Attachments: SCH 2013101050.pdf; Area-Section EIR RESPONSE CHECKLIST.DOCX

Good afternoon,

I have reviewed the attached environmental impact documentation and the Draft Environmental Impact Report produced by the City of Paso Robles. Although this project would definitely create an increase in traffic congestion in the area and would have a significant impact on the Highway 46 West interchange, I have determined the planned traffic engineering modification and rerouting of South Vine Street as outlined in the project proposal would adequately mitigate the traffic concerns.

With the assumption these roadway modifications remain a contingency in the project as proposed, I have determined there to be **no impact to the Templeton Area's local operation and/or public safety by SCH 2013101050.**

Please let me know if you have questions or concerns.

Thank you,
Kevin

Governor's Office of Planning & Research

CC to Division FYI only.

Special Projects Section (SPS) recently received the referenced Notice of environmental impact document from the State Clearinghouse outlined in the following Web site:

<https://ceqanet.opr.ca.gov/Project/2013101050>

Due to the project's geographical proximity to the Templeton Area, please use the attached checklist to assess its potential impact to local Area/Section operations and public safety.

Please feel free to e-mail me if you have any questions.
