such, are frequently maintained by the City to ensure that these facilities are not adversely impacted. The proposed project would be required to provide private outdoor living space for the residential units in accordance with the City's Zoning Ordinance. Furthermore, the proposed project would be required to pay a Parks and Recreation Development Impact fee in accordance with the SMMC (9.67.040 SMMC). Therefore, impacts on parks and recreational facilities would be less than significant, and further analysis of this issue is not required.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XVIII. SHADOWS. Would the project:				
a) Produce extensive shadows affecting adjacent uses or property?	☒	☐	☐	☐

a) **Potentially Significant Impact**. In conjunction with the proposed project, the Hotel Parcel would be redeveloped with two new buildings: the California building, and the Ocean Avenue building. The California building would be seven stories (~80 feet tall), and the Ocean building would be 10 stories (~130 feet tall). The existing Landmark Palisades Building would be rehabilitated with continued use for hotel operations. Shadow sensitive uses are located in proximity to the project site. Specifically, shadow sensitive uses include medium density residential uses to the north and east and the Pacific Palisades Park to the west. Shadows from the proposed project could produce shadows and significantly impact nearby shadow sensitive uses. As such, this issue will be analyzed further in an EIR.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
IXX. TRANSPORTATION/TRAFFIC. Would the project:				
a) Conflict with an applicable plan, ordinance or policy establishing measures of effectiveness for the performance of the circulation system, taking into account all modes of transportation including mass transit and non-motorized travel and relevant components of the circulation system, including but not limited to intersections, streets, highways and freeways, pedestrian and bicycle paths, and mass transit?	☒	☐	☐	☐
b) Conflict with an applicable congestion management program, including, but not limited to level of service standards and travel demand measures, or other standards established by the county congestion management agency for designated roads or highways?	☒	☐	☐	☐
c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?	☐	☐	☐	☒
d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	☐	☐	☐	☒
e) Result in inadequate emergency access?	☐	☐	☒	☐
f) Conflict with adopted policies, plans, or programs regarding public transit, bicycle, or pedestrian facilities, or otherwise decrease the performance or safety of such facilities?	☒	☐	☐	☐

a) **Potentially Significant Impact**. The proposed project would develop hotel, residential, and commercial uses. These uses would generate increased traffic which could significantly impact the performance of the local and regional circulation system, including intersections and freeways, and could significantly exceed the level of service standards established by the Los Angeles County Congestion Management Program. As such, this issue will be further analyzed in an EIR.

b) **Potentially Significant Impact**. See Response IXX(a).

c) **No Impact**. The proposed project does not propose any uses which would change air traffic patterns or increase air traffic. Therefore, no impacts to air traffic patterns would occur, and further analysis of this issue is not required.

d) **No Impact**. The proposed project would develop a mix of hotel, residential, and commercial uses. The proposed project does not include any hazardous design feature such as sharp curves or dangerous intersections on- or off-site, nor does the proposed project propose any hazardous or incompatible uses. Furthermore, there are no existing hazardous design features such as sharp curves or dangerous intersections on-site or in the surrounding project area. No impacts would occur, and further analysis of this issue is not required.

e) **Less Than Significant Impact**. Emergency access to the project site is currently provided to emergency vehicles on the adjacent streets (Ocean Avenue, California Avenue, Wilshire Avenue, and 2nd Street). During project operation and construction, emergency access to the project site would continue to be provided via these streets. Furthermore, the project site plans would be reviewed prior to issuance of a building permit plans to ensure that all Santa Monica Fire Department fire safety requirements (including those related to emergency access) are met. The proposed project would not result in inadequate emergency access. Therefore, impacts would be less than significant, and further analysis of this issue is not required.

f) **Potentially Significant Impact**. The Big Blue Bus serves the City of Santa Monica and has fourteen bus routes throughout the area. A number of bus routes are within walking distance of the project site, including Routes 1, 2, 3, and 9. The proposed project would be required to implement transportation demand management measures to reduce vehicle trips in accordance with the LUCE. Therefore, this issue will be addressed in the EIR.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XX. TRIBAL CULTURAL RESOURCES. Would the project:				
a) Cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020.1(k) or	☒	☐	☐	☐
b) Cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is a resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resources Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.?	☒	☐	☐	☐

a, b) **Potentially Significant Impact**. Assembly Bill 52 requires that after July 1, 2015 and prior to release of an EIR for a project, the lead agency shall consult with Native American Tribes to identify, evaluate, and mitigate impacts to tribal cultural resources if a Tribe has formally requested consultation. As such, to allow for compliance with AB 52 and Native American consultation, if requested, this issue will be included in the EIR.

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XXI. UTILITIES AND SERVICE SYSTEMS. Would the project:				
a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?	☒	☐	☐	☐
b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	☒	☐	☐	☐
c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	☒	☐	☐	☐
d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?	☒	☐	☐	☐
e) Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand, in addition to the provider's existing commitments?	☒	☐	☐	☐
f) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?	☐	☐	☒	☐
g) Comply with federal, state and local statutes and regulations related to solid waste?	☐	☐	☒	☐

a, b) **Potentially Significant Impact.** The local sewer collection system is owned by the City of Santa Monica and is managed, operated, and maintained by the Water Resources Division of the City's Environmental and Public Works Management Department. Wastewater in the City flows primarily by gravity in a southerly direction to the Coastal Interceptor Sewer, and is delivered to the City of Los Angeles' Hyperion Treatment Plant located approximately seven miles southeast of Santa Monica, along the Santa Monica Bay coastline. The City has an agreement with the City of Los Angeles for Wastewater Disposal services and pays fees to Los Angeles based on monthly effluent flows to the treatment plant.

The proposed project would increase the number of existing hotel rooms on the site and provide new residential and commercial uses. The project has the potential to increase water demand and wastewater generation. Therefore, water and wastewater impacts are potentially significant and will be further analyzed in the EIR.

c) **Less Than Significant Impact**. As previously discussed, the proposed project would be required to comply with the Urban Runoff Pollution Control Ordinance (SMMC Chapter 7.10), which is intended to decrease the volume and improve the quality of runoff from development. Compliance with the City's Ordinance would reduce runoff from the project site. Project development would not substantially change stormwater runoff quantities as the project would provide open space areas throughout the site. In addition, the project would be expected to include appropriate drainage improvements on-site to accommodate anticipated stormwater flows. As such, the project would not result in the need to construction new storm water drainage facilities or expand existing facilities, such that the construction would cause significant environmental effects. Impacts regarding storm drainage facilities would be less than significant. Further analysis of this issue is not required.

d) **Potentially Significant Impact**. Water for the Santa Monica service area is supplied from both groundwater and imported sources. The proposed project has the potential to increase water demand. Therefore, this issue will be further analyzed in the EIR.

e) **Potentially Significant Impact.** The proposed project would increase the number of existing hotel rooms on the site and provide new residential and commercial uses. The project has the potential to increase wastewater generation. Therefore, wastewater impacts are potentially significant and will be further analyzed in the EIR.

f) **Less Than Significant Impact**. Construction and operation of the proposed project would result in the need for solid waste disposal at the County's landfills. In particular, construction of the proposed project would generate construction and demolition (C&D) waste such as asphalt, concrete, glass and wood. Section 8.108.010 Subpart C of the SMMC requires that demolition and/or construction projects greater than $50,000 or 1,000 square feet divert at least 70 percent of C&D material from landfills. As the project would involve the construction of new structures greater than 1,000 square feet, the proposed project would be subject to this diversion requirement. Therefore, via compliance with this ordinance, the projects' C&D waste disposal need would be reduced by at least 70 percent. As such, project construction impacts on landfill capacity would be less than significant.

Municipal waste generated in the City is disposed of at several in-County and out of County landfills. In addition, a portion of the wastes are transformed at Waste to Energy facilities. **Table 1**, *Solid Waste Facilities Serving City of Santa Monica,* shows the landfills and wastes to energy facilities that served the City in 2015.

Table 1: Solid Waste Facilities Serving City of Santa Monica			
Solid Waste Facility	**Remaining Life (Years)**	**Maximum Permitted Daily Capacity (tons per day)**	**Santa Monica Total in 2015 (tons)**
Antelope Valley Public Landfill I and II	*24*	*3,564*	*3,015*
Azusa Land Reclamation Co. Landfill	27	8,000	2,922
Chiquita Canyon Sanitary Landfill	*1*	*6,000*	*41,409*
El Sobrante Landfill	27	6,054	357
Frank Bowerman Sanitary Landfill	35	1,500	2,142
Lancaster Landfill and Recycling Center	26	5,100	569
Mid Valley	15	7,500	152
Olinda Alpha Sanitary Landfill	3	8,000	3,540
Prima Deschecha Sanitary Landfill	49	4,000	25
Simi Valley Landfill & Recycling Center	34	9,250	2,260
Sunshine Canyon City/County Landfill	*19*	*2,100*	*13,265*
Total Tons Disposed per Year (Not Diverted)			**69,661**
Southeast Resource Recovery Facility	N/A	2,240	3,485
Commerce Refuse-To-Energy Facility	N/A	1,000	4,898
Total Tons Converted to Energy			**8,382**

As shown in **Table 2**, *Project Solid Waste Generation,* operation of the proposed project would generate approximately 2,078 lbs/day of solid waste which would amount to a net increase of 618 lbs/day. Daily solid waste generated by the proposed project would, therefore, account for less than 0.01 percent of the permitted daily disposal of the in-County landfills serving the City. Furthermore, it should be noted that this figure does not account for any waste diversion programs that would be implemented by the proposed project, such as recycling programs for cardboard boxes, paper, aluminum cans, and bottles, in accordance with AB 939 and the City's Source Reduction Recycling Element. In addition, the proposed project would be constructed to meet the LEED-certified Silver Designation, and as such, would include solid waste reduction and recycling measures. Since the proposed project would not represent a substantial portion of the daily permitted tonnage of the in-County landfills serving the City, it is anticipated that the landfill would have sufficient capacity to accommodate the proposed project's solid waste disposal needs. As such, operational impacts on landfill capacity would be less than significant. Further analysis of this issue is not required.

Table 2: Project Solid Waste Generation			
Land Use	**Amount**	**Generation Rate (lbs/day)**	**Generation (lbs/day)**
Proposed			
Guestrooms	312 rooms	2lb/room	624
Food and Beverage Space	11,433 SF	0.005lb/sq ft	*57*
Meeting Space	12,651 SF	3.12lb/100 sq ft	395
Retail	6,600 SF	0.006 lb sq ft	*40*
Spa/Fitness Facility	12,431 SF	3.12lb/ 100 sq ft	388
Residential Units[1]	Up to 108 DU	5.31 lb/du	574
Total			***2,078***
Existing			
Guestrooms	301 rooms	2lb/room	602
Food and Beverage Space	3,796 SF	0.005lb/sq ft	19
Meeting Space	21,225 SF	3.12lb/ 100 sq ft	662
Retail	525 SF	0.006 lb/ sq ft	3
Spa/Fitness Facility	5,569 SF	3.12lb/ 100 sq f	174
Total			***1,460***
Net Change			***+618***

Notes: Generation rates from Calrecycle available at https://www2.calrecycle.ca.gov/ wastecharacterization/general/rates.

[1] *Residential units includes up to 60 market rate units on the Hotel Parcel and up to 48 affordable units on the Second Street Parcel for a total of up to 108 units.*

g) **Less Than Significant Impact**. The California Integrated Waste Management Act of 1989 (AB 939) was passed by the State legislature for the purpose of establishing an integrated waste management hierarchy consisting of (in order of priority): source reduction, recycling and composting, and environmentally safe transformation and land disposal. The Act requires each city, county, and regional agency, if any, to develop a source reduction and recycling element of an integrated waste management plan containing specified components. Those entities are required to divert, from disposal or transformation, 50 percent of the solid waste through source reduction, recycling, and composting. In accordance with AB939, the City prepared the Source Reduction and Recycling Element, which outlines efforts to reduce solid waste. Furthermore, the City has adopted the Sustainability City Plan, which includes a number of goals to reduce solid waste disposal. Specifically, the City's solid waste generation is not to exceed 2000 generation levels by 2020, the City shall achieve a diversion

rate of 85 percent by 2020, and the City will reduce per capita generation to 2.4 lbs/per person/day.[17]

The proposed project would not conflict with the goals of AB939, the Source Reduction and Recycling Element, and the City's Sustainable City Plan. Throughout the operational life of the proposed project, recyclable containers/ bins would be provided on-site to ensure that project-generated solid waste would be recycled or reused to the greatest extent possible. Additionally, during project construction, the project Applicant would comply with Section 8.108.010 Subpart C of the SMMC which requires that demolition and/or construction projects of over 1,000 square feet prepare a Waste Management Plan to divert at least 70 percent of C&D material from landfills.[18] In accordance with the SMMC, a Waste Management Plan would be prepared prior to commencement of construction work. Therefore, the proposed project would comply with federal, state, and local statutes and regulations related to solid waste. No impacts would occur, and further analysis of this issue is not required.

[17] City of Santa Monica Sustainability City Plan, *available at https://www.smgov.net/uploadedFiles/Departments/OSE/Categories/Sustainability/Sustainable-City-Plan.pdf. Accessed November 2018.*

[18] *Inert wastes are excluded from calculating compliance with this requirement. Inert wastes are defined as non-liquid solid resources including, but not limited to, soil and concrete, that do not contain hazardous waste or soluble pollutants and does not contain significant quantities of decomposable solid resources.*

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XXII. MANDATORY FINDINGS OF SIGNIFICANCE				
a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wild-life population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of rare or endangered plants or animals, or eliminate important examples of the major periods of California history or prehistory?	☒	☐	☐	☐
b) Does the project have impacts that are individually limited, but cumulatively considerable? "Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.	☒	☐	☐	☐
c) Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?	☒	☐	☐	☐

a) **Potentially Significant Impact**. As discussed in Section IV, Biological Resources, the project site includes the Moreton Bay Fig Tree, a designated City Landmark. In addition, the Pacific Palisades Wing was constructed in 1924 and was deemed eligible for local designation in 1986. Therefore, the proposed project would have the potential to eliminate important examples of California history. Therefore, this issue will be analyzed in an EIR.

b) **Potentially Significant Impact**. The potential for cumulative impacts occurs when the individual impacts of the proposed project and the impacts of future related projects combine to create impacts greater than those of the project alone. Cumulative impacts regarding aesthetics, air quality, biological resources, cultural resources, construction effects, geology/soils, greenhouse gas emissions, hazards, land use, neighborhood effects, noise, shadows, and transportation/circulation will be analyzed in an EIR.

c) **Potentially Significant Impact**. The proposed project could result in potentially significant impacts related to aesthetics, air quality, biological resources, cultural resources, construction effects, geology/soils, greenhouse gas emissions, hazards, hydrology and water quality, land use and planning, neighborhood effects, noise and vibration, shadows, transportation/circulation, tribal cultural resources, utilities (water and sewer), and energy. Therefore, these issues will be analyzed in an EIR.

A-3 NOP Comments and Responses

A-3.1 Overview of NOP Comments

A-3.1 Overview of NOP COMMENTS

In accord with CEQA Guidelines, the City initiated a public participation process for the Project inclusive of the circulation of a public Notice of Preparation (NOP) to inform the public that the City was preparing a EIR for the Project, and to solicit input regarding the scope and content of the environmental information to be included in the EIR.

An initial NOP was distributed with a public review period beginning on May 1, 2013. However, the Project was put on hold while the City completed the Downtown Community Plan, which the City Council adopted in July 2017. The Project was revised and a new application was submitted. Therefore, the City distributed a Recirculated NOP on June 28, 2018, for a 30-day public review period running through July 30, 2018. A public scoping meeting was held on July 19, 2018, at the Ken Edwards Center at 1527 4th Street, Santa Monica, CA. The City posted the NOP to its web-site along with information regarding procedures for providing comments during the scoping period.

Public comments were provided at the scoping meeting orally and/or on comment cards. In addition, written comments were also provided in response to the NOP during the comment period. **Table A-3.1-1** provides an overview and index of the public comments received. A summary of the oral comments and the written comments in their entirety follow in Appendix A-3.2. Each of the comment letters has been bracketed according to the distinct environmental topic contained therein.

In addition, **Table A-3.3-1** is organized by the bracketed topics in the letters and provides a response to each that indicates how and where the comment has been addressed in the EIR.

A-3.2 NOP Comments

EIR Scoping Meeting – July 19, 2018

Notes/Public Comments

The scoping meeting was held on Wednesday, July 19, 2018 at the Ken Edwards Center, located at 1527 4th Street in Santa Monica. The following is not intended as a verbatim transcript of comments/questions at the meeting, but a summary of the key points that were raised. These comments reflect the verbal comments made at the meeting, and as such, may differ in opinion.

Approximately twenty-five people spoke during the public comment portion of the scoping meeting. The City and ESA staff took notes during the comment time. In addition, some comment cards were submitted with written comments and are included with other written comments following the summary below of the verbal comments received.

Traffic

VC1-1

- Need a traffic impact study on California Avenue
- Requested analysis of how the project pedestrian circulation can activate the northern end of the 3rd Street Promenade
- Bicycle circulation should be studied
- Bicycle infrastructure including being included in route network and secure onsite covered bike parking street level
- Support for 2nd Street access for hotel as it will not interfere with bike lanes
- Consider worst case traffic scenario where the Huntley has event
- Concern with traffic; California and 2nd Street will be gridlocked
- Independent traffic study should be done
- Double buildings will double traffic
- Traffic- due to more parking/cars- don't increase volume
- Traffic-entrance on 2nd Street will still use thoroughfare
- Ocean/Wilshire buses will empty onto 2nd and Wilshire
- 2nd street and congestion with effects on residential neighborhood

Parking

VC1-2

- Parking is too much in the proposed project
- Existing parking is 100 spaces-proposed is approximated 435 spaces, because of traffic congestion the city's "smart street ideal" (use of mass transit) parking should be limited to the existing 100 spaces
- More information on garage locations and general buildup is needed
- The parking will be such a benefit to the neighborhood as well
- Parking in neighborhoods is impossible even with a permit; not enough parking for the project
- Consider providing bicycle and scooter parking on-site

VC1-2

- Provide more bike parking
- What are the final details on the affordable housing parking?

Air Quality

VC1-3

- How will light/air circulation be affected
- Will there be an estimate on oxygen generated by plants?
- Increased Pollution
- Study the impact of the project on ocean air flow around site/potential microclimate
- Must have an Air Quality study
- Calculate the project's carbon footprint

Geology

VC1-4

- Concerns about Palisades Bluff; landsides/stabilization
- USGS report of coastal bluffs stability; in relation to project and subterranean parking
- Underground parking will impact bluffs
- Need independent geological study of bluff erosion/stability/landslide
- Project will double density; impact on bluffs/erosion; geologically sensitive area;
- Construction will impact bluffs

Historic

VC1-5

- Preserve the tree
- Keep historic buildings
- Provide access to the historic tree
- Will public access to the tree be guaranteed in perpetuity?
- Provide an appraisal of the tree
- EIR should address the history of the Miramar

Aesthetics

VC1-6

- Should make the old/historic portion and the new design a bit more cohesive although the proposed design will be beautiful
- It is too massive of a building
- Shadow impacts; shadows will be increased
- Design is better but still too high, 130 feet is too much, lower height
- Height of project; limit height to 84 feet
- Current project is better designed than previously proposed project
- Construction is temporary but architecture will remain for a long time

Alternatives

VC1-7

- Suggested alternatives to be considered:
  - 84 ft. height (reduced project)
  - Retain entrances on Wilshire and Ocean to keep traffic on busiest streets
  - No condos on hotel "McMansion"
- Circulation alternatives other than California, 2nd, and Wilshire
- No Project alternative
- Alternative: Renovation option
- Alternative circulation
- What alternatives will be studied?
- Retain the existing bungalows; remodel the existing buildings; maintain the same parking

Economic

VC1-8

- Project will be an enclave for the wealthy
- Include in the EIR economic impacts; should be a giving back to the community, public services
- Evaluate the cost to residents and visitors
- Will this project alleviate the air bnb situation?
- Impacts of cost of rooms at other hotels
- Project will bring more work and opportunity to the community

Other

VC1-9

- Support for project; support for the architecture; applicant will do a fantastic job at developing the project with integrity to the city, the design and the historic elements, including the tree
- Please let them build the entire project, affordable housing and all
- Opposition to project; plan is failed; homeless will populate; no development; no Miami Beach; leave the site as is
- Affordable housing - support for diversity
- Study affordable housing increase
- Provide number of affordable housing units
- What is defined as affordable housing? Who will manage affordable housing?
- Homeless will populate
- Project is transit oriented, near transit has low VMT, has housing
  - CEQA requires that the process be streamlined; why not streamline the issues
- Hotels are green, travelers came in with transit
- Community Corporation
- Overdevelopment
- Evaluate social environment not just trips

VC1-9

- Go beyond and look at community benefits
- Study wellbeing and how the project will improve well being
- Project should achieve LEED platinum building certification which will generate less impacts
- Project will be better for environment
- Study the noise impacts
- Impacts on electricity and water and public/emergency services
- When will the proposed project be completed?
- Provide information about the use of the building while under construction
- Who is making the determination?
- Coastal access
    - Surrounding hotel $ goes up
    - Luxury condos not conducive to coastal access
- Water not enough for this development, only enough for irrigation
- Look at the Gehry project and changes that resulted
- Coastal Commission- hotel cost escalation/lower cost and condo views; access to coast

MIRAMAR HOTEL PROJECT EIR SCOPING MEETING
JULY 19, 2018 6:00 PM – 7:30 PM
KEN EDWARDS CENTER

COMMENT CARD

You may provide additional comments regarding the scope/content of the project EIR on this form, via e-mail, or US Mail.

