Notice of Determination

San Diego International Airport Development Plan

Project Description

The San Diego County Regional Airport Authority (SDCRAA) is proposing the next master planning phase for the San Diego International Airport (SDIA or Airport), in accordance with a new Airport Development Plan (ADP). The ADP provides a development framework to implement improvements that will enable SDCRAA to accommodate future demand for air travel anticipated to occur at SDIA with more modern, efficient, and comfortable facilities. The ADP improvements approved by the SDCRAA Board on January 9, 2020 represent those that were presented as "Alternative 4: T1 Replacement and Transportation Improvements" in the ADP Environmental Impact Report (EIR). Implementation of Alternative 4 would result in less or reduced environmental impacts than the originally proposed project presented in the EIR, is feasible, and would meet all of the project objectives. As such, the Board approved Alternative 4 instead of the originally proposed project. The primary elements of the approved project (i.e., Alternative 4) include: (1) replacement of Terminal 1 with a new terminal of up to 30 gates; (2) development of circulation and roadway improvements to enhance mobility to the existing and proposed terminals from North Harbor Drive, including a new multi-use pedestrian and bicycle pathway and airport entry road for inbound vehicle traffic, and the preservation of right-of-way on airport property to accommodate potential off-airport access road improvements; (3) preservation of a portion of SDIA as a "transit-ready" area to accommodate potential future regional transit system improvements that would link to SDIA; (4) implementation of a dedicated shuttle service between the Old Town Transit Center and SDIA; (5) airfield taxiway improvements and reconfigured remain overnight (RON) aircraft parking areas; (6) development of a five-story parking structure adjacent to the new Terminal 1; and, (7) other related improvements, such as replacement of SDCRAA's administrative offices that would be displaced by the new Terminal 1, and various infrastructure improvements.
