**Subject: Elk Grove SOIA and Multi-Sport Complex Final EIR (SCH#2015102067)**

The Sacramento Local Agency Formation Commission (LAFCo) and the City of Elk Grove have completed a Final Environmental Impact Report (EIR) to evaluate the potential environmental effects of a 561-acre amendment for the City of Elk Grove's Sphere of Influence (SOI) and a proposed 171-acre multi-sport park complex. The SOIA Area is located in an unincorporated portion of Sacramento County, entirely within the County's Urban Services Boundary. The boundaries of the proposed SOIA Area are located south of Grant Line Road (near its intersection with Waterman Road) and east of the Union Pacific Railroad tracks and State Route 99, extending east to a point just east of the intersection of Grant Line Road and Mosher Road.

The Final EIR, along with other material related to this project, is available for review at the following locations:

**LAFCo website:**
