Project Description: (please use a separate page if necessary)

The Project includes a land use plan that would provide for a variety of residential, public, park, open space, and employmentgenerating uses such as office, commercial, and retail. It would provide for a diverse community that can accommodate a wide range of residents in various housing types in proximity to existing and planned job centers, including new jobs created within the Plan Area. Much of the eastern portion and the area north of Kiefer Boulevard in the Plan Area would be occupied by a wetland and habitat preserve. Another key feature of the Plan Area is a large, centrally located greenway/drainage corridor with a trail on one side that has been designed to provide easy, non-vehicular linkages from one end of the community to the other.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