Please provide your comments by 5:30 PM on July 30, 2018

Provide form to staff at this evening's meeting or mail to:

Rachel Kwok – Environmental Planner
City of Santa Monica – City Planning Division
1685 Main Street, Room 212
Santa Monica CA 90401

Send an e-mail to rachel.kwok@smgov.net

CC1-1

Study vibsation impacts on the bluff During construction and offer mitigations to avoid landslides

Study Wilshire Blvd View corridor looking west, as well as views from 2nd + 3rd Streets facing true west + sunset views

Study impacts of height on view of Bluff from Bike path and identify massing alternatives that could improve natural appearance of Bluff from what it is today

RE: Mirarmar Hotel Project
Notice of Preparation of Draft EIR
SCH# 2013041091
GTS # 07-LA-2018-01662-SS
Vic. LA: SR-1 PM 35.778 / I-10 PM

Dear Ms. Kwok:

Thank you for including the California Department of Transportation (Caltrans) in the environmental review process for the above referenced project. The project proposes to redevelop an existing building to include a new mixed-use hotel and residential project with ground level open space, food and beverage facilities, meeting space, and ground floor retail uses.

After reviewing the Notice of Preparation of the Draft Environmental Impact Report, Caltrans has the following comments: A1-1

The I-10 freeway merges into SR-1 and it is only less than a mile from the Project Site; regional access to the Project Site is via I-10. I-10 is already congested. Any additional traffic caused by the Project could change traffic patterns in the Project Site vicinity leading to speed differential.

The mission of Caltrans is to provide a safe, sustainable integrated and efficient transportation system to enhance California's economy and livability. Senate Bill 743 (2013) mandates that CEQA review of transportation impacts of proposed development be modified by using Vehicle Miles Traveled (VMT) as the primary metrics in identifying impacts for all future development projects. You may reference to The Governor's Office of Planning and Research (OPR) for more information: A1-2

http://opr.ca.gov/ceqa/updates /guidelines/.

The City of Santa Monica needs to develop a verifiable performance VMT criteria. This step is critical as the TIS will be based on the VMT criteria. If the City decides to use Level of Service methodology when preparing the traffic analysis on the State facilities, please refer to Caltrans's Study Guide:

http://www.dot.ca.gov./hq/tpp/offices/ocp/igr_ceqa_files/tisguide.pdf.

The DEIR needs to specify the duration of construction period and how the City of Santa Monica plans to minimize congestion on the streets and freeways.

The construction time schedule of working hours should be considered off peak hours to the maximum extent possible to minimize congestion and provide maximum safety to the pedestrians and vehicular traffic on the streets and freeways. A detailed TIS and mitigations measures need to be addressed as part of EIR. A1-3

Transportation of heavy construction equipment and/or materials, which requires the use of oversized-transport vehicles on State highways, will require a transportation permit from Caltrans. A1-4

For affected off-ramps queuing analysis based on Highway Capacity Manuel (HCM) queuing methodology is required. A1-5

The DEIR needs to specify that any work that would affect the freeways and their facilities and its facilities, Caltrans has the jurisdiction for review and approval. A1-6

We look forward to reviewing the DEIR that includes traffic impact analysis of I-10 freeway based on VMT methodology or Caltrans TIS Guide.

With the limited room to expand vehicular capacity, this development should incorporate multimodal and complete streets transportation elements of TDM (Traffic Demand Management) in order to promote alternatives to single person car use and others. The incorporation of bicycling and public transportation, as an example, can allow streets to transport more people in a fixed right-of way space. A1-7

Storm water run-off is a sensitive issue for Los Angeles and Ventura counties. Please be mindful that project needs to be designed to discharge clean run-off water. If you have any questions, please feel free to contact the project coordinator, Shabnam Sheikh, shabnam.sheikh@dot.ca.gov, and refer to GTS #07-LA-2018-01662-SS. A1-8

Sincerely,

MIYA EDMONSON
IGR/CEQA Branch Chief

Subject: Miramar Hotel Project - Metro CMP Notice
Attachments: 2018-05-31 Metro CMP Notice.pdf

Good afternoon Rachel,

Thank you for the opportunity to comment on the Recirculated Notice of Preparation of an EIR for the proposed Miramar Hotel Project located at 1133 Ocean Avenue and 1127 2nd Street in the City of Santa Monica. Per Metro's regulatory responsibility, we have attached a notice of state requirements regarding the Congestion Management Program (CMP). Please contact David Lor (LorD@metro.net) with any questions.

Best,

Marquis Williams

Metro

Congestion Management Program

Metro must notify the Project Sponsor of state requirements. A Transportation Impact Analysis (TIA), with roadway and transit components, is required under the State of California Congestion Management Program (CMP) statute. The CMP TIA Guidelines are published in the "2010 Congestion Management Program for Los Angeles County," Appendix D (attached). The geographic area examined in the TIA must include the following, at a minimum:

1. All CMP arterial monitoring intersections, including monitored freeway on/off-ramp intersections, where the proposed Project will add 50 or more trips during either the a.m. or p.m. weekday peak hour (of adjacent street traffic).

2. If CMP arterial segments are being analyzed rather than intersections, the study area must include all segments where the proposed Project will add 50 or more peak hour trips (total of both directions). Within the study area, the TIA must analyze at least one segment between monitored CMP intersections.

3. Mainline freeway-monitoring locations where the Project will add 150 or more trips, in either direction, during either the a.m. or p.m. weekday peak hour.

4. Caltrans must also be consulted through the NOP process to identify other specific locations to be analyzed on the state highway system.

A2-1

The CMP TIA requirement also contains two separate impact studies covering roadways and transit, as outlined in Sections D.8.1 – D.9.4. If the TIA identifies no facilities for study based on the criteria above, no further traffic analysis is required. However, projects must still consider transit impacts. For all CMP TIA requirements please see the attached guidelines.

If you have any questions, please contact David Lor by phone at 213-922-2883, by email at lord@metro.net, or by mail at the following address:

APPENDIX

D

GUIDELINES FOR CMP TRANSPORTATION IMPACT ANALYSIS

Important Notice to User: This section provides detailed travel statistics for the Los Angeles area which will be updated on an ongoing basis. Updates will be distributed to all local jurisdictions when available. In order to ensure that impact analyses reflect the best available information, lead agencies may also contact MTA at the time of study initiation. Please contact MTA staff to request the most recent release of "Baseline Travel Data for CMP TIAs."

D.1 OBJECTIVE OF GUIDELINES

The following guidelines are intended to assist local agencies in evaluating impacts of land use decisions on the Congestion Management Program (CMP) system, through preparation of a regional transportation impact analysis (TIA). The following are the basic objectives of these guidelines:

- Promote consistency in the studies conducted by different jurisdictions, while maintaining flexibility for the variety of project types which could be affected by these guidelines.
- Establish procedures which can be implemented within existing project review processes and without ongoing review by MTA.
- Provide guidelines which can be implemented immediately, with the full intention of subsequent review and possible revision.

These guidelines are based on specific requirements of the Congestion Management Program, and travel data sources available specifically for Los Angeles County. References are listed in Section D.10 which provide additional information on possible methodologies and available resources for conducting TIAs.

D.2 GENERAL PROVISIONS

Exhibit D-7 provides the model resolution that local jurisdictions adopted containing CMP TIA procedures in 1993. TIA requirements should be fulfilled within the existing environmental review process, extending local traffic impact studies to include impacts to the regional system. In order to monitor activities affected by these requirements, Notices of Preparation (NOPs) must be submitted to MTA as a responsible agency. Formal MTA approval of individual TIAs is not required.

The following sections describe CMP TIA requirements in detail. In general, the competing objectives of consistency & flexibility have been addressed by specifying standard, or minimum, requirements and requiring documentation when a TIA varies from these standards.

D.3 PROJECTS SUBJECT TO ANALYSIS

In general a CMP TIA is required for all projects required to prepare an Environmental Impact Report (EIR) based on local determination. A TIA is not required if the lead agency for the EIR finds that traffic is not a significant issue, and does not require local or regional traffic impact analysis in the EIR. Please refer to Chapter 5 for more detailed information.

CMP TIA guidelines, particularly intersection analyses, are largely geared toward analysis of projects where land use types and design details are known. Where likely land uses are not defined (such as where project descriptions are limited to zoning designation and parcel size with no information on access location), the level of detail in the TIA may be adjusted accordingly. This may apply, for example, to some redevelopment areas and citywide general plans, or community level specific plans. In such cases, where project definition is insufficient for meaningful intersection level of service analysis, CMP arterial segment analysis may substitute for intersection analysis.

D.4 STUDY AREA

The geographic area examined in the TIA must include the following, at a minimum:

- All CMP arterial monitoring intersections, including monitored freeway on- or off-ramp intersections, where the proposed project will add 50 or more trips during either the AM or PM weekday peak hours (of adjacent street traffic).
- If CMP arterial segments are being analyzed rather than intersections (see Section D.3), the study area must include all segments where the proposed project will add 50 or more peak hour trips (total of both directions). Within the study area, the TIA must analyze at least one segment between monitored CMP intersections.
- Mainline freeway monitoring locations where the project will add 150 or more trips, in either direction, during either the AM or PM weekday peak hours.
- Caltrans must also be consulted through the Notice of Preparation (NOP) process to identify other specific locations to be analyzed on the state highway system.

If the TIA identifies no facilities for study based on these criteria, no further traffic analysis is required. However, projects must still consider transit impacts (Section D.8.4).

D.5 BACKGROUND TRAFFIC CONDITIONS

The following sections describe the procedures for documenting and estimating background, or non-project related traffic conditions. Note that for the purpose of a TIA, these background estimates must include traffic from all sources without regard to the exemptions specified in CMP statute (e.g., traffic generated by the provision of low and very low income housing, or trips originating outside Los Angeles County. Refer to Chapter 5, Section 5.2.3 for a complete list of exempted projects).

D.5.1 Existing Traffic Conditions. Existing traffic volumes and levels of service (LOS) on the CMP highway system within the study area must be documented. Traffic counts must

be less than one year old at the time the study is initiated, and collected in accordance with CMP highway monitoring requirements (see Appendix A). Section D.8.1 describes TIA LOS calculation requirements in greater detail. Freeway traffic volume and LOS data provided by Caltrans is also provided in Appendix A.

D.5.2 Selection of Horizon Year and Background Traffic Growth. Horizon year(s) selection is left to the lead agency, based on individual characteristics of the project being analyzed. In general, the horizon year should reflect a realistic estimate of the project completion date. For large developments phased over several years, review of intermediate milestones prior to buildout should also be considered.

At a minimum, horizon year background traffic growth estimates must use the generalized growth factors shown in Exhibit D-1. These growth factors are based on regional modeling efforts, and estimate the general effect of cumulative development and other socioeconomic changes on traffic throughout the region. Beyond this minimum, selection among the various methodologies available to estimate horizon year background traffic in greater detail is left to the lead agency. Suggested approaches include consultation with the jurisdiction in which the intersection under study is located, in order to obtain more detailed traffic estimates based on ongoing development in the vicinity.

D.6 PROPOSED PROJECT TRAFFIC GENERATION

Traffic generation estimates must conform to the procedures of the current edition of Trip Generation, by the Institute of Transportation Engineers (ITE). If an alternative methodology is used, the basis for this methodology must be fully documented.

Increases in site traffic generation may be reduced for existing land uses to be removed, if the existing use was operating during the year the traffic counts were collected. Current traffic generation should be substantiated by actual driveway counts; however, if infeasible, traffic may be estimated based on a methodology consistent with that used for the proposed use.

Regional transportation impact analysis also requires consideration of trip lengths. Total site traffic generation must therefore be divided into work and non-work-related trip purposes in order to reflect observed trip length differences. Exhibit D-2 provides factors which indicate trip purpose breakdowns for various land use types.

For lead agencies who also participate in CMP highway monitoring, it is recommended that any traffic counts on CMP facilities needed to prepare the TIA should be done in the manner outlined in Chapter 2 and Appendix A. If the TIA traffic counts are taken within one year of the deadline for submittal of CMP highway monitoring data, the local jurisdiction would save the cost of having to conduct the traffic counts twice.

D.7 TRIP DISTRIBUTION

For trip distribution by direct/manual assignment, generalized trip distribution factors are provided in Exhibit D-3, based on regional modeling efforts. These factors indicate Regional Statistical Area (RSA)-level tripmaking for work and non-work trip purposes.

(These RSAs are illustrated in Exhibit D-4.) For locations where it is difficult to determine the project site RSA, census tract/RSA correspondence tables are available from MTA.

Exhibit D-5 describes a general approach to applying the preceding factors. Project trip distribution must be consistent with these trip distribution and purpose factors; the basis for variation must be documented.

Local agency travel demand models disaggregated from the SCAG regional model are presumed to conform to this requirement, as long as the trip distribution functions are consistent with the regional distribution patterns. For retail commercial developments, alternative trip distribution factors may be appropriate based on the market area for the specific planned use. Such market area analysis must clearly identify the basis for the trip distribution pattern expected.

D.8 IMPACT ANALYSIS

CMP Transportation Impact Analyses contain two separate impact studies covering roadways and transit. Section Nos. D.8.1-D.8.3 cover required roadway analysis while Section No. D.8.4 covers the required transit impact analysis. Section Nos. D.9.1-D.9.4 define the requirement for discussion and evaluation of alternative mitigation measures.

D.8.1 Intersection Level of Service Analysis. The LA County CMP recognizes that individual jurisdictions have wide ranging experience with LOS analysis, reflecting the variety of community characteristics, traffic controls and street standards throughout the county. As a result, the CMP acknowledges the possibility that no single set of assumptions should be mandated for all TIAs within the county.

However, in order to promote consistency in the TIAs prepared by different jurisdictions, CMP TIAs must conduct intersection LOS calculations using either of the following methods:

- The Intersection Capacity Utilization (ICU) method as specified for CMP highway monitoring (see Appendix A); or
- The Critical Movement Analysis (CMA) / Circular 212 method.

Variation from the standard assumptions under either of these methods for circumstances at particular intersections must be fully documented.

TIAs using the 1985 or 1994 Highway Capacity Manual (HCM) operational analysis must provide converted volume-to-capacity based LOS values, as specified for CMP highway monitoring in Appendix A.

D.8.2 Arterial Segment Analysis. For TIAs involving arterial segment analysis, volume-to-capacity ratios must be calculated for each segment and LOS values assigned using the V/C-LOS equivalency specified for arterial intersections. A capacity of 800 vehicles per hour per through traffic lane must be used, unless localized conditions necessitate alternative values to approximate current intersection congestion levels.

D.8.3 Freeway Segment (Mainline) Analysis. For the purpose of CMP TIAs, a simplified analysis of freeway impacts is required. This analysis consists of a demand-to-capacity calculation for the affected segments, and is indicated in Exhibit D-6.

D.8.4 Transit Impact Review. CMP transit analysis requirements are met by completing and incorporating into an EIR the following transit impact analysis:

- ❑ Evidence that affected transit operators received the Notice of Preparation.
- ❑ A summary of existing transit services in the project area. Include local fixed-route services within a ¼ mile radius of the project; express bus routes within a 2 mile radius of the project, and; rail service within a 2 mile radius of the project.
- ❑ Information on trip generation and mode assignment for both AM and PM peak hour periods as well as for daily periods. Trips assigned to transit will also need to be calculated for the same peak hour and daily periods. Peak hours are defined as 7:30-8:30 AM and 4:30-5:30 PM. Both "peak hour" and "daily" refer to average weekdays, unless special seasonal variations are expected. If expected, seasonal variations should be described.
- ❑ Documentation of the assumption and analyses that were used to determine the number and percent of trips assigned to transit. Trips assigned to transit may be calculated along the following guidelines:
  - ➢ Multiply the total trips generated by 1.4 to convert vehicle trips to person trips;
  - ➢ For each time period, multiply the result by one of the following factors:

    3.5% of Total Person Trips Generated for most cases, except:

    10% primarily Residential within 1/4 mile of a CMP transit center
    15% primarily Commercial within 1/4 mile of a CMP transit center
    7% primarily Residential within 1/4 mile of a CMP multi-modal transportation center
    9% primarily Commercial within 1/4 mile of a CMP multi-modal transportation center
    5% primarily Residential within 1/4 mile of a CMP transit corridor
    7% primarily Commercial within 1/4 mile of a CMP transit corridor
    0% if no fixed route transit services operate within one mile of the project

  To determine whether a project is primarily residential or commercial in nature, please refer to the CMP land use categories listed and defined in Appendix E, *Guidelines for New Development Activity Tracking and Self Certification*. For projects that are only partially within the above one-quarter mile radius, the base rate (3.5% of total trips generated) should be applied to all of the project buildings that touch the radius perimeter.

- ❑ Information on facilities and/or programs that will be incorporated in the development plan that will encourage public transit use. Include not only the jurisdiction's TDM Ordinance measures, but other project specific measures.

- Analysis of expected project impacts on current and future transit services and proposed project mitigation measures, and;
- Selection of final mitigation measures remains at the discretion of the local jurisdiction/lead agency. Once a mitigation program is selected, the jurisdiction self-monitors implementation through the existing mitigation monitoring requirements of CEQA.

D.9 IDENTIFICATION AND EVALUATION OF MITIGATION

D.9.1 Criteria for Determining a Significant Impact. For purposes of the CMP, a significant impact occurs when the proposed project increases traffic demand on a CMP facility by 2% of capacity ($V/C \geq 0.02$), causing LOS F ($V/C > 1.00$); if the facility is already at LOS F, a significant impact occurs when the proposed project increases traffic demand on a CMP facility by 2% of capacity ($V/C \geq 0.02$). The lead agency may apply a more stringent criteria if desired.

D.9.2 Identification of Mitigation. Once the project has been determined to cause a significant impact, the lead agency must investigate measures which will mitigate the impact of the project. Mitigation measures proposed must clearly indicate the following:

- Cost estimates, indicating the fair share costs to mitigate the impact of the proposed project. If the improvement from a proposed mitigation measure will exceed the impact of the project, the TIA must indicate the proportion of total mitigation costs which is attributable to the project. This fulfills the statutory requirement to exclude the costs of mitigating inter-regional trips.
- Implementation responsibilities. Where the agency responsible for implementing mitigation is not the lead agency, the TIA must document consultation with the implementing agency regarding project impacts, mitigation feasibility and responsibility.

Final selection of mitigation measures remains at the discretion of the lead agency. The TIA must, however, provide a summary of impacts and mitigation measures. Once a mitigation program is selected, the jurisdiction self-monitors implementation through the mitigation monitoring requirements contained in CEQA.

D.9.3 Project Contribution to Planned Regional Improvements. If the TIA concludes that project impacts will be mitigated by anticipated regional transportation improvements, such as rail transit or high occupancy vehicle facilities, the TIA must document:

- Any project contribution to the improvement, and
- The means by which trips generated at the site will access the regional facility.

D.9.4 Transportation Demand Management (TDM). If the TIA concludes or assumes that project impacts will be reduced through the implementation of TDM measures, the TIA must document specific actions to be implemented by the project which substantiate these conclusions.

