Sacramento, CA 95814

Re: Reaffirmation of California Environmental Quality Act (CEQA) Compliance for Wastewater Treatment Plant Pond Reconfiguration and Land Application Expansion Area.

The City of Newman applied for and anticipates the receipt of a funding agreement for a wastewater infrastructure project to be administered through the Clean Water State Revolving Fund (CWSRF) loan program. The project being reaffirmed, along with the CWSRF project and State Clearinghouse number, are as follows:

- Wastewater Facility Aeration Pond Reconfiguration and Land Application Expansion Area  
Project No. 8145-110 State Clearinghouse No. 2015052076

This project has demonstrated compliance with CEQA requirements under the CWSRF program and the Notice of Determination for the Mitigated Negative Declaration was originally filed with the State Clearinghouse on April 14, 2017. Since this project has not secured a funding agreement within five years of the original project approval date of April 11, 2017, the City of Newman is reaffirming that no project or regulatory changes have occurred and there are no new potential impacts since the original approval date of April 11, 2017.

If there are any questions regarding this reaffirmation, please do not hesitate to contact me at (209) 862-3725 or by e-mail at [mholland@cityofnewman.com](mailto:mholland@cityofnewman.com)

Sincerely,

Michael Holland  
City Manager  
City of Newman
