SUBJECT: *Filing of Notice of Determination pursuant to Public Resources Code section 21108*

State Clearinghouse Number: 2015042035

Project Title: Clear Creek Road (P.M. 0.25) Bridge Replacement (Lake or Streambed Alteration Agreement No. 1600-2019-0101-R2)

Project Location (include county): The project is located at Clear Creek, in the County of El Dorado, State of California; Latitude 38.6873°, Longitude -120.6391°; in the southeast quarter of Section 27, Township 10N, Range 12E, U.S. Geological Survey (USGS) map 'Camino, California', Mount Diablo base and meridian.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement number 1600-2019-0101-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, the County of El Dorado Department of Transportation, as represented by Rafael Martinez.

The project is limited to replacing the existing 1-lane bridge crossing on Clear Creek Road with a new bridge. The existing bridge is an approximately 10-foot-wide single-span structure consisting of two steel girders. The existing bridge will be removed and replaced with a new, approximately 45-foot-long and 22-foot wide concrete bridge with two 9-foot-wide lanes and two 2-foot-wide shoulders with railing and approach guardrails. The demolished bridge materials will be removed and disposed of offsite at an appropriate facility. Pile-driving may be required to support a temporary shoring structure used to install the new bridge. The new bridge abutments will extend to an approximate depth of 8 to 10 feet below the existing roadway. Rock slope protection will be installed around the new bridge to stabilize the creek banks and protect the new bridge from scour.

Six trees will be removed from the banks of the creek, and 13 trees will be removed from upland areas.

A variety of construction equipment such as backhoes, compactors, paving machines, water trucks, utility trucks, loaders, tractors, dozers, dump trucks, excavators, and concrete trucks will be used.

This is to advise that CDFW, acting as a Responsible Agency, approved the above described project on 01/28/2020 and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
- 2.

3. CDFW considered the mitigated negative declaration / negative declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
4. Mitigation measures were / were not made a condition of CDFW's approval of the project.
5. A mitigation reporting or monitoring plan was / was not adopted by CDFW for this project.
6. A statement of overriding considerations was not adopted by CDFW for this project.
7. Findings were not made by CDFW pursuant to California Code of Regulations section 15091.

The mitigated negative declaration / negative declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of project approval as Responsible Agency is available at CDFW's regional office.