Notice of Preparation of a Draft Environmental Impact Report for Miramar Hotel Project

The South Coast Air Quality Management District (SCAQMD) staff appreciates the opportunity to comment on the above-mentioned document. SCAQMD staff's comments are recommendations regarding the analysis of potential air quality impacts from the Proposed Project that should be included in the Draft Environmental Impact Report (DEIR). Please send SCAQMD a copy of the DEIR upon its completion. Note that copies of the DEIR that are submitted to the State Clearinghouse are not forwarded to SCAQMD. Please forward a copy of the DEIR directly to SCAQMD at the address shown in the letterhead. **In addition, please send with the DEIR all appendices or technical documents related to the air quality, health risk, and greenhouse gas analyses and electronic versions of all air quality modeling and health risk assessment files[1]. These include emission calculation spreadsheets and modeling input and output files (not PDF files). Without all files and supporting documentation, SCAQMD staff will be unable to complete our review of the air quality analyses in a timely manner. Any delays in providing all supporting documentation will require additional time for review beyond the end of the comment period.** A3-1

Air Quality Analysis

The SCAQMD adopted its California Environmental Quality Act (CEQA) Air Quality Handbook in 1993 to assist other public agencies with the preparation of air quality analyses. The SCAQMD staff recommends that the Lead Agency use this Handbook as guidance when preparing its air quality analyses. Copies of the Handbook are available from the SCAQMD's Subscription Services Department by calling (909) 396-3720. More recent guidance developed since this Handbook was published is also available on SCAQMD's website at: http://www.aqmd.gov/home/regulations/ceqa/air-quality-analysis-handbook/ceqa-air-quality-handbook-(1993). The SCAQMD staff also recommends that the Lead Agency use the CalEEMod land use emissions software. This software has recently been updated to incorporate up-to-date state and locally approved emission factors and methodologies for estimating pollutant emissions from typical land use development. CalEEMod is the only software model maintained by the California Air Pollution Control Officers Association (CAPCOA) and replaces the now outdated URBEMIS. This model is available free of charge at: www.caleemod.com. A3-2

On March 3, 2017, the SCAQMD's Governing Board adopted the 2016 Air Quality Management Plan (2016 AQMP), which was later approved by the California Air Resources Board on March 23, 2017. Built upon the progress in implementing the 2007 and 2012 AQMPs, the 2016 AQMP provides a regional A3-3

[1] Pursuant to the CEQA Guidelines Section 15174, the information contained in an EIR shall include summarized technical data, maps, plot plans, diagrams, and similar relevant information sufficient to permit full assessment of significant environmental impacts by reviewing agencies and members of the public. Placement of highly technical and specialized analysis and data in the body of an EIR should be avoided through inclusion of supporting information and analyses as appendices to the main body of the EIR. Appendices to the EIR may be prepared in volumes separate from the basic EIR document, but shall be readily available for public examination and shall be submitted to all clearinghouses which assist in public review.

perspective on air quality and the challenges facing the South Coast Air Basin. The most significant air quality challenge in the Basin is to achieve an additional 45 percent reduction in nitrogen oxide (NOx) emissions in 2023 and an additional 55 percent NOx reduction beyond 2031 levels for ozone attainment. The 2016 AQMP is available on SCAQMD's website at: http://www.aqmd.gov/home/library/clean-air-plans/air-quality-mgt-plan. A3-3

SCAQMD staff recognizes that there are many factors Lead Agencies must consider when making local planning and land use decisions. To facilitate stronger collaboration between Lead Agencies and the SCAQMD to reduce community exposure to source-specific and cumulative air pollution impacts, the SCAQMD adopted the Guidance Document for Addressing Air Quality Issues in General Plans and Local Planning in 2005. This Guidance Document provides suggested policies that local governments can use in their General Plans or through local planning to prevent or reduce potential air pollution impacts and protect public health. SCAQMD staff recommends that the Lead Agency review this Guidance Document as a tool when making local planning and land use decisions. This Guidance Document is available on SCAQMD's website at: http://www.aqmd.gov/docs/default-source/planning/air-quality-guidance/complete-guidance-document.pdf. Additional guidance on siting incompatible land uses (such as placing homes near freeways or other polluting sources) can be found in the California Air Resources Board's *Air Quality and Land Use Handbook: A Community Health Perspective*, which can be found at: http://www.arb.ca.gov/ch/handbook.pdf. Guidance[2] on strategies to reduce air pollution exposure near high-volume roadways can be found at: https://www.arb.ca.gov/ch/rd_technical_advisory_final.PDF. A3-4

The SCAQMD has also developed both regional and localized significance thresholds. SCAQMD staff requests that the Lead Agency compare the emission results to the recommended regional significance thresholds found here: http://www.aqmd.gov/docs/default-source/ceqa/handbook/scaqmd-air-quality-significance-thresholds.pdf. In addition to analyzing regional air quality impacts, SCAQMD staff recommends calculating localized air quality impacts and comparing the results to localized significance thresholds (LSTs). LSTs can be used in addition to the recommended regional significance thresholds as a second indication of air quality impacts when preparing a CEQA document. Therefore, when preparing the air quality analysis for the Proposed Project, it is recommended that the Lead Agency perform a localized analysis by either using the LSTs developed by the SCAQMD or performing dispersion modeling as necessary. Guidance for performing a localized air quality analysis can be found at: http://www.aqmd.gov/home/regulations/ceqa/air-quality-analysis-handbook/localized-significance-thresholds. A3-5

When specific development is reasonably foreseeable as result of the goals, policies, and guidelines in the Proposed Project, the Lead Agency should identify any potential adverse air quality impacts and sources of air pollution that could occur using its best efforts to find out and a good-faith effort at full disclosure in the DEIR. The degree of specificity will correspond to the degree of specificity involved in the underlying activity which is described in the DEIR (CEQA Guidelines Section 15146). When quantifying air quality emissions, emissions from both construction (including demolition, if any) and operations should be calculated. Construction-related air quality impacts typically include, but are not limited to, emissions from the use of heavy-duty equipment from grading, earth-loading/unloading, paving, architectural coatings, off-road mobile sources (e.g., heavy-duty construction equipment) and on-road mobile sources (e.g., construction worker vehicle trips, material transport trips). Operation-related air quality impacts may include, but are not limited to, emissions from stationary sources (e.g., boilers), area sources (e.g., solvents and coatings), and vehicular trips (e.g., on- and off-road tailpipe emissions and A3-6

[2] In April 2017, CARB published a technical advisory, *Strategies to Reduce Air Pollution Exposure Near High-Volume Roadways: Technical Advisory*, to supplement CARB's Air Quality and Land Use Handbook: A Community Health Perspective. This technical advisory is intended to provide information on strategies to reduce exposures to traffic emissions near high-volume roadways to assist land use planning and decision-making in order to protect public health and promote equity and environmental justice. The technical advisory is available at: https://www.arb.ca.gov/ch/landuse.htm.

entrained dust). Air quality impacts from indirect sources, such as sources that generate or attract vehicular trips, should be included in the analysis. Furthermore, for phased projects where there will be an overlap between construction and operation, the air quality impacts from the overlap should be combined and compared to SCAQMD's regional air quality CEQA operational thresholds to determine significance. A3-6

In the event that the Proposed Project generates or attracts vehicular trips, especially heavy-duty diesel-fueled vehicles, it is recommended that the Lead Agency perform a mobile source health risk assessment. Guidance for performing a mobile source health risk assessment ("*Health Risk Assessment Guidance for Analyzing Cancer Risk from Mobile Source Diesel Idling Emissions for CEQA Air Quality Analysis*") can be found at: http://www.aqmd.gov/home/regulations/ceqa/air-quality-analysis-handbook/mobile-source-toxics-analysis. An analysis of all toxic air contaminant impacts due to the use of equipment potentially generating such air pollutants should also be included. A3-7

Mitigation Measures

In the event that the Proposed Project generates significant adverse air quality impacts, CEQA requires that all feasible mitigation measures that go beyond what is required by law be utilized during project construction and operation to minimize or eliminate these impacts. Pursuant to CEQA Guidelines Section 15126.4 (a)(1)(D), any impacts resulting from mitigation measures must also be discussed. Several resources are available to assist the Lead Agency with identifying possible mitigation measures for the Proposed Project, including:

- Chapter 11- Mitigating the Impact of a Project, of the SCAQMD *CEQA Air Quality Handbook*
- SCAQMD's CEQA web pages available here: http://www.aqmd.gov/home/regulations/ceqa/air-quality-analysis-handbook/mitigation-measures-and-control-efficiencies
- SCAQMD's Rule 403 – Fugitive Dust, and the Implementation Handbook for controlling construction-related emissions and Rule 1403 – Asbestos Emissions from Demolition/Renovation Activities
- SCAG's MMRP for the 2016-2040 Regional Transportation Plan/Sustainable Communities Strategy available here: http://scagrtpscs.net/Documents/2016/pEIR/final/2016fPEIR_ExhibitB_MMRP.pdf
- CAPCOA's *Quantifying Greenhouse Gas Mitigation Measures* available here: http://www.capcoa.org/wp-content/uploads/2010/11/CAPCOA-Quantification-Report-9-14-Final.pdf

A3-8

Alternatives

In the event that the Proposed Project generates significant adverse air quality impacts, CEQA requires the consideration and discussion of alternatives to the project or its location which are capable of avoiding or substantially lessening any of the significant effects of the project. The discussion of a reasonable range of potentially feasible alternatives, including a "no project" alternative, is intended to foster informed decision-making and public participation. Pursuant to CEQA Guidelines Section 15126.6(d), the DEIR shall include sufficient information about each alternative to allow meaningful evaluation, analysis, and comparison with the Proposed Project. A3-9

Permits

In the event that the Proposed Project requires a permit from SCAQMD, SCAQMD should be identified as a responsible agency for the Proposed Project. For more information on permits, please visit SCAQMD webpage at: http://www.aqmd.gov/home/permits. Questions on permits can be directed to SCAQMD's Engineering and Permitting staff at (909) 396-3385. A3-10

Data Sources
SCAQMD rules and relevant air quality reports and data are available by calling the SCAQMD's Public Information Center at (909) 396-2039. Much of the information available through the Public Information Center is also available via the SCAQMD's webpage (http://www.aqmd.gov). A3-11

The SCAQMD staff is available to work with the Lead Agency to ensure that project air quality and health risk impacts are accurately evaluated and mitigated where feasible. If you have any questions regarding this letter, please contact Robert Dalbeck, Assistant Air Quality Specialist, at rdalbeck@aqmd.gov. A3-12

Sincerely,

Daniel Garcia

Santa Monica, CA 90401

Dear Ms. Kwok:

At its July 19, 2018 Recreation and Parks Commission meeting, the Commission approved writing a letter to the City Planning Division expressing concerns about the potential geological and structural impacts the proposed Miramar Hotel Project might have on Palisades Park and the bluffs. The Miramar Hotel Project is located at 1133 Ocean Avenue, directly across the street from the landmarked Palisades Park and the bluffs.

Having reviewed the Notice of Preparation (NOP), it is the Commission's understanding that the EIR is exploring the proposed project's potential effects on geology and soils. We request that the geological effects of the proposed project on Palisades Park and the bluffs be explored, as we are concerned about the structural stability of the park and further degradation of the bluffs. A4-1

At the July 19, 2018 Recreation and Parks Commission meeting, City Engineer, Rick Valte, talked with us about the current condition of the Palisades bluffs and the fact that the bluffs are receding at a rate of approximately three inches per year. During the discussion, Commissioners expressed concerns about the additional weight of the added stories to the building, as well as the extended vibration and weight of the mechanical equipment during the potentially lengthy construction for a project of such size.

With the sustaining enjoyment and natural beauty in mind for generations to come, please study the specific geological and structural impacts the proposed Miramar Hotel Project may have on Palisades Park and the bluffs.

Sincerely,

John C. Smith, Chair

FROM: Santa Monica Coalition for a Livable City ("SMCLC")

RE: Scoping Comments for the Miramar Hotel Project DEIR

The Santa Monica Coalition for a Livable City ("SMCLC") submits these comments as to the scope of the Draft Environmental Impact Report ("DEIR") for the proposed Miramar Hotel project. SMCLC, as well as large numbers of residents and businesses in the City, have great concerns about the proposed demolition of the hotel on the site, to build a new luxury hotel with about the same number of rooms, dwarfed by 60 luxury condos and greatly expanded commercial uses. The proposed project would overwhelm the existing hotel in size and scope.

In the Downtown Community Plan ("DCP"), the zoning for Ocean Avenue was intentionally kept low with greater height and density permitted for the Downtown core. There is little support, among residents (or justification) for the City to have "spot zoned" the Miramar Hotel site, allowing far greater height and density than the rest of Ocean Avenue in order to build a massive commercial/condo development. For these reasons, we believe the DEIR should include an alternative project that conforms to the height and density required for the rest of Ocean Avenue.

On the main site, the developer proposes to demolish the Miramar Hotel in order to construct a 500,000-square foot project, roughly the size of Santa Monica Place which sits on 10 acres. This project would sit on only 4.5 acres, creating substantially greater massing and impact within a much smaller site. The new development would be twice the size of the existing hotel, due mainly to the 60 condos and more intensive retail uses. The existing hotel has 301 rooms; the new hotel would have 312 rooms. That's only 11 additional hotel rooms as part of a 500,000-square foot project!

We strongly believe this project would not be approved if it were subject to a public vote, among other reasons, because providing 60 luxury units for the super-rich at heights of 130 feet does not provide a community benefit. Nor will the owners likely be stakeholders in our community if they are occasional visitors. And it's hard to justify it as a good deal for the City's coffers if there is no appreciable gain in the bed tax resulting from such an immense development. While an EIR doesn't analyze economic impacts, it will be incumbent on the City to do so as this project goes forward.

O1-1

1223 wilshire boulevard, box 1002 • santa monica, california 90403-5400 • tel/fax 310-395-8044 • email info@smclc.net • www.smclc.net

SMCLC
Santa Monica Coalition for a Livable City

We are also concerned with the significant increase in retail on the site, the greatly expanded spa and a much larger catering operation. As proposed, the project would add significant additional traffic to the area, including to residential Second Street and the residential neighborhood it abuts, exacerbating the growing traffic gridlock in Downtown and along Wilshire and Ocean. And, as proposed, the project may not provide sufficient parking to alleviate the current problem of overflow parking on adjacent neighborhood streets.

It is therefore incumbent that the DEIR study a full range of alternatives, including: (1) a project with significantly less height and density, condo and retail space; (2) a project with no condos; (3) a project that conforms to the maximum height and zoning for the rest of Ocean Avenue; (4) a "rehab" project that keeps the existing hotel footprint in reconfiguring the hotel rooms and sizes rather than demolishing the entire building for a *de minimus* gain in rooms); and (5) a traffic impact analysis as to each of the above alternatives, including the impacts of siting a new hotel entrance and driveways (a) on Second Street, or (b) on Wilshire as well as their respective mitigations. O1-1

The DEIR should not pose "alternatives" that do not reduce the project's proposed heights, density, traffic and other impacts (or only minimally do so) and thereby impermissibly shortchange the required environmental analysis as SMCLC believes was the case with the EIR for the Hines project on the former Papermate site.

Sincerely,

Diana Gordon

RE: Scoping Comments for the Miramar Hotel Project DEIR

https://www.smgov.net/uploadedFiles/Departments/PCD/Projects/Miramar%20Hotel%20Project%20EIR%20Scoping%20Meeting%20Presentation%207-19-18.pdf

O2-1

A majority of the FOSP Board members submit the following comments regarding the scope of the Draft Environmental Impact Report (DEIR) for the proposed Miramar Hotel project:

The FOSP Board is concerned about the proposed demolition of the existing hotel in order to build a new luxury hotel with about the same number of rooms, plus 60 luxury condos, and additional retail. The proposed project would **double** the square footage of the existing hotel.

In the Downtown Community Plan, the zoning for Ocean Avenue was intentionally kept low. There seems to be little justification for "spot zoning" the Miramar Hotel site in order to allow the construction of a massive commercial/condo project. The existing hotel has 301 rooms. The new hotel would have 312 rooms. **Why allow an additional 250,000 sq ft for only 11 additional hotel rooms?**

Building 60 luxury ocean-view condo units at heights up to 130 feet for the super-wealthy will not provide a "community benefit" for Santa Monica residents. O2-1

In addition, the increase in retail on the site, the expanded spa, and a larger catering operation, along with the condos, will greatly increase traffic around the hotel. Moving vehicle access from Wilshire Blvd. to narrow Second Street seems like a recipe for disaster. O2-2

There's a question as to whether the proposal will provide adequate parking. O2-3

Finally, the edge of the bluffs behind the statue of Saint Monica, on the west side of Ocean Avenue at Wilshire, seems to continue eroding, bringing the edge closer and closer to the statue. This is right across the street from the Miramar. **What will the impact of a nearby 500,000 sq ft construction project be on the stability of the bluffs and on Palisades Park?** O2-4

It is therefore important that the DEIR study the following:

(1) a project with significantly less height and density, condo and retail space;

(2) **a project conforming to the maximum height and zoning for the rest of Ocean Avenue;** O2-5

(3) a project with no condos;

(4) an adaptive reuse project that keeps the existing hotel footprint rather than demolishing an entire building for a very small increase in the number of rooms; and

(5) a traffic impact analysis for retaining the entrances on Wilshire and Ocean Avenue, rather than moving them to narrow Second Street or California Avenue; O2-6

(6) a parking impact analysis; O2-7

O2-8

(7) **an independent geologic analysis and investigation of the impact of the proposed Miramar project on the Palisades bluffs and Palisades Park.**

O2-9

The DEIR should study **only** "alternatives" that significantly reduce the project's proposed heights, density, traffic, and other impacts.

Attachments: 2018.07.11 CEQA and Land Use Notice Request for the Hotel Miramar Project.pdf

Dear Mr. Cole, Ms. Anderson and Ms. Kwok,

Attached please find a CEQA and Land Use Notice Request on behalf of Laborers International Union of North America, Local Union 300 and its members living in the City of Santa Monica ("LIUNA"), regarding the Miramar Hotel Project .

Please note that a hard copy will follow via U.S. First Class Mail.

If you have any questions, please feel free to contact our office.

Best regards,

Daniel Charlier-Smith

Re: **CEQA and Land Use Notice Request for the Miramar Hotel Project**

Dear Mr. Cole, Ms. Anderson, and Ms. Kwok:

I am writing on behalf of the Laborers International Union of North America, Local Union 300 and its members living in the City of Los Angeles ("LIUNA") regarding the Miramar Hotel Project ("Project"), including all actions referring or related to the proposed project that would involve the redevelopment of the Main Parcel and Second Street Parcel. The Main Parcel would include a new mixed-use hotel and residential project with ground level open space, food and beverage facilities, meeting space, and ground floor retail uses along Wilshire Boulevard. The proposed total above grade floor area would be approximately 502,157 sf; the current hotel on the main parcel consists of approximately 262,284 sf of floor area located in the Downtown district of the City of Santa Monica. The main parcel is located at 1133 Ocean Avenue. The other parcel is located directly across the street to the east at 1127 2nd Street.

We hereby request that the City of Santa Monica ("City") send by electronic mail, if possible or U.S. mail to our firm at the address below notice of any and all actions or hearings related to activities undertaken, authorized, approved, permitted, licensed, or certified by the City and any of its subdivisions, and/or supported, in whole or in part, through contracts, grants, subsidies, loans or other forms of assistance from the City, including, but not limited to the following:

- Notice of any public hearing in connection with the Project as required by California Planning and Zoning Law pursuant to Government Code Section 65091.
- Any and all notices prepared for the Project pursuant to the California Environmental Quality Act ("CEQA"), including, but not limited to:

O3-1

- Notices of any public hearing held pursuant to CEQA.
- Notices of determination that an Environmental Impact Report ("EIR") is required for a project, prepared pursuant to Public Resources Code Section 21080.4.
- Notices of any scoping meeting held pursuant to Public Resources Code Section 21083.9.
- Notices of preparation of an EIR or a negative declaration for a project, prepared pursuant to Public Resources Code Section 21092.
- Notices of availability of an EIR or a negative declaration for a project, prepared pursuant to Public Resources Code Section 21152 and Section 15087 of Title 14 of the California Code of Regulations.
- Notices of approval and/or determination to carry out a project, prepared pursuant to Public Resources Code Section 21152 or any other provision of law.
- Notices of approval or certification of any EIR or negative declaration, prepared pursuant to Public Resources Code Section 21152 or any other provision of law.
- Notices of determination that a project is exempt from CEQA, prepared pursuant to Public Resources Code section 21152 or any other provision of law.
- Notice of any Final EIR prepared pursuant to CEQA.
- Notice of determination, prepared pursuant to Public Resources Code Section 21108 or Section 21152.

O3-1

Please note that we are requesting notices of CEQA actions and notices of any public hearings to be held under any provision of Title 7 of the California Government Code governing California Planning and Zoning Law. **This request is filed pursuant to Public Resources Code Sections 21092.2 and 21167(f), and Government Code Section 65092**, which require local counties to mail such notices to any person who has filed a written request for them with the clerk of the agency's governing body.

Please send notice by electronic mail, if possible or U.S. mail to:

Subject: NOMA's Consideration for the Miramar's EIR

Ms. Tanemori,

NOMA
North of Montana Association

O4-1

The NOMA Board supports the two letters developed by Wilmont and by SMCLC for the stated request for the alternatives to be considered in the Miramar EIR. We would also emphasize that staff and the EIR administrator consider the importance of Wilmont's position on this issue, since Wilmont is the residential neighborhood where the Miramar is located and which will be the greatest impacted.

Additional EIR consideration should be given to the bluff opposite the proposed work on the Miramar. The bluff has eroded over the years and is at its narrowest closest to where digging would be for the underground parking structure.

The NOMA Board

Re: Scoping Commentary for Miramar Development Project

INTRODUCTION:

As most everyone in Santa Monica knows, the owner of the Miramar Hotel, multi-billionaire Michael Dell, wants to demolish the current main building of the hotel in order to construct a 500,000 square foot project, which DOUBLES the development of the current property, which is now only 250,000 square feet! The proposed new development includes the building of 60 luxury condos, as well as a myriad of new retail spaces, including stores, restaurants, spas, etc.

It is important to note that this 500,000 square foot monster project is roughly the size of Santa Monica Place, which occupies 10 acres of land. Incredibly, this same sized new project will sit on only 4.5 acres! The amount of density and massing on this much smaller site, right across the street from our residential neighborhood, boggles the mind!

So, preliminarily, one overriding question must be asked: Has such a large commercial project ("Project") ever been built in Santa Monica which directly adjoins such a heavily populated residential area?

The following are our comments:

O6-1

1 **ALTERNATIVES (General):**

Under CEQA 15126.6, the City must look at a range of "reasonable alternatives" that would "substantially lessen any of the significant effects of the project." We propose three alternatives here:

1. a project without the condos;

O6-2

2. a project that changes the location of the driveways and the hotel entrance;
3. a project where the greatest mass of the buildings is moved to Wilshire Boulevard and Ocean Avenue, away from, and rather than, California Avenue and Second Street.

2 **ALTERNATIVE I – No Condos:**

Since all the new residents and autos from the condos are at the heart of the problem, we need to study how the project would work WITHOUT any condos. We are not against the renovation of the Miramar hotel. Our position is that most of the problems from this Project, whether it be traffic, parking, air quality, noise, etc., are caused by the condos with very little, if any, real benefits to the city.

