RE: SCH #2016091024

The East Los Angeles Area office of the California Highway Patrol (CHP) received the "Notice of Completion" of the Environmental Impact document for the proposed Citadel Outlets Expansion & 10 Acre Development Project for State Clearinghouse (SCH) #2016091024. After review, we have concerns with the potential impact this project could have on traffic congestion.

Our concern relates to the proposed construction project, which would affect traffic in and around Interstate 5 (Santa Ana Freeway) between Washington Boulevard and Atlantic Boulevard, with increased heavy truck/construction equipment traffic on the highway, as well as the surrounding surface streets. We are hopeful that project managers will work diligently with the CHP to establish, monitor, and provide traffic control methods that will mitigate congestion on these already heavily used highways.

Should you have any questions, or if we can be of further service, please do not hesitate to contact our office at (323) 980-4600.

Sincerely,

A handwritten signature in black ink, appearing to read "V. Suarez, LT".

V. SUAREZ, Captain
Commander
