SUBJECT: Filing of Notice of Determination in compliance with Section 21152 or 21152 of the Public Resources Code

STATE CLEARINGHOUSE NUMBER: SCH# 2013042054

PROJECT TITLE:	SOUTHEAST POLICY AREA STRATEGIC PLAN EIR ADDENDUM (EG-18-017)
PROJECT APPLICANT:	Souza Elk Grove, LLC c/o Kamilos Holdings I 11249 Gold Country Boulevard, Ste. 190 Gold River, CA 95670
PROJECT LOCATION:	Elk Grove California, Sacramento County
ASSESSOR'S PARCEL NUMBER(S)	132-0320-006
PROJECT DESCRIPTION:	The Project consists of an Addendum to the certified Environmental Impact Report (EIR) for the Southeast Policy Area (SEPA) Strategic Plan involving text changes to the EIR and adopted Mitigation Monitoring and Reporting Program.

This is to advise that on June 27, 2018, the City of Elk Grove City Council has approved the above described project and has made the following determinations regarding the above described project.

The SEPA Special Plan Area was approved and an EIR certified by the City Council on July 9, 2014 (State Clearinghouse No. 2013042054). In conjunction with the certification of the EIR a Mitigation Monitoring and Reporting Program (MMRP) was adopted for the Specific Plan.

Section 15164 of the State CEQA Guidelines describes the conditions under which an Addendum to a previously certified EIR is appropriate. These conditions are as follows:

- (a) The lead agency or responsible agency shall prepare an addendum to a previously certified EIR if some changes or additions are necessary but none of the conditions described in Section 15162 calling for preparation of a subsequent EIR have occurred.
- (b) An addendum to an adopted negative declaration may be prepared if only minor technical changes or additions are necessary or none of the conditions described in Section 15162 calling for the preparation of a subsequent EIR or negative declaration have occurred.
- (c) An addendum need not be circulated for public review but can be included in or attached to the final EIR.
- (d) The decision making body shall consider the addendum with the final EIR prior to making a decision on the project.
- (e) A brief explanation of the decision not to prepare a subsequent EIR pursuant to Section 15162 should be included in an addendum to an EIR, the lead agency's findings on the project, or elsewhere in the record. The explanation must be supported by substantial evidence.

Pursuant to section 15164(a) above, the Addendum was reviewed against CEQA Section 15162 which describes the situations when a Subsequent EIR (SEIR) should be prepared. These conditions include:

- (1) Substantial changes are proposed in the project which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified effects;
- (2) Substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or
- (3) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete, shows any of the following:
 - (a) The project will have one or more significant effects not discussed in the previous EIR;
 - (b) Significant effects previously examined will be substantially more severe than shown in the previous EIR;
 - (c) Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measures or alternatives; or
 - (d) Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

DONNA ALLRED, CLERK/RECORDER
BY  DEPUTY

None of the aforementioned conditions calling for the preparation of an SEIR are met.

The Addendum to the SEPA EIR evaluates text changes to the EIR and its Mitigation Monitoring and Reporting Program. These text changes provide an additional option to mitigate for the loss of Swainson's hawk foraging habitat at the Van Vleck Ranch pursuant to EGMC Section 16.130.110 which reserves for the City Council the ability to consider and approve means of mitigating significant impacts on Swainson's hawk foraging habitat other than those prescribed mitigation standards contained in EGMC Section 16.130.040. Staff finds that the conditions A through E of State CEQA Guidelines section 15164 are met, therefore the Addendum prepared to the SEPA EIR is the appropriate environmental review document.

This is to certify that the Environmental Impact Report is available to the General Public at: City of Elk Grove, 8401 Laguna Palms Way, Elk Grove, CA 95758

SUBJECT: **Filing of Notice of Determination in compliance with Section 21152 or 21152 of the Public Resources Code**

STATE CLEARINGHOUSE NUMBER: SCH#2013042054

PROJECT TITLE: Southeast Policy Area Special Planning Area

PROJECT APPLICANT: City of Elk Grove

PROJECT LOCATION: West of State Route 99, east of Big Horn Boulevard and Bruceville Road, south of Bilby Road and Poppy Ridge Road, and north of Kammerer Road
Elk Grove California, Sacramento County

ASSESSOR'S PARCEL NUMBER(S): Various

PROJECT DESCRIPTION: The proposed Southeast Policy Area Strategic Plan Project includes a Community Plan and Special Planning Area for an approximately 1,200-acre area in the southern portion of the City of Elk Grove. The Project is an employment-oriented development with a goal to provide a community that supports and encourages the development of employment uses, but also includes residential land uses. The Project would allow for the development of approximately 7.8 million square feet of employment-generating uses; 4,790 residential units in various densities; and acreage for schools, parks, and infrastructure, such as road right-of-way and storm drainage facilities. The proposed Project would generate approximately 23,410 jobs and a population of approximately 17,000