3 **ALTERNATIVE II: Changing Driveway Locations**

There are two proposed garage exits and entrances in the current plan – one on 2nd Street and one on California Avenue. In addition, the new hotel motor court entrance and the loading dock are also on 2nd Street. This is a bad idea for several reasons. O6-2

Both California Ave and 2nd Street are two-lane roads. The additional incoming and outgoing traffic from the driveways will clog up these streets a lot sooner and easier than if the driveways were located on Ocean Avenue and Wilshire Blvd., which are four-lane thoroughfares. Perhaps more importantly, California Ave., and to a lesser extent, 2nd Street, are residential streets, and the additional traffic from the 428 car garage to the driveways poses a lot more risk to our children and the elderly who walk these streets every day. In addition, the problem is further exacerbated by the fact that the California Incline, which is on the corner of Ocean and California, feeds and receives a lot of traffic between the PCH and California Avenue.

In fact, California Avenue could not be a worse choice for locating a driveway. In addition to the above facts, California is a divided road and also has bike lanes on both sides, which makes it one of the narrowest two-lane streets in the City. Perhaps this is why, historically, no one has ever suggested putting a driveway on California between Ocean Avenue and 2nd Street.

In light of all these facts, an independent study should be conducted by the City (with reimbursement by the Developer), and the Developer should be made to show why the current plan with a loading dock and a new motor court on 2nd Street, together with driveways and garage entrances and exits both on 2nd Street and California Avenue, is better for the Santa Monica

community than having them on Ocean and Wilshire. I've been asking this question for seven years, and have yet to receive an answer from the Developer.

4 **ALTERNATIVE III:**

In addition to the two alternatives detailed above, we would propose that the Developer concentrate the massive buildings, namely the main tower and the California building, to Wilshire Boulevard,

In our case, the Developer wants to put a new seven-story rectangular building right on California Avenue, which is a residential street. It makes a lot more sense to put it on Wilshire Boulevard, which is a commercial boulevard.

Similarly, along with moving the largest mass of buildings to Wilshire Boulevard, the City should study moving the open lawn space from its proposed location on the corner of Wilshire and Ocean to the corner of California and Ocean, which is a residential area, better fitted to the open lawn area than the more commercial Wilshire and Ocean corner, and would serve as a spectacular gateway to the thousands of people entering and exiting Santa Monica to and from the California Incline.

A study should be done to analyze an alternative where the new California building is moved to Wilshire Boulevard, and the main tower is greatly reduced in size to bring it in line with the 84 feet height limit all along Ocean Avenue.

O6-2

5 **TRAFFIC CIRCULATION:**

With 60 new condominiums (approximately 2.2 cars per residence) and 150 new workers, as well as hundreds of new customers from the gigantic new retail space, and service personnel, the Miramar Project will bring in approximately 500-600 additional cars into our neighborhood, with most of the burden being on the two-lane roads, California Avenue, as well as 2nd Street.

In sum, we need an independent, detailed traffic study (conducted by the City and reimbursed by the Developer) examining the effect on traffic of these 500−600 autos, specifically on California Avenue and 2nd Street, as well as nearby streets in the neighborhood.

O6-3

6 **PARKING:**

The Developer's proposed parking plan will make neighborhood parking even WORSE (if that's possible), not better.

The Miramar's Project proposal actually significantly DECREASES the number of parking spaces available for hotel guests, spa and retail customers, as well as employees of the Miramar. Here is how the calculation breaks down:

a. The Developer is going to add hundreds of new parking spaces to accommodate a total of 428 cars.

b. However, the condos alone will need approximately 132 spaces of resident (and condo guest) related parking.

c. That leaves about 300 spaces for all hotel guests, employees, spa visitors, restaurant and retail visitors, and others that are going to occupy the new structures on the additional 250,000 square feet of land.

d. Since there will be approximately at least another 250 workers added to those that are currently employed at the hotel, that leaves a grand total of 50 spaces to accommodate hotel guests, future employees, spa, restaurant, and retail visitors.

O6-4

This is obviously an untenable situation. The numbers simply will not work.

The result will be that those people who want to find hotel parking will have to park on surrounding streets. What is a large problem now, will become a HUGE problem when all these people will have to compete with the local residents for already limited street parking in the neighborhood.

A detailed analysis needs to be done as to how the new parking plan will affect the already severe parking problems in the area; and whether new parking plans violate the Santa Monica parking code for the Downtown Plan.

7 **AFFORDABLE HOUSING:**

The Developer has discussed the possibility of building affordable housing on 2nd Street right next to the Huntley. If in fact that happens, the traffic and parking situations will be exacerbated even more than detailed above. The Developer must commit right now as to the location and number of affordable housing units he plans to put on 2nd Street – not later on, when the community

O6-5

will not have a chance to give its input. This is so the City can figure out the effect on traffic and parking in ADVANCE.

O6-5

8 **CONSTRUCTION EFFECTS:**

The proposed Project will virtually raze the current site, except for the landmarked Moreton Bay fig tree and the Palisades building. Given the magnitude of the operations from demolition and excavation through construction to completion, what measures will be taken to protect the environment and the daily life of residents and essential traffic and pedestrian rights of way?

The site abuts a densely populated and well-traveled residential area. We at 101 California, for example, have about 175 residents in our building, with a large number of children and elderly people who will need to pursue their daily activities as normally as possible. In addition, there are hundreds of other residents in the large building at 123 California, as well as about 400-600 guests and workers at the Huntley Hotel. All three of these buildings sit only about 50 yards across the street from the construction site.

O6-6

What measures will be taken to minimize the noise of construction and its negative impact on air quality from dust and debris? How will the demolition be accomplished? How will the innumerable truck trips needed to remove debris, and later to deliver concrete and other construction materials be scheduled? Will the proximity of the California Incline, with its constant traffic flow on to California Avenue, especially during peak periods, be factored into the scheduling?

9 **AIR QUALITY:**

In addition to the airborne pollutants specified above, there will be the introduction of substantial added amounts of greenhouse gases (GHGs) during the various phases of the project's development, demolition, excavation, construction, and operations; not to mention all the GHGs that will be spewed into the air as a result of the cars idling in massive traffic jams along California Avenue and 2nd Street. These GHGS include, but are not limited to, methane, water vapor, gasoline vapors, CO and CO_2 and emissions from the burning of fossil fuels.

O6-7

Emissions occur not only at the site, but on the roadways to dump sites, etc. How will these be measured, and what procedures will be instituted to mitigate their impacts on the local environment?

Santa Monica is an award-winning sustainable city. How can we be assured that the new construction is state-of-the-art, insofar as green and environmental issues are concerned?

What assurances will be given that the new construction, which the Developer claims will result in a world-class resort destination, will result in a LEED Gold or Platinum rating, not merely the basic silver?

The City must bring in qualified experts to ascertain the presence and volume of hazardous materials and GHG, BEFORE the project is approved, so they can be abated or removed before any demolition or excavation is permitted. If this analysis shows that such materials are above allowable levels, then the Project must be stopped immediately.

O6-7

10 **HAZARDOUS MATERIALS:**

Some of the structures on the Miramar property are 85 years old. The Ocean building and structures added later were not built under current code and green requirements. Asbestos, lead pipes, and lead paint, for example were in general use. Later attempts at remodeling and renovation certainly did not change the basic substructures. There is no doubt that demolition and excavation will release hazardous and toxic materials into the air – a great cause of concern for those of us who live across the street.
The magnitude of this operation is immense. It will take most likely three years. That means for those of us across the street, we are facing about 800 straight work days of all the life-damaging events described above; not to mention the noise and pollution discussed below.

The City must bring in qualified experts to ascertain the presence and volume of hazardous and other toxic materials BEFORE the Project is approved, so they can be abated or removed before any demolition or excavation is permitted. If this analysis shows that such materials are above allowable levels, and cannot be removed, then the Project must be stopped immediately.

O6-8

11 **NOISE:**

Because the site is in a transitional area, adjacent to a densely populated residential area, noise mitigation is essential, especially during the construction period. The City should study what the anticipated decibel levels will be, and will such levels be acceptable?

What plans are being considered by the Developer for noise mitigation?

O6-9

Will controls on equipment and limitation of certain activities to specified times of day be mandated? Will noise-making activities be prohibited weekends, very early in the mornings, and late into the evening? What procedures or personnel will be available to handle residents' complaints?

For all of the above categories (noise, air quality, hazardous materials, construction effects), the City should hire on-site monitors working for the City (NOT the Developer) and measuring devices to check on a daily basis whether acceptable standards have been violated. If so, the Project should be shut down.

O6-9

12 **GEOLOGY:**

There should be a geological study to determine what effect the demolition of a ten-story building, as well as the excavation and construction of a multi-level subterranean parking garage will have on the Moreton Bay fig tree, which is directly adjacent to the building and the proposed garage.

In addition, another reason for this study is that the hotel site is located on land which has the VERY HIGHEST liquefaction susceptibility according to measurements which have been taken by the U.S. geological service (See Attachment "C"). Moreover, following the Northridge earthquake in 1994, a new fault line was discovered less than a mile from the site (Attachment "D").

O6-10

This makes the new buildings extremely dangerous in the event of an earthquake. So is it wise to be putting up a new 130 foot tower on such shaky land, with the possibility of such tower and 13-story building toppling and falling on adjacent landmarks, not to mention people on the site. The study should find out, among other things, what, if any, massive structures have been built in this earthquake zone since the liquefaction and fault line information was first uncovered.

Finally, the geological study should also include what effect the demolition of the building and its effects by implosion, concussion, or any other method, will have on the foundations of the buildings in the surrounding neighborhood, as well as on the bluffs on our beloved Palisades Park, which are already disintegrating before our very eyes.

13 **AESTHETICS:**

A. Light and Air

The City should conduct a light and shadow study, from many different locations and angles, to determine what the impact would be of these massive new buildings in the neighborhood.

O6-11

B. Scenic Vistas

While, in Santa Monica, private views are not legally protected, their creation and destruction are a potential environmental effect of the Project, and a valid factor in analyzing the environmental impact on the scenic vistas and views currently enjoyed by our neighborhood.

This Project will eliminate incredible scenic vistas of the Pacific Ocean for thousands of people in the neighborhood. Specifically, almost all of the people living on the first seven floors of the 101 California and 123 California buildings will be totally deprived of the panoramic ocean views they've enjoyed for over 60 years. In addition, people on some of the higher floors in our area, who now enjoy the scenic vista of our beaches extending down the California coastline almost to the airport, will now be totally cut off from such views by the monster central tower, and the rectangular building on California Avenue.

Therefore, the City should conduct a comprehensive study of the various views that will be affected in the neighborhood. The study should include an examination of the views from the vantage points of various multiple dwelling buildings surrounding the area, especially across the street; as well as offices, restaurants, and pedestrian walkways. Plus an additional analysis should be done on obstructing the views that will take place for pedestrians who are walking around the area. O6-11

C. Verdant Gardens

California Ave., between Ocean Ave. and 2nd Street, is currently part of a beautiful and lovely residential neighborhood. The area of verdant arboreal gardens and bungalows on the Project site along California Avenue currently are a major visual environmental contributor to the relaxed and positive vibe of this neighborhood. They exert this influence upon the public right-of-way on California Ave., from which they are visible, as well as to the numerous households in the residential structures on the opposite side of the street whose windows look upon them. The Developer will replace this area along California Ave. with a huge seven story building, which would eliminate all visual presence of such gardens to the public right-of-way and residences in this neighborhood.

14 **PUBLIC SERVICES:**

Under the proposed plan by the Developer, he wants to squeeze a new garage entrance/exit and a new motor court entrance right next to the existing loading dock on Second Street. With the Huntley Hotel's entrance exactly right across the street, as well as all the trucks that will be using the loading O6-12

dock, there is a substantial possibility that emergency vehicles (police, fire, or ambulances) will not be able to get through in the event of emergencies.

In addition, with the extra five to six hundred additional people that will be crowding the site, will the City be able to maintain acceptable service levels of police and fire protection? O6-12

A study must be done to evaluate the impact of all these factors on the City's public service personnel.

15 **UTILITIES:**

a. Electricity

The existing electrical distribution system in Santa Monica was built by Southern California Edison in the mid-1900's, at the time Santa Monica was a small beach town. So Edison built the distribution lines at the 6KV voltage level, based on the projected power loads at the time. Typically nowadays, distribution lines are built at the 12KV or 16KV voltage levels, especially in densely populated areas like Santa Monica today.

Many people in our building and the surrounding Santa Monica neighborhood over the last few years have experienced a couple of times a month, more and more power interruptions, which can last anywhere from a few seconds to a few hours. Even relatively short interruptions can throw off computers, wireless networks, fax machines, DVRs, and other sensitive electronic equipment. We have been told by people at Southern California Edison that as more and more people move into our area of the 90403 zip code, it will further burden our electrical system and possibly lead to even more interruptions. O6-13

In recent years, the load density in Santa Monica zipcodes has been among the ten highest in Southern California. Zipcode 90403 has had the highest power customer density in Southern California. Zipcode 90401 has had the second highest load density in Southern California. The proposed high density housing and high-rises in the City will only make this situation much worse.

So in light of these facts, is it wise to bring in another 500 to 600 people into our neighborhood, and doubling the mass of the buildings and their attendant electrical needs, at this time?

At the very least, the city should hire engineers and consult with Southern California Edison to analyze the effects of this Project on our electrical system.

If population density in Santa Monica continues, these power outages will become more frequent and perhaps longer in duration. This would adversely affect the economic activity in the City and the quality of life of its residents.

O6-13

b. Hydrology

With 500 to 600 people added to the site, there will be an increased burden on utilities that the city provides for the site and the neighborhood. A study must be made to see if the large buildup of the property requires the building or expansion of the following:

a. waste water treatment facilities;
b. storm water draining facilities;
c. solid waste facilities;

Plus, it has to be determined whether there is sufficient water supply available to serve this new Project. Finally, does the increase in run-off water exceed the capacity of existing storm water drainage systems?

O6-14

16 **CULTURAL AND HISTORICAL RESOURCES:**

Section 15064.5 of CEQA says that new developments must not cause a substantial adverse change in the significance of historical resources.

The significance of the Palisades building, which was recently given landmark status, will be adversely affected by two additions to the site. The new seven-story rectangular building is to be built next to the Palisades building. This will block any view of this landmark for thousands of drivers coming up the California Incline who turn on to Ocean Avenue; again, substantially lessening the significance and the integrity of the Palisades building.

A study must be done by the City to see to what extent these new buildings will hurt the significance of the Palisades building.

O6-15

17 **ENFORCEMENT:**

Since Santa Monica has had a dismal record marked by repeated failure to review or enforce the negotiated terms of its development agreements, the EIR should include an enforcement discussion. That section should include an analysis of how the Developer will guarantee full compliance with promises it intends to make in the development agreement, in relation to all the topics discussed above; and timelines by which they must be in place. This analysis should include what enforcement options, including heavy financial penalties,

O6-16

would be available to the City and its residents to enforce compliance, including the financial ability of the actual owner(s) of the site to comply. As an example, perhaps, the Developer should be forced to put up multi-million dollar bonds if he violates any terms of the EIR. Finally, the City should ensure that any future owners of the site be legally held to the same requirements.

O6-16

18 **CUMULATIVE EFFECT:**

Lastly, a study must be done to take into account the cumulative effect on the City for traffic, parking, et al., in light of all the other proposed development projects in Santa Monica's pipeline, and especially the four other huge hotel projects now being developed within several blocks of this site.

So, for all of the studies requested above, there should be a parallel study of the cumulative effect on the entire downtown neighborhood. For example, while doing a traffic study which focuses on the streets where the Miramar is located, a separate traffic study should be done for the entire downtown area, taking into account all its new development projects, including the Miramar.

O6-17

19 **CONCLUSION:**

In conclusion, we respectfully request that the City do a comprehensive study for each of the categories described herein; and, in particular, that the Alternatives, to use Councilwoman Davis' words a few years ago, are given a "more detailed vetting than we might otherwise do."

O6-18

Very truly yours,

MIRAMAR COMMITTEE FOR 101 CALIFORNIA AVENUE

Subject:	Wilmont Board Scope and Content Letter for Miramar Proposed Project - Draft EIR
Attachments:	Miramar-EIR-ScopeLtr.-Wilmont Board-7-27-18.docx

Dear Ms. Kwok,

Attached please find and receive Wilshire Montana Neighborhood Coalition(Wilmont) Board's scope and content letter for the Miramar Proposed Project Draft EIR. Please confirm receipt.

Our scoping and content for the Draft EIR are two-fold: first - we strongly request that an independent geologic analysis and investigation of the Miramar proposed project on the Pacific Palisades bluffs and park be done; second - that Draft EIR alternatives be identified that present real options to reduce the project's proposed heights, density, traffic, parking and other impacts to our neighborhood.

Thank-you,
Elizabeth Van Denburgh for Wilmont Board

Comment Letter O7

Wilshire Montana
NEIGHBORHOOD COALITION
working together for a better community

July 27, 2018

To: City of Santa Monica -- Roxanne Tanemori, roxanne.tanemori@smgov.net, Rachel Kwok: rachel.kwok@smgov.net

From: Wilshire Montana Neighborhood Coalition (Wilmont) Board

Re: Comments on scope and content of the Miramar Hotel Project Draft EIR

The Wilmont Board submits these comments regarding the Miramar Hotel Project Draft EIR scope and content as outlined in the Recirculated Notice of Preparation dated June 28, 2018. The Wilmont Board, as well as large numbers of residents and businesses in the City, have grave concerns regarding the proposed demolition of the hotel and its impact on the adjacent businesses, residential housing and underlying bluff strength to build a new luxury hotel with about the same number of rooms i.e., from 301 rooms to 312 rooms. The height, density and intrusion into the neighborhood is largely from the 60 Ocean Ave. condominiums and significant growth in retail and commercial uses which is traffic intensive and continues the trend of commercial intrusion into the Wilmont neighborhood. The Miramar Hotel Project overwhelms our neighborhood and the existing hotel in size and scope. O7-1

The Downtown Community Plan (DCP) provides zoning for Ocean Avenue at a lower height and density and focused greater height and density in the Downtown core. There is little support among residents for the City to have "spot zone" via a large site designation the Miramar Hotel site. This designation allows far greater height and density than the rest of Ocean Avenue in order to allow a "wall" of commercial/condominium development that turns it back on Santa Monica as well as preventing access to ocean views, winds and light. We banned this type of development on the beaches of Santa Monica, why are we allowing it on the bluffs? We will be outlining an alternative project that uses the height and density required for the rest of Ocean Avenue. O7-2

The project proposes to demolish the Miramar Hotel (Hawaiian Tower) in order to construct a 500,000 sq. ft. project, roughly the size of Santa Monica Place which sites on 10 acres. This project sits on only 4.5 acres, creating substantially greater massing and impact within a much smaller site. The new development will be almost twice the size of the existing hotel i.e., from 262,284 sq. ft. to 502,157 sq. ft. This is primarily due to the 60 new luxury condominiums and more intensive retail/commercial uses. This impact on the Wilmont neighborhood will be significant including parking, traffic and noise with the Fairmont Miramar "wall" creating a feeling of turning their back on the City that they are part of. We strongly believe this project would not be approved if it were subject to a public vote, among other reason, because providing 60 luxury condominium units for the wealthy at heights of 130 feet does not provide a community benefit. It is unlikely the owners will be stakeholders in our community if they are occasional visitors and the Miramar will benefit from handling leasing/servicing of these units. It is hard to justify the density and height as a good deal for the City's revenues if there is no appreciable gain in the transit occupancy tax resulting from this O7-3

massive development. While an EIR doesn't analyze economic impacts, it will be incumbent on the City to do so as the project moves forward. O7-3

We are concerned with the significant increase in retail/commercial on the site, the greatly expanded spa and a much larger catering operation. As proposed, the project would add significant additional traffic to the neighborhood, especially with entrances now moved to Second Street and California Ave. As proposed, the project may not provide sufficient parking to alleviate the current problem of overflow parking of employees, guests, visitors, banquet guests, retail/commercial customers, spa customers and food/beverage guests. O7-4

We request an **independent geologic analysis and investigation** of the impact that such a large development and three steady years of constant construction, heavy equipment use and tons of building materials could have on the Pacific Palisades bluffs and the landmarked Pacific Palisades Park. The amount of erosion the bluffs have already experienced is well documented. These bluffs are only 50-75 yards from the Miramar project. We are concerned that with the Miramar proposed project doubling its size in such a geologically sensitive area it will threaten the stability of the bluffs and one of the most beautiful parks in California. As well, we have grave concerns that the landmarked Moreton Fig can survive this level of development. O7-5

As well, it is important the Draft EIR study a full range of **alternatives** including:

1. Reduced project to 84 feet (DCP maximum height)
2. Reduced project with significantly less height and density, condo and retail/commercial space
3. Project with no condominiums (Luxury condos are not needed to fund this redevelopment)
4. Reduced project that conforms to the maximum height and zoning of the rest of Ocean Avenue
5. Adaptive reuse project that keeps the existing hotel footprint (Hawaiian Tower) and reconfigures the hotel rooms and sizes rather than demolishing the entire building for a limited increase in rooms
6. Replace condos with market rental units
7. Retain entrances only on Wilshire and Ocean to keep Miramar traffic on boulevards vs. sending traffic onto one-lane residential streets with no left hand turn lanes
8. Eliminate 43,600 commercial sq. ft. as proposed; stop the intrusion of commercialism into Wilmont. There is nothing about this space being residential serving.
9. A traffic and parking impact analysis of each of the above alternatives, including siting new hotel entrance on Second Street (single lane residential street with no left hand turn lane), resident entrance on Ocean Avenue and employees on California Avenue (a residential street at top of California Incline with limited left-turn ability from site

O7-6

In summary, we strongly request that an independent geologic analysis and investigation of the Miramar proposed project on the Pacific Palisades bluffs and park be done and that Draft EIR alternatives be identified that present real options to reduce the project's proposed heights, density, traffic, parking and other impacts to our neighborhood. O7-7

Sincerely,

Wilshire Montana Neighborhood Coalition (Wilmont) Board

Subject: Scoping for Miramar Hotel EIR

Suggested alternatives for study in Miramar Hotel project EIR:

I2-1

1) Alternative of minimal necessary rehab and upgrade of the existing structures, with special attention to retention of the historic guest bungalows that have figured so prominently in film and Santa Monica history and defined the Miramar.

