**PUBLIC MEETING CANCELLATION
OF DRAFT ENVIRONMENTAL IMPACT REPORT
FOR THE DE SOTO TANKS AND PUMP STATION PROJECT**

MAR 30 2020
STATE CLEARINGHOUSE

Date: March 20, 2020
To: Agencies, Organizations, and Interested Parties
Subject: Public Meeting Cancellation of the Draft Environmental Impact Report for the De Soto Tanks and Pump Station Project

BACKGROUND

A Draft Environmental Impact Report (Draft EIR) has been prepared by the City of Los Angeles, as represented by the Los Angeles Department of Water and Power (LADWP) to evaluate potential environmental effects that would result from development of the proposed De Soto Tanks and Pump Station Project (Proposed Project). LADWP is identified as the lead agency for the Proposed Project under the California Environmental Quality Act. The Proposed Project includes the replacement of the existing 3-million gallon (MG) water storage reservoir with two buried, pre-stressed circular concrete storage tanks immediately north of the existing reservoir site. The combined storage capacity upon completion of the new storage tanks will be approximately 20 MG. Construction of the De Soto Tanks Project would also require the installation of approximately 2,500 linear feet of new inlet pipelines. Upon completion of the De Soto Tanks, the existing De Soto Reservoir will be demolished and a new De Soto Pump Station will also be constructed.

PUBLIC MEETING CANCELLATION

A public meeting had been scheduled to be held during the Draft EIR public review period to solicit comments from interested parties on the content of the Draft EIR at the following location:

DATE: March 26, 2020
TIME: 6:30PM
LOCATION: Chatsworth Branch Library – Meeting Room
21052 Devonshire Street
