

May 31, 2018

To: Riverside Planning Department

Project: Gillman Springs Mine  
(Surface Mining Permit No. 159, Rev. N02)

As resident and owner of property near this project. I am in disagreement for the expansion of the anticipated mining project referenced above.

This project will create extensive noise disrupting the tranquility of my property. In addition the dust + contamination created by these activities will affect the health + well being of those in the area.

Sincerely

Francisco Ramirez