2) As presently proposed, the new main building will form a single unrelieved facade extending across the length of the parcel. An Alternative should be considered breaking up such a massive unitary structure into separate elements or 'wings'. This Alternative could be considered in conjunction with one of reduced density.

3) Alternative of 84' maximum height for project buildings, conforming to Ocean Avenue and DCP maximum height limit.

4) The bluffs upon which the Miramar sits continue to erode, with Palisades Park showing significant loss of ground. An Alternative must be considered investigating the full geologic impact and viability of such a massive excavation and construction project as presently proposed on such unsound ground.

I2-2

Thank you.

Subject: Miramar EIR

Dear Santa Monica government

I wish to echo the many voices appealing to you to reconsider the current proposal for the Miramar property. My major concerns include many of the same ones expressed by the Wilmont Board.
I'm especially concerned about the impact on the Palisade Park bluff. This is a geologically unstable area that has suffered multiple slides and collapses The additional stress from the underground parking construction and the expansion and the massive increase in the density and weight could have a major negative impact on the area.
In addition, placing the primary entrance on a residential two-lane street will place additional burdens on the residents who are already dealing with crowded parking and heavy traffic. The addition of commercial businesses and spas will bring in a lot of new traffic. The parking appears already inadequate, and where will the low-income residents in the new structure on second street park? And where will the currently parked cars ion the existing lot go after the new structure is built? And what happens when the Huntley has a major event at the same as the Miramar?
And why do we need 60expensive condos built on the hotel property?
I hope you will reconsider this plan and consider the options presented by the Wilmont Board.

Thank you,
Diane M. Citron

Subject: Proposed Miramar hotel project

Dear Ms. Kwok,

I4-1

I love the Fairmont Miramar hotel. It's beautiful as it is. I go there frequently as I live right across the street. I've also hosted events there, held meetings, recommended it to out of town guests etc.

That said, Santa Monica is already overcrowded and congested. Traffic and parking in Los Angeles and Santa Monica has become a nightmare. Please leave well enough alone.

The moral of the Greek fable about greed applies here in Santa Monica. " Do not kill the goose that lays the golden egg."

More traffic and congestion in Santa Monica will eventually "kill" the joy of visiting.

Comment Letter I5

621 25th Street
Santa Monica CA 90402
July 29, 2018

To: City of Santa Monica – Roxanne Tanemori, Rachel Kwok
Re: Comments on scope and content of the Miramar Hotel Project Draft EIR as outlined in the Recirculated Notice of Preparation, 6/28/2018.

As a 49-year Santa Monica resident I am concerned about what is being called an adaptive reuse project, but is actually the proposed demolition and rebuilding of a functioning Miramar Hotel, adding only eleven additional hotel rooms while also appending sixty Ocean Avenue luxury condos plus significant new retail and commercial uses. The existing hotel occupies 262,284 square feet; its replacement proposes occupying 502,157 square feet on 4.5 acres. Such expansion overwhelms its neighborhood and the existing hotel in size and scope, impacting adjacent businesses, residential housing and underlying bluff strength, and adding intensive traffic. I5-1

I urge you to reconsider this disruptive proposal and revise the Draft EIR to reduce the project's proposed height, density, traffic, parking and neighborhood impacts. Some possible alternatives to the adaptive reuse project include: I5-2

1. Reduce height from 130 feet to 84 feet, the DCP maximum height for Ocean Avenue.
2. Reduce density by eliminating condominiums and retail projects.
3. Keep existing hotel footprint, reconfiguring the rooms as needed.
4. Replace condominiums with market rental units.
5. Retain entrances on Wilshire Blvd. and Ocean Ave.

Thank you for supporting the neighborhood-appropriate upgrading of the Miramar Hotel. I5-3

Sincerely,

Katharine Dreyfuss

Subject: EIR FOR 1133 OCEAN AVE, SANTA MONICA, CA (MIRAMAR HOTEL PROJECT)
Attachments: santa_monica_miramareir_websitescreenshot_20180709.docx

Importance: High

Hello Ms. Kwok,
We received a NOP letter for the upcoming EIR for the subject property. We own and operate one of the few 100% age-restricted affordable housing communities in Santa Monica (Wilshire House at 1125 3rd Street Santa Monica, CA 9040). We are a faith-based non-profit, with the mission of providing dignified affordable housing to underserved populations and based in Long Beach, CA since 1961. I6-1

Our formal comments to the EIR Scope are as follows:

1) How is this project addressing the need for affordable housing? Are "up to 48 affordable housing units" a reasonable exaction for the magnitude of this type of project to the overall housing crisis we are currently faced with? If this is based on City statute, we respectfully recommend that it be re-visited. I6-2
2) How is the project addressing the homeless crisis considering this project will further elevate local rents and ultimately result in displacing current renters, both residential and retail? I6-3
3) The resulting project seeks higher rents onsite for retail, residential and hospitality. Through contagion, this increase will inevitably increase comparable space rents/land values for surrounding business owners and renters. Being short sighted about market rate development projects such as this one has in large part contributed towards homelessness and a severe shortage of affordable housing units in Southern California. Higher land values and rents displace those living on the margin through increase in comparable rents due to large scale projects like this one. While this impact is difficult to quantify, it cannot be ignored or denied. I6-4
4) How will the height of these buildings impact the normal wind patterns? I6-5
5) Will the project incorporate electric vehicle charging stations? How are Bike sharing, ride sharing and alternative forms of transportation being addressed? I6-6
6) What is the construction demo & staging plan and how will it impact the area? I6-7
7) What are the environmental impacts of the demolition and what hazardous materials/substances are currently onsite that will be disturbed during demo/construction? I6-8
8) Are there any public funds, subsidies or tax credits being requested by the Applicant? If so, what and how much? I6-9
9) Are there any local, State or Federal taxes/costs/fees/assessments that would increase or be newly created for surrounding land owners due to the build-out of this project? I6-10
10) Considering the proximity of this project to the landmark 3rd Street Promenade, are there any enhanced safety/security precautions or systems (possibly in conjunction with local police) to address crime and possibly terrorism? I6-11

We tried to submit our comments on the website referenced in your letter but the website was down and inactive. I have attached a screen shot of the error message we received when we attempted to submit our comments online. I6-12

Thank you for the opportunity to comment on this project. We have been great neighbors and partners within and with the City and look forward to continuing our mission in and with the City of Santa Monica.

Sincerely,

Bob Fard

Subject: Comment on the Miramar: The biggest McMansion of them all!

Proposed Miramar project

I7-1

The Miramar is a beautiful property and has been since my family bought a condominium across the street from the hotel at 101 California Ave. nearly 40 years ago.

The project as explained at the EIR public scoping meeting July 19 is too dense, at seven stories and across most of the 4.5 acre block. Yet in your description you call the multi-unit hotel an "improvement," however, the historic bungalows across from California are planned to be demolished among other non-improvements. And, three years of construction to replace an existing building is not an environmentally sound plan, no matter how LEED-designed it will be.

I7-2

Traffic and congestion is already a nightmare, and will be worse with the added condos, hotel rooms, affordable housing, retail and spa.

In addition, the plan calls for the employee and staff egress and ingress to be directly across from 101 Calif., home to some 200 residents and my condominium, which would result in all of the, how many ????, employees and staff and truck stops in and out day and night???? Not to mention the traffic jam you are creating for the California incline, a few yards away.

I7-3

This plan has not been thought out well for the residents of Santa Monica. It seems to me it has been thought out for the developer's bottom line.

I work in the Hancock Park area which has several Historic Preservation Overlay Zones protecting neighborhoods from development not in sync with the character of the areas. Santa Monica? It's like Beverly Hills, a Realtor recently told me, ruined, by all of the McMansions. This project, would be the biggest McMansion of them all, as a speaker said the other night.

This will do nothing about a housing shortage in Los Angeles or Santa Monica, as this will provide plenty more housing for the wealthy. Who, last I looked, had plenty of options.

And, who is going to rent the affordable housing on 2nd? Miramar's employees, perhaps?? Meaning we may even be able to subsidize Miramar's staff. Lucky us.

I7-4

This gets a **No** vote from me and I agree with the speaker who said the project looks like a department store. Do we really need more density, more shadows, more "tunnels," having our ocean breezes blocked, so the developer can build this monstrosity....?

Subject: Miramar EIR

I haven't seen any renderings for the second street building for affordable housing.
How far is it from the alley between 2nd and 3rd St?
How tall is it
How wide is it along the alley?
Where does it sit relative to 1118 3rd St?

I8-1

We live at 1118 3rd St and the whole Miramar project will have a massive impact on:
view [Hotel height along 2nd St is higher than our building]
sunlight
air circulation
Decrease in property values due to above
increased heating bills in winter due to lack of sunlight
potential noise from affordable housing building
More traffic noise and pollution from hotel guests and special hotel functions
Where are all the cars for the expanded dining facilities and special functions going to park
Hotel construction noise & air pollution
Hotel construction traffic impact

I8-2

Rachel Kwok

From: jim gerstley <jimggers@yahoo.com>
Sent: Thursday, July 19, 2018 10:49 AM
To: Rachel Kwok
Subject: Miramar EIR

I9-1

This project is adjacent to residential units on both California Ave and 3rd St and is so large as presently proposed as to impact both in a negative manner.
EIR Impacts: sunlight and air circulation; heating and air conditioning, air pollution, traffic, noise pollution, water usage, views from residential units.

A] Sunlight, air circulation, heating and air conditioning:

I live at 1118 3rd St, just east of the Miramar Hotel property. The proposed hotel design fronting 2nd St and I believe the proposed low income building that may be built on the parking lot on the east side of 2nd St are both higher than the 6 story building at 1118 3rd St. This impacts all units facing the ocean:

1] Sun and fresh air promote good health. Yet this project will have a major impact on the amount of sunlight reaching 1118 3rd St. This can directly impact health of residents, and require higher heating bills in cooler weather

I9-2

2] Santa Monica winds are primarily from the west. So any tall wide structures will have a major impact on the fresh air that reaches anything in close proximity to the east, including 1118 3rd St which is totally masked by the proposed high wide structure on the west side of 2nd St. It may be further masked if a new low income housing project is built on the parking lot just across the alley , on the east side of 2nd St. This is an unhealthy situation, and also requires more energy in the form of air conditioning during hot summer months.

I9-3

This can be ameliorated by keeping any buildings to the west of 1118 3rd St along Ocean Ave, Wilshire Blvd and 2nd St to a maximum height of 2-3 stories where there is presently no structure. This has numerous benefits:
1] minimizes traffic to retail space associated with the hotel. we don't really need that much additional retail space as a lot of downtown retail space is so overpriced that those stores seem nearly empty much of the time, except for restaurants and computer stores.
2] Reduces number of condos and traffic associated with those. Besides it seems we need more affordable housing and less high end housing. High end housing is not required for the new hotel.
3] This will result in appreciably lower height requirements along California Ave and 2nd St, thereby minimally impacting solar, fresh air circulation, and views for existing residential and commercial units along California Ave, 2nd St and 3rd St.

B.] Traffic, air pollution--normal

I9-4

Wilshire Blvd is best suited to handle hotel traffic. Ocean Ave. is 2nd best but this section of Ocean also handles considerable traffic heading for the California Incline. California Ave and 2nd St are not suited for heavy hotel traffic as both are single lane in each direction.
Added California Ave traffic impacts traffic going to/from the California Incline as well as noise and air pollution to local residences fronting the north side of California Ave.
Heavy traffic on 2nd St impacts noise and air pollution to businesses on 2nd St as well as residential units on the west side of 3rd St. Besides, 2nd St is closed on Farmer's market days, forcing traffic onto Wilshire so parking access may as well be on Wilshire to start with. Heavy traffic on 2nd and

Wilshire also poses a greater threat to bicycle and pedestrian safety for those headed toward downtown Santa Monica both from the hotel and residential units to the north. I9-4

Hotel traffic impact can be reduced in numerous ways: I9-5
1] New low cost housing can be assigned to hotel employees, rented out by the hotel for as long as they remain employees. This reduces hotel employee traffic.
2] Hotel gives financial incentive to car pooling
3] Hotel provides free pre-paid transportation vouchers to all employees who want them, for at least a 10 year period
4] Hotel employee shift times are staggered to minimize traffic impact, especially during morning and evening rush hours.
5] Limiting restaurant and banquet hours so as to minimize noise pollution from the facilities and traffic noise to local residents.

C] Air pollution and Traffic--construction phase
1] Working hours should be such as to provide minimum disturbance to residents I9-6
2] no traffic impact on neighborhood during morning and evening commute hours
3] noise and dust control during demolition and construction

D] Water and Sewage
1] How will the hotel be held to zero net water usage, including any condos.rentals, dining and banquet facilities? I9-7

2] How will the hotel and city control sewage so as to not further negatively impact Santa Monica Bay?

E] Low cost housing
What are the plans for any reduced cost housing, including location options and physical dimensions? What is the impact on the neighborhood where it is to be built? [traffic, sunlight, fresh air, noise] I9-8

I9-9
To summarize: The Miramar hotel plan, as presently configured, has a major negative impact on our building at 1118 3rd St.
It is taller than our building, impacting sunlight, fresh air, views, and resulting property value
It will create a lot more traffic, impacting pedestrian and bicycle safety as well as reasonable access to the California Incline, as well as the accompanying noise and air pollution that goes with more traffic.

Hotel guests still need to arrive by car, whether their own,rentals from LAX, Uber, taxi, Lyft etc. They will not be arriving by the indirect EXPO line from LAX.
Probably 2nd and 3rd shift employees will drive due to lack of public transportation and potential safety at night. So reducing hotel traffic is a major challenge and will be directly a function of the size of the project. This is one reason that doubling the square footage of the project is inappropriate, along with the heights required to do so.

As a minimum need to seriously reduce market rate housing and high end housing, even eliminating it completely.

revisit parking entrances back to Wilshire and Ocean rather than 2nd St and California Ave.
Address minimizing traffic impact during shift change and during construction.
Jim Gerstley

Subject: Miramar

Hi Rachel,
An alternative suggestion,
Give the Miramar their 130' tower but reduce all the other new construction on 2nd St, California, and Wilshire to 3 stories. That includes the hotel and affordable housing apartments. I11-1

If enacted, the latest Miramar hotel's proposal will create giant walls blocking pedestrians' street level views of the ocean and cutting off the afternoon breezes. These wall are incongruous with the character of residential and commercial approaches to the beach.

I lived opposite the hotel at 1118 3rd St. and have followed the proposals for the Miramar since 2006. I'd be sad if these large structures were permitted to overwhelm a very human scale neighborhood.

Re: Comments on Issues Related to the Scope and Content of the Miramar Hotel Project Draft EIR as Outlined in the Recirculated Notice of Preparation, 6/28/18.

I12-1

I am a 45-year resident of Santa Monica and my wife was born in Santa Monica in 1950. We are greatly disturbed by the proposal related to the Miramar Hotel property. What the developer is calling an adaptive reuse project, is in reality a proposal to demolish and rebuild a fully functioning Miramar Hotel. If this proposal isn't changed, a mere 11 hotel rooms will be added, 60 luxury condominiums will be built along Ocean Avenue, and a significant amount of retail and commercial space will be built. Presently, the Miramar Hotel comprises 262,284 s.f. The proposed Miramar Hotel will nearly double in size to 502,157 s.f. The sheer volume of added square footage will overwhelm the surrounding neighborhood as well as the hotel property in size and scope. The project will negatively impact traffic and parking in surrounding streets, nearby residential housing, businesses located nearby, and potentially the bluffs across Ocean Avenue above the Pacific Coast Highway.

I12-2

We are in favor of a revised plan for the Miramar Hotel property and ask that you revise the troublesome Draft EIR to address issues of the project including the proposed height, density, traffic, parking and impacts on the surrounding neighborhood. We strongly endorse the following changes to the Miramar Hotel adaptive reuse project:

1) Reduce the project height from 130 feet to 84 feet which is the Downtown Community Plan maximum height for Ocean Avenue projects.
2) Reduce the project density by eliminating the condominiums and the retail portion of the project.
3) Retain the existing hotel footprint with room reconfiguration as needed.

4) Replace the luxury condominiums with severely needed market rate rental units.
5) Retain entrances on Wilshire Boulevard and Ocean Avenue.

I12-2

The Miramar Hotel has been a wonderful part of Santa Monica's vibrancy for many years. I am very appreciative of your support for a thoughtful and neighborhood oriented plan for the hotel.

I12-3

Sincerely,

James E. Hartung, Jr.

Subject: Scope of EIR for the proposed Miramar redevelopment project

Dear Ms. Kwok and Tenemori,

I13-1

It saddens me greatly that most of the old Miramar Hotel will be torn down under the current proposal, and that serious consideration has not been given to the creative re-use of existing structure(s). My father and grandparents spent many weeks living at the Miramar in the 1940's, as have many other long-time residents of Santa Monica. Most of the City's actions of the past 20 years give little credibility to those of us with the greatest temporal and monetary investment here. It saddens and discourages me.

Please, please, please include consideration of a creative re-use option as part of the EIR currently under review. As a former compliance officer in environmental regulations at Chevron's refinery in El Segundo and also as a former EIR consultant, I have read many EIR's in my 25 year environmental career. I know they always, always, always must include a scaled-down alternative project(s). I cannot understand how you and your staff are able to countenance the Miramar EIR without such consideration!

I wholeheartedly agree with the July 24, 2018 letter on this subject to you two ladies from the S.M. Coalition for a Livable Community (SMCLC. The most stunning point of SMCLC's letter is contained in this excerpt:
"…the developer proposes to demolish the Miramar Hotel in order to construct a 500,000-square foot project, roughly the size of Santa Monica Place which sits on 10 acres. This project would sit on only 4.5 acres, creating substantially greater massing and impact within a much smaller site." The SMCLC letter also mentions a zoning exception for this massive development and the minimal benefits for residents.

All these factors creative an unavoidable inclusion of creative re-use in any legitimate EIR. Why is it not so included?

Thank you for your serious attention to my and SMCLC's comments.

Warmly,

Marilyn Judson

Subject: Miramar Expansion

Dear Ms. Kwok,

I15-1

As a resident of Santa Monica since 1985, I would like to register my extreme displeasure at the plans for expanding the Miramar Hotel as they stand now. My reasons are as follows:

1) Too high – reduce project to the 84 feet as mandated by the Downtown Community Plan.
2) Too dense – this will increase our downtown density beyond what my fellow residents consider tolerable for SM.
3) Retain Entrances on Wilshire and Ocean. 2nd Street is too narrow to accommodate the traffic that will be generated. California Ave is a quiet residential street, one lane each way with a divider at that point. The California Incline will be snarled.
4) No condos; market rate rental units.
5) Parking seems inadequate for the size of the complex.
6) Too much commercial space – reduce by 50%.

I am not against progress, but I don't consider over-developing our city progressive, just greedy. I'm trying to keep my town livable.

Thank you for your attention.

Sincerely,
Ted Myers
1610 California Ave.
Santa Monica, CA 90403

Subject: Draft EIR Miramar

Dear City Council, City Planners and City Manager:

I17-1

The proposed Miramar Plan exemplifies "spot zoning." The Plan would benefit developers, harm residents and evade zoning limits set in the Downtown Community Plan.

The Miramar is NOT in the Downtown Core. The hotel sits on Ocean Ave where the Downtown Community Plan promises low height and density. Yet this Plan would permit 130ft with added density – a wall of commercial/condo development blocking residents' views and ocean breezes on Santa Monica's vulnerable bluffs.

I17-2

In particular, the height /density of 60 Ocean Ave condos and commercial spaces would intensify uses, uses beyond ½ mile from Expo. It is unrealistic to assume that upscale condo residents, banquet guests and spa visitors will use BBB and scooters as their primary modes of "last mile" transit, assuming most guests and residents use Expo at all. A recent study also found that ride services such as Uber and Lyft are *increasing* local traffic and d*ecreasing* use of public transit.

I17-3

The Miramar Plan's approach to parking underestimates the overflow parking of employees, hotel and banquet guests, visitors, retail/commercial customers, spa customers and food/beverage guests. The overflow would impact a residential neighborhood already burdened with serious parking and traffic problems.

