Santa Barbara, California

Re: Tract 12,679  
(Item 6063)

Gentlemen:

We wish to refer to a newly revised Tentative Map for subject tract, which is to be considered for your approval at your meeting this date.

In preparing this map, the Engineer has revised the proposed alignment of the North Broadway connection towards California Boulevard in a manner which does not appear to be acceptable. Thus, we wish to point out that your approval of this subdivision should be made with the understanding that the Department of Transportation, through its construction plan approval process, will have the authority to require changes in the proposed road alignment to remove or reduce the reverse curves shown on the Tentative Map.

Very truly yours,

*Leland R. Steward*  
Leland R. Steward  
Director of Transportation

MKF/bs

cc: Mr. Fred Schott