I17-4

Intensification of uses and the movement of hotel entrances to Second Street and California Ave. would exacerbate the alarming trend of commercial intrusion into Wilmont. The vast majority of Miramar traffic would be commercial in nature. Commercial traffic must be contained on commercial boulevards. A developer must not be allowed to funnel commercial traffic onto one-lane residential streets. To do so would solidify public sentiment that residents have little influence over decisions made in **Santa Monica (2014 Wellness Survey).**

I17-5

To protect the residents of Santa Monica, the Draft EIR study must consider a full range of alternatives, including the following:

1. Adaptive Reuse Project Keep the existing hotel footprint (Hawaiian Tower). Reconfigure the hotel rooms and sizes. (Sustainable development appropriate for neighborhood)
2. No Condominiums Project (Residents do not consider luxury condos assets to our city's housing stock.)
3. Project Conforming to Ocean Transition District Require the Miramar to Conform to the Standards and Regulations set forth in the Downtown Community Plan. (No spot zoning for a favored developer)
4. Retain entrances on *Commercial* Boulevards: Wilshire and Ocean. **Eliminate entrances on *Residential* Streets:** Second and CA.
5. Eliminate 43,600 sq. ft. of Commercial Development (Halt intrusion of commercialism into residential neighborhood.)

Thank you for your consideration.

Regards,

Taffy Patton

I19-1

I am a SM resident and I am very disappointed that the city would even consider a proposal as large and invasive as the Miramar redevelopment proposal.
Please urge the City Council to seriously consider the more common sense proposals by SMCLC and the Wilmont Board to scale back this horrific plan. The city created the DCP for a reason and they should stick by that agreement.
Please urge the City Council to consider the quality and character of SM……and stand firm against this kind of development.

Subject: Miramar scoping meeting 7/19/18

Dear Rachel, I20-1
For quite a few years the Miramar has acted as an involved member of the SM community giving back to the public and demonstrating a sense of responsibility to its employees and the residents.
The new project reflects all these qualities: extraordinary care for the Moreton Bay Fig, enhancing the open space to the public complete with the ocean view and protections for it's rarity.
The streamlined architecture is a wonderful statement on a prominent piece of land.
The fact that Union workers will be employed and that a building across Second st built for affordable housing in conjunction w Community Corps, which is already established in SM, is very important as a statement of responsibility.
The fact that the turnout at the Scoping meeting was so good, with many residents supporting the Miramar project, tells us there's hope for the future.
I am a supporter of innovative architecture, looking towards the future and enhancing our skyline.
My concerns which were mentioned: traffic on Second, commercial on Wilshire (which I support), and some kind of buffer zone for California ave need to be addressed. But I have confidence in Dustin Peterson and Rafael Pelli to listen and create.
Thanks for your time and trying to 'create a safe space' for comments. It's not easy in this city.

Subject: COMMENT CARD: MiraMar Hotel Project EIR Scoping Meeting

Hello Rachel,

I22-1

Please include my comments below with those submitted for your staff, EIR staff and the applicant at the 7/19/18 meeting date:

As a Santa Monica business and real estate owner, I believe the Santa Monica community needs 'cornerstone' mixed-use re-developments, especially projects that allow Santa Monica landmarks such as the MiraMar to flourish and re-invest in the community post-development. The applicant's plan is a perfect example of what the city needs. Existing landmarks such as the MiraMar have co-existed with the public, environment and the City AND have invested in the community, through tax, social and cultural strata over many, many decades.

Granting gravity to the applicant's work over the past few years for the latest plan from Pelli Architects, I would ask that your staff and EIR staff please take into consideration the architect's myriad of carefully crafted solutions for many of the environmental issues listed as bullet points, particularly Biological Resources, Geology & Soils, Hazards & Hazardous Materials, Air Quality, Energy, Greenhouse Gas/Climate Change, Hydrology/Water Quality and Utilities. I believe the applicant's current plan addresses many of these issues in a progressive, energy-efficient and sustainable manner, many of which would ensure less energy use and environmental impact than the current MiraMar hotel footprint.

I would ask that the EIR staff work very closely with the architect to substantiate the environmental impact information provided and accurately inform the public on the 'before' (current footprint) and 'after' (estimates after re-development) findings and any 'deltas' that may show a positive impact environmentally (and financially) of the re-developed hotel's operations, not simply construction impact, for decades to come.

Having been a visitor, frequent guest and friend of the MiraMar for two decades, I simply want to ensure that the public is aware of the ultimate care of all EIR items that the Pelli group and Athens staff have taken and will take to ensure the re-developed MiraMar is a gem and the perfect example of ultimate environmental sensitivity.

Thank you for including my comments, Rachel --- and many thanks to you and your staff for all of the difficult, necessary and very positive work you do.

All the best,

Subject: Miramar

Dear Ms. Tanemori,

I23-1

As a neighbor of the Miramar and almost 50 yr. resident of Santa Monica, I am writing to urge the City to stay within current height and density regulations as you consider plans for remodeling the Miramar Hotel.

I23-2

I remember how much time, effort and community effort went into long range city planning and it seems like every time I turn around, well thought out norms are being destroyed by one or another variance. I see the charm of our city being replaced by overly dense, mammoth structures that block sunlight and airspace from neighbors and have little or no connection to the neighborhoods.

I23-3

In addition to size and aesthetic issues there is the problem of traffic and parking within the general area between Wilshire and Montana. Street parking is almost impossible to find now. I have recently had to have my guests park MILES away and I have to go get them to shuttle back to my home. Further development in the area only promises to make problems worse.

I23-4

I hope you will consider these life-changing issues as you consider plans that could have negative impact on many Santa Monica citizens.

Subject: Miramar Hotel

I24-1

As a neighbor of the Miramar Hotel, I am concerned about the impact the proposed new remodel will have on the surrounding neighborhood.

1. The proposal that the employee or any underground parking area enter and exit on California is a traffic nightmare. Especially in the summer, the cars coming up and going down the incline backs up on California sometime through the intersection with 2nd street. The on street metered parking is necessary in this already congested neighborhood. This is the only long term parking around that people working in the neighborhood can park and not have to move their vehicles every few hours. Both Wilshire where the hotel entrance is currently and Ocean or much wider streets that can take the traffic. The underground parking entrance on Ocean should be for the employee parking also. Moving the hotel entrance to 2nd street will also lead to a traffic problem. The Huntley Hotel has its' entrance on 2nd and it can block traffic going north. Now you want to have the Miramar Hotel also have its entrance on 2nd and continue to have the many trucks use a 2nd street loading dock. Please rethink and research a better traffic solution.
2. The proposed condominiums to be built on California Avenue will alter the residential feeling on the street. Is it fair to block the view of the condos already existing, to provide views for the new condos? There is a high rise building on Ocean and Wilshire. Why can't the new buildings be built along Wilshire where there already exists tall buildings.

I24-2

Thank you for your consideration
Nadya Scott

Subject: Hotel project at Wilshire and Ocean

Ms. Kwok, I25-1
As I believe I made it clear at the recent meeting held on this project that I am absolutely opposed to the entire
plan. The plan is not a remodel but rather a drastic change in scope, density, function and esthetic. On all of these points the plan is a total failure. The primary problem is an enormous increase in density of construction from the current approximately 250,000 sq.ft to over 500,000 sq.ft. Also the plan deviates dramatically from the downtown height limit of 84 feet (every change in scale invites further demands to follow suit).
I agree with all of the objections that are outlined in the letter that you of received from the Wilmont board.
I hope that the EIR will begin the process of denying any alteration to a beautiful and historic hotel that we should preserve rather than replace with a building that is too large and too unattractive.
The goal of planning in our beautiful city should be to preserve the clean air and ocean breezes rather than look to increase jobs, housing and density.
Thank you.

Dear Rachel,

I27-1

I received the excellent report dated July 26, 2018 from my neighbor, Steve Linett on the Miramar Development Project which, frankly, seems to be going from bad to worse.

As I have written before, none of us who live in the area could possibly want Santa Monica to become another Miami full of high rise monstrosities as is being proposed by the Dell people with all the attendant increases in traffic and people congestion, in air and noise pollution, in restrictions on sunlight and ocean/beach views, etc.

It really is time that the developer came forward with a more modest and sensible plan in keeping with both the surroundings and the wishes of the neighborhood residents.

Thank you.

Dear Ms. Kwok,

I28-1

As a longtime resident of Santa Monica, and now also a business owner in the city, I would like to express my opinion on the newly released plans for the Miramar project.

I'm very pleased by a number of the components of the development, specifically:

- Preservation of the historic Moreton Bay Fig Tree.
- The large amount of open space in the new design for Santa Monica residents and visitors alike to enjoy.
- The critically important responsibility we have to provide affordable housing.
- Up to 428 parking spaces.
- A beautiful new hotel on a very prime corner in our beautiful city.

I'm also pleased to see that the developer doing this project is one who has developed other properties I have visited that can only be described as truly first-class, stunning properties which is what this city and this site deserve.

Sincerely,

Marc Spilo

Subject: Miramar Hotel expansion

Dear Ms. Kwok,

I31-1

As a resident of Santa Monica, I am urging the Planning Department of this city to curtail the height and breadth of the Miramar Hotel Project. Sixty luxury condominium units is an unnecessary onslaught on the quality of life in downtown Santa Monica. I am not suggesting to leave the property as it is, but rather to make additions on a smaller scale. High rise units will destroy the ambience of our city. We do not want to become a Western Miami Beach. Open views of the sky should be a higher priority of the planning department than square footage development. You need to favor a plan that keeps the character of Santa Monica's core open and bright; not looming and restricted.

The vast majority of residents in this city want less development in the center of the city; not more. Please convey this call to your department and the City Council. To ignore this plea may well incite the community to oppose any changes to this property.

Respectfully,

Barbara J. Wallace
Santa Monica Resident

Subject: Proposed Miramar Hotel Project

Dear Ms. Kwok,

I32-1

I am writing to express my concern over the Miramar Hotel Project. I live at 123 California Ave, directly across the street from the hotel. Even though it has been scaled back, the size of the proposed design is too large for the area.

First of all, this large of a development will overwhelm the area with pedestrian and road traffic. And though it will have subterranean parking, it will make parking in the area even more difficult than it already is.

I32-2

Secondly, the construction of a seven-story building on the southeast corner of California and Ocean will block the ocean and beach views of many of the residents of 101 California and 123 California. I'm not sure why building height limits are being waived, but any higher structures should be limited to the central part of the property.

I32-3

Finally, the construction of such of project will totally disrupt life in the area for a considerable length of time.

I32-4

If the project proceeds, it should be in the same footprint as the current buildings with the same height restrictions.

Thank you,

Neal Wilde

A-3.3 Responses to Public Comments

Table A-2. Responses to the NOP Comments

Comment #	Responses
Verbal Comments Received during NOP Scoping Hearing	
VC1-1	Chapter 2, *Project Description,* provides a description of the proposed access plan for the Project. A separate Transportation Impact Analysis (TIA) has been prepared and is provided in Appendix L and summarized in Section 4.17, *Transportation,* of the EIR. The TIA analyzes the traffic impacts of the Project on the local and regional street networks and has been prepared in accordance with the City's requirements.
VC1-2	Section 4.17, *Transportation*, describes the City policies and the Project's parking supply, parking management and TDM program. The Project will provide on-site subterranean vehicle and bicycle parking for hotel guests, residents, and employees. While parking is an important urban planning issue that is of interest to the public and the decision makers, parking availability (in and of itself) is not treated as a direct impact to the physical environment requiring evaluation under CEQA (see San Franciscans Upholding the Downtown Plan v. City and County of San Francisco (2002) 102 Cal.App.4th 656).
VC1-3	Section 4.2, *Air Quality,* evaluates air quality emissions due to construction and operation of the Project, including impacts from Project vehicles. The analyses are supported by Appendix B, *Air Quality Emissions Calculations,* which contains the worksheets. In addition, Section 4.1, *Aesthetics,* provides an analysis of the potential light impacts of the Project inclusive of shading conditions. The analysis incorporates illustrative graphics that show the shading patterns of the Project at shade-sensitive uses near the Project Site. A wind study was prepared for the Project and is provided in Appendix O of the EIR. Section 4.9 Greenhouse Gas Emissions estimates the Project's greenhouse gas emissions.
VC1-4	Section 4.8, *Geology and Soils*, provides a summary of existing geological conditions and analysis of the Project impacts related to geology and soils, including effects on coastal bluff stability, landslides, and unstable soils. A Preliminary Geotechnical Evaluation is provided in Appendix G of the EIR. Earthwork activities associated with the grading and export of soil would occur in accordance with the Santa Monica Building Code and the grading plan would be reviewed by the City. Grading and erosion control measures would be implemented during site grading to reduce erosion impacts as part of the regulatory requirements.
VC1-5	The Project would preserve the historic Moreton Bay Fig Tree and rehabilitate the historic Palisades Building. By removing the perimeter walls on the Hotel Parcel, the Project would improve public and visual access to the tree. Section 4.5, *Historical Resources,* provides a history of the Miramar hotel property and an analysis of impacts of the Project on historical resources on the Project Site. The analyses are based on technical reports that are provided in Appendix D of the EIR. Section 4.3, Biological Resources, provides an analysis of potential impacts to the Moreton Bay Fig Tree and methods that would be implemented to protect and preserve the tree. This analysis is supported by tree protection studies included in Appendix C of the EIR.
VC1-1.6	The Project meets applicable criteria under PRC Section 21099(d)(1) as a transit oriented infill project on an urban infill site within a transit priority area. Therefore, aesthetic impacts are less than significant pursuant to CEQA. Nonetheless, Section 4.1, *Aesthetics*, provides an analysis of potential Project impacts on scenic view corridors and the aesthetic character along Ocean Avenue. In addition, a shade/shadow analysis is provided. Information regarding the "old/historic portion and the new design" is also addressed in Section 4.5, *Historical Resources,* that is based on technical reports, which are provided in Appendix D of the EIR.
VC-1.7	The comments regarding considerations for an alternative to the Project are noted by the City, and have been taken into account in the selection of alternatives for analysis in the EIR. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives.

VC1-8	Pursuant to CEQA Guidelines Section 15131(a)," Economic or social effects of a project shall not be treated as significant effects on the environment." However, impacts of the added population and increase in hotel and employment activities on the physical environment have been addressed throughout applicable sections of the EIR.
VC1-9	The comments in this category are noted. Some speakers expressed support for the Project while others expressed opposition. The comments regarding number of affordable housing units, LEED certification, community benefits, timing for completion, and required approvals are described in Chapter 3, Project Description, of the EIR and taken into account where applicable throughout the EIR. Of particular note: Section 4.14, *Noise and Vibration*, provides an analysis of potential noise impacts; Energy is evaluated in Section 4.7, *Energy* and water is evaluated in Section 4.20, *Water Supply*.
NOP Scoping Meeting Comment Cards	
CC1-1	Section 4.8 *Geology and Soils*, provides an analysis of the Project's impact on the Palisades bluffs. Section 4.1, *Aesthetics,* analyzes the Project relative to consistency with applicable plans and development standards in effect, as well as impacts on scenic vistas. The section includes photo simulations and provides a discussion regarding views.
CC1-2	The comment is noted for the consideration of decision-makers. Section 4.12, *Land Use and Planning*, addresses the height and FAR of the Project in relation to current plans, regulations and surrounding development. Section 4.1, *Aesthetics*, also discusses the effects of the building massing and architectural character as it relates to applicable plans and development standards. Chapter 5.0 Alternatives analyzes an alternative with the removal of the driveway on California Avenue (Alternative 6) and an alternative with no condos on the Hotel Parcel (Alternative 3).
Comments Received from Public Agencies	
California Department of Transportation	
A1-1	The comment is noted for the consideration of decision-makers. The TIA, which is provided in Appendix L and summarized in Section 4.17, *Transportation,* of the EIR analyzes the traffic impacts of the Project on the local and regional street networks.
A1-2	The comment regarding collaboration with the City on implementing future thresholds of traffic analysis under SB 743 is noted. SB 743 and OPR's Technical Advisory guidance is discussed in the TIA and in Section 4.17, *Transportation*, inclusive of an analysis of Project impacts based on the vehicle miles traveled (VMT) metric pursuant to the OPR Technical Advisory guidelines.
A1-3	Chapter 3, Project Description, provides a discussion regarding the construction time schedule. Section 4.4, Construction Effects, of the EIR provides the Project Design Feature, PDF CE-1, that requires a Construction Impact Mitigation Plan that would address construction traffic routing and control, vehicular and pedestrian safety, pedestrian/bicycle access and parking, street closures, and construction parking.
A1-4	The comment regarding a transportation permit for heavy construction equipment and oversized-transport vehicles is noted. All applicable permits would be obtained by the applicant.
A1-5	Queuing is related to delay and there is no increase in delay projected at the two off-ramps (4th Street off-ramp and Lincoln off-ramp) in any of the three analysis periods with the addition of Project-generated traffic. Therefore, no material effect is expected to occur to the off-ramp queues and a queueing analysis was not conduct.
A1-6	As reflected in Section 4.17, *Transportation*, and the Appendix L TIA, the Project would not require work on freeways and their facilities.
A1-7	Traffic analysis of freeway facilities is not required for this EIR. A VMT analysis that provides information regarding impacts pursuant to SB 743 has been included. The analyses have been completed in accordance with applicable requirements. The City acknowledges the importance of TDM and the promotion of alternatives to single person car use. Pursuant to the City's TDM Ordinance and in compliance with PDF

	TR-1, the Project would include TDM strategies to promote alternatives to single person car use. The Project is located in the Downtown area, with an existing network of complete streets, and a mix of uses within walking or biking distance and a high level of pedestrian and bicycle facilities. In addition, the Project is located in a transit priority area with access to rail transit and numerous public bus lines.
A1-8	Section 4.11, *Hydrology and Water Quality*, provides an analysis of the potential drainage and water quality impacts due to construction and operation of the Project. The Project would implement best management practices in accordance with the City's Urban Runoff Pollution Ordinance for avoiding potential impacts.
LA Metro	
A2-1	Subsequent to submission of this letter, and Metro initiation, the City adopted in February 2019 a resolution to opt out of the CMP. A majority of local jurisdictions within the County representing a majority of the County population adopted resolutions to opt out as of July 2019, and the Los Angeles County CMP is no longer in effect.
South Coast Air Quality Management District	
A3-1	This comment is an introductory comment and noted for decision makers. The City will provide the necessary files to the SCAQMD for its review along with the Draft EIR.
A3-2	This comment is introductory in nature and noted for decision makers. The EIR provides an analysis of Project impacts in accordance with the SCAQMD's CEQA Air Quality Handbook and has incorporated CalEEMod modeling in the analysis.
A3-3	The provisions of the 2016 AQMP have been taken into account in the EIR analyses of air quality.
A3-4	This comment is noted. The City of Santa Monica has taken such measures into account in the preparation of its LUCE, Downtown Community Plan (DCP) and Sustainable City Plan.
A3-5	Section 4.2, *Air Quality,* evaluates impacts on air quality emissions due to construction and operation of the Project, based upon both regional and localized significant thresholds, pursuant to this comment. The analyses are supported by Appendix B, *Air Quality Emissions Calculations.*
A3-6	Section 4.2, *Air Quality,* evaluates impacts from air quality emissions due to construction and operation of the Project. The analyses are supported by Appendix B, *Air Quality Emissions Calculations*, which includes numerous quantitative analyses addressing health risks among other topics.
A3-7	Such an analysis is not required for this Project, as cited in Section 4.2, *Air Quality*. Based on the Project's hotel, residential, and retail/restaurant uses, truck traffic, and toxic or carcinogenic air pollutants are not expected to occur in any substantial amounts in conjunction with Project operations. However, it may be noted that the Project did include a construction health risk assessment that takes into account off-site mobile sources as well as on-site construction equipment.
A3-8	This comment is noted. Project Design Features, and standard mitigation measures that the City has included in the DCP, are incorporated into the Project. These features and the Project impacts regarding air quality are addressed in Section 4.2, *Air Quality*.
A3-9	Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives. In this section, air quality impacts are analyzed for each alternative.
A3-10	This comment is noted for future reference; and required permits would be obtained as applicable.
A3-11	This comment is noted and the references provided in this letter have been considered in the preparation of the EIR.
A3-12	This comment is noted and SCAQMD availability to work with the Lead Agency is noted.

Santa Monica Recreation and Parks Commission	
A4-1	Section 4.8 *Geology and Soils*, provides an analysis of the Project's impact on the Palisades bluffs and whether the Project would adversely affect the stability of the bluffs.
Letters Submitted by Organization	
SMCLC	
O1-1	This comment regarding the Project is noted for the decision makers. Issues mentioned in this comment have been addressed in the EIR. In particular, Section 4.12, *Land Use and Planning*, addresses the height and FAR of the Project in relation to current regulations and surrounding development. Section 4.1, *Aesthetics*, evaluates the effects of the building massing and architectural character as it relates to surrounding development. Section 4. 17, *Transportation* evaluates the Project's traffic impacts on the surrounding street network as well as the larger vicinity. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives that address the considerations raised in this comment.
FOSP	
O2-1	This comment is noted for the consideration of the decision makers. Section 4.13, *Neighborhood Effects,* provides an analysis of the effects of the Project on the surrounding neighborhood. Section 4.13 provides a summary of information that is provided in more detail in section 4.1, *Aesthetics*, Section 4.12, *Land Use and Planning*, Section 4.14, *Noise and Vibration*, and 4.17, *Transportation*.
O2-2	Chapter 2, *Project Description,* provides a description of the site access for the Project. Section 4.17, *Transportation* and the TIA (Appendix L) analyze the traffic impacts of the Project, inclusive of all site uses, on the local and regional street networks.
O2-3	While parking is an important urban planning issue that is of interest to the public and the decision makers, parking availability (in and of itself) is not treated as a direct impact to the physical environment requiring evaluation under CEQA (see San Franciscans Upholding the Downtown Plan v. City and County of San Francisco (2002) 102 Cal.App.4th 656). With regard to the Project, Chapter 2, Project Description provides a description of the proposed parking facilities and site access for the Project. As indicated, although the DCP does not establish minimum parking requirements, the Project would provide parking to meet the needs of its guests, employees, and visitors. The proposed subterranean parking structure would include a total of 428 striped parking spaces to accommodate the Hotel Parcel's parking demand, including parking for hotel, retail, restaurant, spa, lounge/bar, and employee parking along with residential parking. This is an increase of 325 spaces over existing on-site parking availability (or 261 spaces including the Second Street Parcel). In addition, 49 aisle spaces that could be used by the hotel valet operation would be available as needed. Refer to: Section 4.12, *Land Use and Planning,* and Section 4.17, *Transportation*, which describes the Project's consistency with City policies and as well as the Project's TDM program.
O2-4	Section 4.8 *Geology and Soils*, provides an analysis of the Project's impact on the Palisades bluffs and whether the Project would adversely affect the stability of the bluffs. Furthermore, a Geotechnical Report was prepared for the Project and can be found in Appendix G.
O2-5	The comment regarding considerations for an alternative to the Project are noted by the City. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives.
O2-6	Chapter 2, *Project Description,* provides a description of the site access for the Project. Section Furthermore, 4.17, *Transportation* and the Appendix L TIA analyzes the traffic impacts of the Project on the local and regional street networks. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives. Alternative 6 evaluates impacts with access on 2nd Street and Ocean Avenue (no access on California Avenue).

O2-7	While parking is an important urban planning issue that is of interest to the public and the decision makers, parking availability (in and of itself) is not treated as a direct impact to the physical environment requiring evaluation under CEQA (see San Franciscans Upholding the Downtown Plan v. City and County of San Francisco (2002) 102 Cal.App.4th 656). Chapter 2, *Project Description* provides a description of the proposed parking facilities and site access for the Project.
O2-8	Section 4.8 *Geology and Soils*, provides an analysis of the Project's impact on the Palisades bluffs and whether the Project would adversely affect the stability of the bluffs. Furthermore, a Geotechnical Report was prepared for the Project and can be found in Appendix G.
O2-9	The comment regarding analyzing reduced alternatives are noted by the City. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives. Of the five, three of the alternatives include substantial reductions in the size of the Project. The remaining build alternatives address design and access issues that are relevant for the consideration of the decision makers.
Laborers International Union	
O3-1	This comment is noted for the decision makers. The comment does not raise issues regarding the environmental topics to be included in the EIR. The notifications requested will be provided, consistent with the cited legal citations. Laborers International Union is on the Project's noticing list.
NOMA	
O4-1	Please refer to Comment O-1.1 provided by SMCLC and O-7.6 from Wilmont regarding their comments on the selection of alternatives. Section 4.8 *Geology and Soils*, provides an analysis of the Project's impact on the Palisades bluffs. Furthermore, a Geotechnical Report was prepared for the Project and can be found in Appendix G.
Northeast Neighbors	
O5-1	This comment regarding support for the comments from the SMCLC is noted for the decision makers. Refer to comment O-1.1, above.
SM Bay Towers	
O6-1	The comment is introductory in nature and addresses broad based issues regarding the size of the Project. Pursuant to CEQA, the focus of this EIR is on the impact of this Project on nearby populated residential areas, as well as the larger vicinity. More specific comments regarding the Project, its size and EIR contents follow.
O6-2	The comment regarding potential options for alternatives are noted by the City. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives. The selection of these alternatives is consistent with Section 15126.5 of the State CEQA Guidelines as discussed in Chapter 5.
O6-3	Section 4.17, *Transportation* and the Appendix L TIA analyze the traffic impacts of the Project on the local and regional street network, which include California Avenue and 2nd Street.
O6-4	As noted, pursuant to CEQA Guidelines, the focus of the EIR is on the impacts of the Project on the existing environment. With regard to the Project, Chapter 2, Project Description provides a description of the proposed parking facilities and site access for the Project. As indicated, although the DCP does not establish minimum parking requirements, the Project would provide parking to meet the needs of its guests, employees, and visitors. The proposed subterranean parking structure would include a total of 428 striped parking spaces to accommodate the Hotel Parcel's parking demand, including parking for hotel, retail, restaurant, spa, lounge/bar, and employee parking along with residential parking. This is an increase of 325 spaces over existing on-site parking availability (or 261 spaces including the Second Street Parcel). In addition, 49 aisle spaces that could be used by the hotel valet operation would be available as needed. Section 4.12, *Land Use and Planning*, and Section 4.17, *Transportation*, describe the City policies and the Project's parking management and TDM programs. While parking is an important urban planning issue that is of interest

	to the public and the decision makers, parking availability (in and of itself) is not treated as a direct impact to the physical environment requiring evaluation under CEQA (see San Franciscans Upholding the Downtown Plan v. City and County of San Francisco (2002) 102 Cal.App.4th 656).
O6-5	The Project would provide a 100 percent affordable housing building on the Second Street Parcel with a minimum of 30 units and maximum of 48 units. The analyses in the EIR, inclusive of the traffic analysis, assume that the larger number, 48 units, would be built in order to provide a conservative analysis.
O6-6	Section 4.4, *Construction Effects,* evaluates the construction effects of the Project on land uses in the Project vicinity. This section of the EIR provides a summary of construction impacts that are evaluated more fully in Sections 4.1, *Aesthetics*; 4.2, *Air Quality*; 4.14, *Noise and Vibration*; and 4.17, *Transportation*, of this EIR. These sections identify project design features and mitigation measures that would be implemented to reduce the impacts of construction to nearby neighbors.
O6-7	These issues are addressed in Section 4.2, *Air Quality,* Section 4.9, *Greenhouse Gas Emissions*, and Section 4.10, *Hazards and Hazardous Materials* of the EIR. More detailed data regarding these topics is included in Appendix B, *Air Quality Emissions Calculations,* Appendix H*, GHG Emissions Calculations*, and Appendix I, *Phase 1 Environmental Site Assessment*.
O6-8	Hazardous materials at the Project Site, inclusive of those mentioned in this comment are evaluated Section 4.10, *Hazards and Hazardous Materials,* with a discussion of the procedures that would be implemented to protect the public safety. The EIR analysis is supported by a detailed Phase 1 Environmental Site Assessment that is included in Appendix I of this EIR. .
O6-9	Section 4.13 *Noise and Vibration* identifies the Project's noise levels as well mitigation measures and monitoring procedures that would be applicable to the Project. Section 4.10, *Hazards and Hazardous Materials* addresses the monitoring activity that would be applicable for avoiding impacts due to hazardous materials.
O6-10	Section 4.8 *Geology and Soils*, provides an analysis of geologic and soils conditions including liquefaction potential as well as the Project's impact on the Palisades bluffs among other topics. The analysis is supported by a Geotechnical Report that can be found in Appendix G.
O6-11	Section 4.1, *Aesthetics,* analyzes the impacts of the Project on aesthetics, inclusive of density, shading conditions, and scenic vistas. The analysis incorporates illustrative graphics that show the shading patterns of the Project at shade-sensitive uses near the Project Site.
O6-12	Section 4.15, *Fire Protection,* and Section 4.16, Police Projection address the impacts regarding the provision of services and emergency access. Section 4.17, *Transportation*, addresses traffic service levels in the vicinity of the Project Site during peak traffic hours and emergency access. Section 4.4, Construction Effects, provides an analysis of potential construction effects and addresses the provision of emergency services during construction.
O6-13	Section 4.7, *Energy*, analyzes the Project's impacts on energy consumption, inclusive of electrical consumption.
O6-14	Section 4.10, *Hydrology and Water Quality*, provides an analysis of the Projects' drainage and water quality impacts due to construction and operation of the Project. Further Section 4.19 *Wastewater* and Section 4.20 *Water Supply* address the environmental impacts of the Project on sewers and water usage. The analyses are supported by the study included in Appendix N, *Fire and Domestic Water & Sewer Capacity Study*.
O6-15	Section 4.5, *Historical Resources,* provides an analysis of impacts of the Project on historical resources within the Project Site. This includes an assessment of the indirect impacts of new buildings adjacent to the Palisades Building. The analyses are supported by technical reports that are provided in Appendix D of the EIR. The issue is further addressed in Section 4.1, Aesthetics and Chapter 5, Alternatives.

O6-16	This comment addresses issues beyond the CEQA analysis and is noted for consideration of the decision makers.
O6-17	The Project's traffic analysis included in Section 4.17, *Transportation*, and the Appendix L TIA addresses project impacts under future cumulative conditions as well as existing conditions.
O6-18	This comment is noted for consideration of the decision makers. Specific CEQA issues of concern referred to in this letter are identified above.
Wilmont	
O7-1	The issues raised in this comment are addressed throughout the EIR, most notably in Section 4.1, *Aesthetics*, Section 4.12, *Land Use and Planning*, Section 4.13 *Neighborhood Impacts* and Section 4.17, *Transportation.*
O7-2	Section 4.12, *Land Use and Planning*, addresses the height and FAR of the Project in relation to current DCP regulations and surrounding development. Section 4.1, *Aesthetics*, evaluates the effects of the building massing and architectural character as it relates to surrounding development. Chapter 5, *Alternatives*, includes three build alternatives that incorporate reduced FAR and massing.
O7-3	The comment primarily addresses issues regarding ownership, economics and issues pertaining to City actions; and as such is noted for the consideration of the decision makers. Environmental topics referred to are noted and discussed further in the other comments included in this letter.
O7-4	Issues pertaining to traffic, site access and parking are addressed in Chapter 2, *Project Description*, Section 4.12, *Land Use and Planning*, and Section 4.17, *Transportation*. While parking is an important urban planning issue that is of interest to the public and the decision makers, parking availability (in and of itself) is not treated as a direct impact to the physical environment requiring evaluation under CEQA (see San Franciscans Upholding the Downtown Plan v. City and County of San Francisco (2002) 102 Cal.App.4th 656).
O7-5	Section 4.8 *Geology and Soils*, provides an analysis of the Project's impact on Palisades bluffs. These analyses are support by a Geotechnical Report that was prepared for the Project and is provided in Appendix G. Section 4.3, *Biological Resources,* addresses potential impacts on the Moreton Bay Fig.
O7-6	The comment regarding potential options for alternatives are noted by the City. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives. The selection of these alternative is consistent with Section 15126.5 of the State CEQA Guidelines as discussed in Chapter 5, and takes into account the considerations mentioned in this comment.
O7-7	As discussed regarding Comment O-7.5 and O-7.6 the geologic analysis and alternatives analysis mentioned this comment have been incorporated into the EIR, inclusive of its technical appendices.
Letters Submitted by Individuals	
Albin, Marcy	
I1-1	The comment provides an opinion of the Project and is noted for consideration of the decision makers. Issues regarding the size and height of the buildings have been addressed in the EIR pursuant to CEQA Guidelines. Note, e.g., Section 4.1, *Aesthetics,* and Section 4.12*, Land Use and Planning.*
Bach, Danilo	
I2-1	Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives. Of those five, three have reduced densities and heights along Ocean Avenue. The selection of these alternative is consistent with Section 15126.5 of the State CEQA Guidelines as discussed in Chapter 5 and takes into account the considerations mentioned in this comment.
I2-2	Section 4.8 *Geology and Soils*, provides an analysis of the Project's impact on the Palisades bluffs. These analyses are support by a Geotechnical Report that is provided in Appendix G.
Citron, Diane	

I3-1	The Comment is noted for the consideration of the decision makers. Section 4.7 *Geology and Soils*, provides analyses of the Project's impact on the Palisades bluffs. The analysis is support by a Geotechnical Report that is provided in Appendix G. Site access and proposed parking are described in Chapter 2, *Project Description.* Issues pertaining to traffic are addressed in Section 4.17, Transportation, which is based on the Appendix L TIA. As indicated, although the DCP does not establish minimum parking requirements, the Project would provide parking to meet the needs of its guests, employees, and visitors. The proposed subterranean parking structure would include a total of 428 striped parking spaces to accommodate the Hotel Parcel's parking demand, including parking for hotel, retail, restaurant, spa, lounge/bar, and employee parking along with residential parking. This is an increase of 325 spaces over existing on-site parking availability (or 261 spaces including the Second Street Parcel). In addition, 49 aisle spaces that could be used by the hotel valet operation would be available as needed. While parking is an important urban planning issue that is of interest to the public and the decision makers, parking availability (in and of itself) is not treated as a direct impact to the physical environment requiring evaluation under CEQA (see San Franciscans Upholding the Downtown Plan v. City and County of San Francisco (2002) 102 Cal.App.4th 656).
Connors, Brian	
I4-1	The comment is noted for the consideration of decision-makers. Section 4.17, *Transportation*, and the TIA included in Appendix L of the EIR, evaluate the potential traffic impacts of the Project.
Dreyfuss, Katherine	
I5-1	The comments regarding the character of the Project are noted for the consideration of the decision makers. Issues regarding the topics mentioned are addressed throughout the EIR, most notably in Section 4.1, *Aesthetics*, Section 4.8, *Geology and Soils*, 4.12, *Land Use and Planning*, Section 4.13, *Neighborhood Effects*, and Section 4.14 *Noise and Vibration*.
I5-2	The comments regarding the consideration for an alternative to the Project are noted for the decision makers. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives. Of those five, three include reduced densities and heights, and one addresses alternative site access. The selection of these alternative is consistent with Section 15126.5 of the State CEQA Guidelines as discussed in Chapter 5 and takes into account the considerations mentioned in this comment.
I5-3	This is an ending statement regarding the Project and is noted for the decision makers.
Fard, Bob	
I6-1	The comment is introductory in nature and does not address the content of the EIR. Specific comments follow.
I6-2	As indicated in Chapter 2, *Project Description*, the Project would provide a 100% affordable housing building on the Second Street Parcel with a minimum of 30 units and maximum of 48 units. The analyses in the EIR, inclusive of the land use analysis in Section 4.12, *Land Use and Planning*, assume that the larger number, 48 units, would be built in order to provide a conservative analysis.
I6-3	As referred to above, the Project would provide a 100% affordable housing building on the Second Street Parcel. Pursuant to CEQA Guidelines Section 15131(a), "Economic or social effects of a project shall not be treated as significant effects on the environment." However, impacts of the on the physical environment have been addressed throughout applicable sections of the EIR. Note in particular, Section 4.12, *Land Use and Planning*, that addresses City policies and regulations regarding the provision of affordable housing.
I6-4	The comment regarding affordable housing in a larger context is noted for the consideration of decision makers. The impacts of the EIR focuses on the impacts of

	this Project on the physical environment; and as noted the Project would provide between 30 and 48 deed restricted affordable housing units.
I6-5	Although not a CEQA issue, an evaluation of the Project's impacts on the wind patterns in the Project vicinity is summarized in Chapter 6, *Other CEQA Considerations*, Subsection 6.7, *Wind Analysis*, and supported by a technical analysis provided in Appendix O of the EIR.
I6-6	The Project parking structure would include electrical vehicle charging stations and low emission vehicle spaces for each use as well as carpool spaces for hotel employees. The relationship of the Project to pedestrians, bicyclists, and alternative modes of transportation are evaluated in Section 4.17, *Transportation* and Section 4.12, *Land Use and Planning*. Issues pertaining to alternative modes of transportation and such sustainability features are also addressed in Section 4.7, *Energy* and 4.9, *Greenhouse Gas Emissions.*
I6-7	Chapter 2, *Project Description*, includes a timeline and a description of Project construction activities. Construction impacts are addressed in Section 4.4, *Construction Effects*. This section of the EIR provides a summary of construction impacts that are evaluated more fully in Sections 4.1, *Aesthetics*; 4.2, *Air Quality*; 4.14, *Noise and Vibration*; and 4.17, *Transportation*, of this EIR. These sections identify project design features and mitigation measures that would be implemented to reduce the impacts of construction to nearby neighbors.
I6-8	Section 4.9, *Hazards and Hazardous Materials*, provides an analysis of the Project's potential impacts from hazards and hazardous materials during construction as well as operations. The analysis is based on a Phase I that is provided in Appendix I.
I6-9	The comment is regarding economics, which is not a CEQA issue. The comment is provided to the decision makers for consideration. The Project would be implemented through a Development Agreement, which will identify the community benefits that would be provided by the Applicant and address other issues of concern to the City.
I6-10	As indicated above, the comment is regarding economics, which is not a CEQA issue. The comment is provided to the decision makers for consideration.
I6-11	Section 4.16, *Police Protection*, provides an analysis of potential effects on police protection services in the City of Santa Monica and the Project's security precautions.
I6-12	The comment regarding status of the City website has been noted by the City to improve future website operations; and the letter has been incorporated into the EIR appendices.
Filipek, Suzan	
I7-1	The comment regarding implementation of the Project is noted for the consideration of the decision makers. It should be noted, that the issues addressed in this and the following comments have been evaluated in the EIR pursuant to CEQA Guidelines, addressing the physical impacts of this Project on the existing environment. While these topics are addressed throughout the EIR, note in particular the analyses in Sections 4.1, *Aesthetics*, 4.4 *Construction Effects*, 4.5, *Historical Resources*, 4.12, *Land Use and Planning*, 4.17, *Transportation*, and Chapter 5, *Alternatives*.
I7-2	Refer to Comment I7-1. Section 4.17, *Transportation* and the Appendix L TIA analyze the traffic impacts of the Project on the local and regional street network, which include California Avenue. Also, note that Chapter 5, Alternatives, includes an evaluation of a Project Alternative (Alternative 6) that would relocate the currently proposed access on California Avenue to 2nd Street.
I7-3	Refer to Comment I-7.1.
I7-4	The opinion regarding implementation of the Project is noted for the consideration of the decision makers.
Gertley, Jim 1	
I8-1	Chapter 2, *Project Description*, includes information regarding the Project, inclusive of site plans and renderings of the Project buildings. The 100% affordable housing building that would be located on the Second Street Parcel would be a maximum of 60 feet in height and would comply with the City requirements in terms of setbacks

	and building articulation. Potential impacts of the building are evaluated throughout the EIR. See in particular Sections 4.1 *Aesthetics*, and 4.12, *Land Use and Planning,* for analyses regarding land use, massing, and consistency with City plans and policies.
I8-2	Issues raised in this comment are address throughout the EIR. Note in particular: Chapter 2, Project Description, Sections 4.1 *Aesthetics*, 4.2, *Air Quality*, 4.4, *Construction Effects*, 4.12, *Land Use and Planning*, Section 4.14, *Noise and Vibration* and Section IV.17, *Transportation*. In accordance with CEQA, the EIR evaluates potential impacts on the physical environment and property values are not evaluated.
Gerstley, Jim 2	
I9-1	The comment regarding the character of the Project is noted for consideration by the City. Section 4.1, *Aesthetics,* analyzes the impacts of the Project on aesthetics, inclusive of the affordable housing building on the Second Street Parcel and its effects on shading.
I9-2	Chapter 2, *Project Description*, identifies the Project's height and density. Although not a CEQA issue, a wind study was prepared and is provided in Appendix O and is summarized in Chapter 6, *Other CEQA Considerations*, Subsection 6.7.
I9-3	Comments regarding development at the Project Site are noted for the consideration of the decision makers. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives, inclusive of three alternatives that substantially reduce the size of the Project.
I9-4	Section 4.17, *Transportation* and the Appendix L TIA analyzes the traffic impacts of the Project on the local and regional street networks as well as bicycle and pedestrian safety. Furthermore, Section 4.2, *Air Quality,* evaluates localized air quality impacts and Section 4.14, *Noise and Vibration*, addresses localized noise impacts due to construction and operations.
I9-5	The comment is noted for the consideration of the decision makers. Section 4.17, *Transportation*, identifies regulatory requirements and project design features that would support pedestrian activity and incentivize the use of alternative transportation modes of transportation. Additionally, the Project would implement an enhanced TDM program in accordance with Santa Monica Municipal Code (SMMC) Chapter 9.53. Specific measures for the new TDM program would be negotiated as part of the Development Agreement and could include measures such as: transportation allowances for employees and residents choosing to commute using non-single occupancy vehicle modes, bicycle parking for all users and employee lockers and shower facilities, a transportation coordinator, on-site transportation information, transportation welcome packages for residents and incentives for both employees and customers to use non-single occupancy vehicle modes.
I9-6	Construction impacts are evaluated in Section 4.4, Construction Effects. This section of the EIR provides a summary of construction impacts that are evaluated more fully in Sections 4.1, *Aesthetics*; 4.2, *Air Quality*; 4.14, *Noise and Vibration*; and 4.17, *Transportation*, of this EIR. Limited construction hours are discussed in those analyses.
I9-7	Section 4.19 *Wastewater* and Section 4.20 *Water Supply,* address the environmental impacts of the Project on sewers and water usage. As required by Santa Monica code, all new buildings on the site would conform to the City's Water Neutrality Ordinance. Further information is provided in Appendix M, *Fire and Domestic Water & Sewer Capacity Study*.
I9-8	Topics of concern noted in this comment have been addressed throughout the EIR. Chapter 2, *Project Description*, identifies the Project's affordable housing. Section 4.1, *Aesthetics,* analyzes the impacts of the Project on aesthetics, inclusive of the redevelopment of the Second Street Parcel and potential effects on shading. Section 4.2 *Air Quality,* Section 4.14 *Noise and Vibration*, and Section 4.17 *Transportation,* include analyses of the Project, including the redevelopment of the Second Street Parcel, on air quality, noise, and traffic.

I9-9	The comment provides a conclusion and is noted for the consideration of the decision makers. As noted above in responses 1-9.1 through 1-9.8, the issues raised in this letter have been addressed in the EIR. In addition, Chapter 5, Alternatives, evaluates six alternatives, including five build alternatives, three of which reduce the Project density, and one of which addresses alternative site access.
Gottlied, Lisa	
I10-1	The comment regarding the scale of the Project is noted for the consideration of the decision makers. Section 4.12, *Land Use and Planning*, addresses the height and FAR of the Project in relation to current regulations and surrounding development. Section 4.1, *Aesthetics*, also discusses the effects of the building massing and architectural character as it relates to surrounding development. Impacts on infrastructure are addressed in Section 4.11, *Hydrology and Water Quality*, Section 4.17, *Transportation*, Section 4.19, *Wastewater*, and *Section 4.20*, *Water Supply*.
Gurtfield, Robert	
I11-1	The comment regarding an alternative to the Project is noted for the consideration of decision makers. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives, three of which reduce the massing of the Project buildings.
Hartung, Jim	
I12.1	The comment is noted for the consideration of the decision makers. Section 4.12, *Land Use and Planning*, addresses the height and FAR of the Project in relation to current regulations and surrounding development, including an evaluation of the Project relative to the Coastal Act. Further, Section 4.1, *Aesthetics*, evaluates impacts on scenic view corridors and the aesthetic character as it relates to surrounding development. Impacts regarding traffic and parking are addressed in Section 4.17, *Transportation* and potential impacts regarding the bluffs are addressed in Section 4.8, *Geology and Soils*.
I12-2	The comment regarding an alternative to the Project is noted for the consideration of the decision makers. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives, three of which reduce the size and massing of the Project.
I12-3	The comment is noted for the consideration of the decision makers.
Judson, Marilyn	
I13-1	As described in Chapter 2.0 Project Description, the Project would demolish all buildings, except the Palisades Building and Moreton Bay Fig Tree which would be retained. The comment regarding the Applicant's preference for adaptive reuse is noted for the consideration of the decision makers. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives, three of which reduce the size and massing of the Project pursuant to CEQA requirements. Section 4.12, Land Use and Planning, addresses the height and FAR of the Project in relation to current regulations and surrounding development. As indicated, the Project would be consistent with the development standards of the Downtown Community Plan, and no variance or zoning exemption is being requested.
Kastner, Susan	
I14-1	This comment is noted for consideration of the decision makers. This comment does not raise issues pertaining to the EIRs CEQA analysis.

Meyers, Ted	
I15-1	This comment is noted for the consideration of the decision makers. Section 4.12, *Land Use and Planning*, addresses the height and FAR of the Project in relation to surrounding development. Section 4.1, *Aesthetics*, also analyzes the effects of the building massing and architectural character of the existing development as it relates to surrounding development. Section 4.17, *Transportation* and the Appendix L TIA analyzes the traffic impacts of the Project on the local and regional street networks. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives, three of which reduce the size and massing of the Project.
Ohman, Cordula	
I16-1	This comment is noted and does not raise issues pertaining to the contents of the EIR.
Patton, Taffy	
I17-1	This comment is noted for the consideration of the decision makers. Section 4.12, *Land Use and Planning*, addresses the height and FAR of the Project in relation to the Downtown Community Plan development standards and surrounding development.
I17-2	The comment regarding travel activity is noted for the consideration of the decision makers. Section 4.17, *Transportation,* provides an analysis of traffic impacts and summarizes the Appendix L TIA that discusses in more detail the methodology and assumptions for the traffic analysis.
I17-3	Chapter 2, *Project Description*, provides a description of the proposed parking facilities and site access for the Project. Section 4.12, *Land Use and Planning*, and Section 4.17, *Transportation*, describe consistency with the City parking policies and the Project's TDM program.
I17-4	Chapter 2, *Project Description,* provides a description of the site access for the Project. Section 4.12, *Land Use and Planning*, addresses the relationship of the Project uses to development in the surrounding community. Section 4.17, *Transportation summarizes* the Appendix L TIA, which analyzes the traffic impacts of the Project on the local and regional street networks. Chapter 5, *Alternatives*, evaluates six alternatives, including five build alternatives and one alternative that would relocate site access from California Avenue to 2nd Street.
I17-5	The comment regarding considerations for analysis of Project alternatives is noted. Chapter 5, *Alternatives*, evaluates the comparative impacts of six alternatives including five build alternatives. The chapter includes a discussion of the basis for selecting the alternatives, which takes into account public comments.
Rabuchin, Suzy and Al	
I18.1	The opinion regarding the Project is noted for the consideration of the decision makers. Project impacts alluded to are addressed throughout the EIR, most notably in Section 4.1, *Aesthetics*, 4.12, *Land Use and Planning*, 4.17. *Transportation,* and Chapter 5, *Alternatives*.
Rimer, Anne	
I19-1	This opinion of the Project is noted for the consideration of the decision makers. Section 4.12, *Land Use*, evaluates Project consistency with the DCP. Chapter 5, *Alternatives*. includes the evaluation of six alternatives, five build alternatives and four alternatives based upon the comments made in response to the NOP.
Robbins, Meyera	
I20.1	This comment regarding support for implementation of the Project is noted for the consideration of the decision makers. Section 4.17, *Transportation*, provides an analysis of traffic impacts due to the Project.
Rocha, Laurie	
I21-1	This opinion expressed in the comment is noted for the consideration of the decision makers. Chapter 5, *Alternatives*. includes the evaluation of six alternatives, including five build alternatives. The multiple environmental topics referenced in this comment have all been addressed throughout the EIR.

Rowe, Bret	
I22-1	This comment regarding support for implementation of the Project is noted for the consideration of the decision makers.
Savage, Christie	
I23.1	This comment regarding the Project size is noted for the consideration of the decision makers. Section 4.12, *Land Use and Planning*, addresses the height and FAR of the Project in relation to the Downtown Community Plan development standards and surrounding development.
I23-2	Section 4.1, *Aesthetics*, also discusses the effects of the building massing and architectural character of the existing development as it relates to surrounding development, inclusive of shadow effects.
I23-3	Chapter 2, *Project Description* provides a description of the proposed parking facilities and site access. As indicated, although the DCP does not establish minimum parking requirements, the Project would provide parking to meet the needs of its guests, employees, and visitors. The proposed subterranean parking structure would include a total of 428 striped parking spaces to accommodate the Hotel Parcel's parking demand, including parking for hotel, retail, restaurant, spa, lounge/bar, and employee parking along with residential parking. This is an increase of 325 spaces over existing on-site parking availability (or 261 spaces including the Second Street Parcel). In addition, 49 aisle spaces that could be used by the hotel valet operation would be available as needed.
I23-4	This comment is noted for the consideration of the decision makers and does not raise additional issues pertaining to the CEQA analysis.
Scott, Nadya	
I24-1	Chapter 2, *Project Description* provides a description of the proposed parking facilities and site access. Section 4.17, *Transportation* and the Appendix L TIA evaluate the traffic impacts of the Project on the local intersections and street segments. Chapter 5, Alternatives, includes a comparative evaluation of six alternatives including five build alternatives. One of these, Alternative 6, relocates the site access employee access from California Avenue to 2nd Street.
I24-2	Section 4.12, *Neighborhood Effects,* analyzes the effects of the Project on the surrounding neighborhood. Section 4.12 summarizes information provided in more detail in Section 4.1, *Aesthetics*, Section 4.12, *Land Use and Planning*, Section 4.14, *Noise and Vibration*, and 4.17, *Transportation.* Chapter 5 includes an analysis of six alternatives, three of which would reduce the Project massing and height.
Seid, Arnold	
I25-1	The comment expresses an opinion and is noted for the consideration of the decision makers. Section 4.12, *Land Use and Planning*, evaluates Project consistency with the DCP. As indicated, the Project would not exceed the DCP height limit of 130 feet for an Established Large Site. Also, Section 4.5, *Historical Resources,* provides an analysis of potential Project impacts on historical resources within the Project Site. The analyses are supported by technical reports that are provided in Appendix D of the EIR.
Smith, John	
I26-1	This comment provides an opinion and is noted for the consideration of the decision makers. This comment is a respond to the submittal of comments by the Wilmont Board and does not directly raise issues pertaining to the contents of the EIR. See Letter O-7 and associated responses.
Speyyr, Nick von	
I27-1	This comment is noted. The issues raised in this comment are addressed throughout the EIR, most notably in Section 4.1, *Aesthetics*, Section 4.2, *Air Quality*, Section 4.12, *Land Use and Planning*, Section 4.13 *Neighborhood Effects,* Section 4.17, *Transportation,* and Chapter 5, *Alternatives.*
Spilo, Marc	

I28-1	This comment in support of Project implementation is noted for the consideration of the decision makers.
Trives, Nathaniel	
I29-1	This comment in support of Project implementation is noted for the consideration of the decision makers.
Walker, Loureita	
I30-1	Section 4.17, *Transportation* and the Appendix L TIA analyze the traffic impacts of the Project on the local and regional street networks.
I30-2	Section 4.12, *Land Use and Planning*, addresses the height and FAR of the Project in relation to current regulations and surrounding development. Section 4.1, *Aesthetics*, also discusses the effects of the building massing and architectural character as it relates to surrounding development. A wind study was prepared for the Project and summarized in Chapter 6, *Other CEQA Considerations*, Subsection 6.7 and provided in Appendix O of the EIR.
I30-3	Section 4.14, Noise and Vibration, evaluates the potential noise impacts due to construction and operations of the Project.
I30-4	This comment is noted for the consideration of decision makers. This comment does not raise issues pertaining to contents of the EIR.
Wallace, Barbara	
I31-1	This comment regarding the size of the Project is noted for the consideration of the decision makers. Section 4.1, *Aesthetics*, discusses the effects of the building massing and architectural character of the existing development and Project as it relates to surrounding development. Chapter 5, Alternatives, provides a comparative analysis of six alternatives inclusive of five build alternatives, three of which would reduce the height and massing of the Project.
Wilde, Neal	
I32-1	This comment regarding the size of the Project is noted for the consideration of the decision makers. Section 4.1, *Aesthetics*, discusses the effects of the building massing and architectural character of the existing development and Project as it relates to surrounding development. Section 4.17, *Transportation* and the Appendix L TIA analyzes the traffic impacts of the Project on the local and regional street networks.
I32-2	Section 4.1, *Aesthetics*, evaluates Project impacts on views of scenic resources. Section 4.12, *Land Use and Planning*, addresses the height and FAR of the Project in relation to current regulations and surrounding development.
I32-3	Construction impacts are evaluated in Section 4.4, *Construction Effects*. This section of the EIR provides a summary of construction impacts that are evaluated more fully in Sections 4.1, *Aesthetics*; 4.2, *Air Quality*; 4.14, *Noise and Vibration*; and 4.17, *Transportation*, of this EIR.
I32-4	This preference for the building footprint is noted for the consideration of the decision makers.
Winn, Pamela	
I33-1	This comment regarding preference for a smaller project is noted for the consideration of the decision makers. Section 4.12, *Land Use and Planning*, evaluates the Project's relationship to the provision of the DCP. Chapter 5, *Alternatives*, includes a comparative analysis of six alternatives inclusive of five build alternatives, three of which would reduce the Project height and massing.

Miramar Hotel
Operational Assumptions

Energy Use

Electricity — Defaults adjusted for Title 24 changes for Project, Existing usage provided.

Natural Gas — Defaults adjusted for Title 24 changes for Project, Existing usage provided.

CalEEMod currently uses 2016 Title 24 efficiency standards. The project will be built post 2019 therefore as a conservative estimate of T24 efficiencies required, the emission factors are updated to account for the inclusion of 2019 Title 24 standards. Existing consumption was based on the average consumption over the last 7 years as provided (Source: Miramar UTILITIES Stats 2011-2017 aug.xls).

	T24 Electricity	Lighting	T24 NG
Residential 2019	7%	0%	7%
Non-Residential 2019	30%	0%	30%

Default	T24 Electricity	Lighting	T24 NG

1 - Assumptions

c: Max Daily Equipment

Miramar Hotel
Construction Assumptions - Equipment

Equipment Assumptions:

Unmitigated Scenario:

1. All Equipment is fueled as noted. Diesel equipment is EPA Tier 4.
2. No Diesel Generators are uses, anticpates hook-up to SCE
3. Water trucks (off-highway trucks) are modeled outside of CalEEMod.
4. Multiple phases denote equipment that is not used for the entire phase. I.e. for Hotel-Demolition-A, Air compressors, concrete/industrial saws, and jackhammers are only used for 3/4 of the construction phase.
5. "Mitigated" scenario in CalEEMod accounts for Tier 4 equipment use and alternate fuel use.
6. Jackhammers are powered by the air compressor and therefore not modeled in CalEEMod

Phase Name	CalEEMod Phase Name	Equipment Type	# of Equipment	# of Diesel Equipment	Equipment Hours/day	Fuel Type
Hotel-Demolition-A	Demolition	Air Compressors	4	0	6	Electric
Hotel-Demolition-A	Demolition	Concrete/Industrial Saws	6	6	8	Diesel

	5	LST Acre comparison

The screening criteria for NOx were developed based on the 1-hour NO2 CAAQS of 0.18 ppm. However, since the publication of the SCAQMD's guidance, the USEPA has promulgated a 1-hour NO2 NAAQS of 0.100 ppm based on a 98th percentile value, which is more stringent than the CAAQS. In order to determine if Project emissions would result in an exceedance of the 1 hour NO2 NAAQS, an approximated LST was estimated to evaluate the federal 1-hour NO2 standard, as the SCAQMD significance threshold has not been updated to reflect this standard. Calculated by scaling the NO2 LST for by the ratio of 1-hour NO2 standards (federal/state)(i.e., 780 lb/day * (0.10/0.18) =433 lb/day).

Unmitigated Operational Impacts

Unmitigated LST Screening Level - Existing

	Pollutant					
	ROG	NO_X	CO	SOx	PM_{10}	$PM_{2.5}$
	lbs/day					
Onsite		4	4		2.82	1.78
Total		4	4		2.82	1.78
Threshold		***123***	***1,531***		***3***	***2***
Exceed Threshold		***No***	***No***		***No***	***No***

Operational: SRA 2, 25 meter, 5-acre

The screening criteria for NOx were developed based on the 1-hour NO2 CAAQS of 0.18 ppm. However, since the publication of the SCAQMD's guidance, the USEPA has promulgated a 1-hour NO2 NAAQS of 0.100 ppm based on a 98th percentile value, which is more stringent than the CAAQS. In order to determine if Project emissions would result in an exceedance of the 1 hour NO2 NAAQS, an approximated LST was estimated to evaluate the federal 1-hour NO2 standard, as the SCAQMD significance threshold has not been updated to reflect this standard. Calculated by scaling the NO2 LST for by the ratio of 1-hour NO2 standards (federal/state)(i.e., 780 lb/day * (0.10/0.18) =433 lb/day).

South Coast Air Quality Management District, Emission Factors for Commercial Cooking Operations, http://www.aqmd.gov/docs/default-source/rule-book/Proposed-Rules/1138/par1138pdsr_appendixi.pdf?sfvrsn=2. Accessed April 2016.

Assumptions:

From the PES report, there are 13,300 under-fired charbroilers in the Basin. Setting the threshold level at 1,250 lbs of beef/wk cooked would create a universe of 931 charbroilers affected by the proposed rule. An average restaurant using an under-fired charbroiler cooking 1,250 lbs/week of beef would cook:

- 681 lbs hamburger/week
- Emission factor for hamburger meat (25% fat content) is 32.65lbs PM/1,000 lbs hamburger meat
- 569 lbs steak/week
- Emission factor for steak is 17.19 lbs PM/1,000 lbs. steak
- Discount Cash Flow (DCF) Method is used for deriving cost-effectiveness with 10-year equipment life and 4% per year real interest rate, and therefore present worth factor = 8.11.
- Number of under-fired charbroilers impacted by proposed rule = 931

Air Quality

5 - CalEEMod Output

a: Hotel Site Construction

Miramar Hotel - Hotel Site Construction Only

Los Angeles-South Coast County, Winter

1.0 Project Characteristics

1.1 Land Usage

Land Uses	Size	Metric	Lot Acreage	Floor Surface Area	Population
Hotel	201.00	Room	2.39	238,676.00	0
Quality Restaurant	19.71	1000sqft	0.45	19,710.00	0
Health Club	12.50	1000sqft	0.29	12,500.00	0
Strip Mall	6.60	1000sqft	0.15	6,600.00	0
Enclosed Parking with Elevator	428.00	Space	0.85	171,200.00	0
Condo/Townhouse	60.00	Dwelling Unit	3.75	70,943.00	172

1.2 Other Project Characteristics

Urbanization	Urban	**Wind Speed (m/s)**	2.2	**Precipitation Freq (Days)**	33
Climate Zone	11			**Operational Year**	2025
Utility Company	Southern California Edison				
CO2 Intensity (lb/MWhr)	462.58	**CH4 Intensity (lb/MWhr)**	0.029	**N2O Intensity (lb/MWhr)**	0.006

3.1 Mitigation Measures Construction

Use Alternative Fuel for Construction Equipment

Use Cleaner Engines for Construction Equipment

Use Soil Stabilizer

Replace Ground Cover

Water Exposed Area

Reduce Vehicle Speed on Unpaved Roads

Clean Paved Roads

3.1 Mitigation Measures Construction

Use Alternative Fuel for Construction Equipment

Use Cleaner Engines for Construction Equipment

Use Soil Stabilizer

Replace Ground Cover

Water Exposed Area

Reduce Vehicle Speed on Unpaved Roads

Clean Paved Roads

3.2 Demolition-A - 2022

3.1 Mitigation Measures Construction

Use Alternative Fuel for Construction Equipment

Use Cleaner Engines for Construction Equipment

Use Soil Stabilizer

Replace Ground Cover

Water Exposed Area

Reduce Vehicle Speed on Unpaved Roads

Clean Paved Roads

3.2 Demolition - 2023

Unmitigated Construction On-Site

4.0 Operational Detail - Mobile

Operational Activities Modeled Separately

Miramar Hotel - 2nd Street Site Construction Only

Los Angeles-South Coast County, Summer

1.0 Project Characteristics

1.1 Land Usage

Land Uses	Size	Metric	Lot Acreage	Floor Surface Area	Population
Enclosed Parking with Elevator	96.00	Space	0.10	38,400.00	0
Apartments Mid Rise	48.00	Dwelling Unit	0.20	48,000.00	137

1.2 Other Project Characteristics

Urbanization	Urban	**Wind Speed (m/s)**	2.2	**Precipitation Freq (Days)**	33
Climate Zone	11			**Operational Year**	2025
Utility Company	Southern California Edison				
CO2 Intensity (lb/MWhr)	441.9	**CH4 Intensity (lb/MWhr)**	0.029	**N2O Intensity (lb/MWhr)**	0.006

3.1 Mitigation Measures Construction

Use Alternative Fuel for Construction Equipment

Use Cleaner Engines for Construction Equipment

Use Soil Stabilizer

Replace Ground Cover

Water Exposed Area

Reduce Vehicle Speed on Unpaved Roads

Clean Paved Roads

3.2 Demolition - 2023

Unmitigated Construction On-Site

Road Dust

Miramar Hotel
Road Dust

Paved Road Dust Emission Factors (Assumes No Precipitation)

Formula: $EF_{Dust,P} = (k\ (sL)^{0.91} \times (W)^{1.02})$

Where:

$EF_{Dust,P}$ =	Paved Road Dust Emission Factor (having the same units as k)
k =	particle size multiplier
sL =	road surface silt loading (g/m^2)
W =	average fleet vehicle weight (tons) (CARB uses 2.4 tons as a fleet average vehicle weight factor)

Emission Factor (grams per VMT)		
	PM10	PM2.5
k	0.9979	0.2449
sL	0.1	0.1
W	2.4	2.4
$EF_{Dust,P}$	3.00E-01	7.36E-02

Unpaved Road Dust Emission Factors (Assumes No Precipitation)

Formula: $EF_{Dust,U} = (k\ (\ s / 12)^{1} \times (Sp / 30)^{0.5} / (M / 0.5)^{0.2}) - C)$

Where:

$EF_{Dust,U}$ =	Unpaved Road Dust Emission Factor (having the same units as k)
k =	particle size multiplier
s =	surface material silt content (%)
Sp =	mean vehicle speed (mph)
M =	surface material moisture content (%)
C =	Emission Factor for 1980s vehicle fleet exhaust, brake wear, and tire wear

Emission Factor (grams per VMT)		
	PM10	PM2.5
k	816.47	81.65
s	4.3%	4.3%
Sp	15	15
M	0.5%	0.5%
C	0.00047	0.00036
$EF_{Dust,U}$	5.20E+00	5.19E-01

b: DPM Emissions

Miramar Hotel

Project Construction Equipment-DPM Emissions

sec/min	60
sec/hr	3600
g/lb	453.60

Notes:

1 The number of Bore/Drill Rigs used is averaged over the five month schedule. For the first 2 months there are 4 operating onsite, for the remaining 3 months there is only one onsite.
