STATE CLEARINGHOUSE

Hello Elizabeth White,

Please see Caltrans' comment below regarding The Hub Plan, 30 Van Ness Avenue Project, 98 Franklin Street Project, and Hub Housing Sustainability District - Draft Environmental Impact Report – SCH 2018052060

Encroachment Permit

The DEIR indicates that a portion of South Van Ness Avenue (US 101) is proposed for improvements within and outside existing state right of way. In addition, several city surface streets, a portion of which are within existing state right-of-way (ROW) under US 101, are also proposed for improvements.

Please be advised that any work or traffic control that encroaches onto the State ROW requires a Caltrans-issued encroachment permit. To obtain an encroachment permit, a completed encroachment permit application, environmental documentation, six (6) sets of plans clearly indicating the State ROW, and six (6) copies of signed, dated and stamped (include stamp expiration date) traffic control plans must be submitted to: Office of Encroachment Permits, California DOT, District 4, P.O. Box 23660, Oakland, CA 94623-0660. To download the permit application and obtain more information, visit <https://dot.ca.gov/programs/traffic-operations/ep/applications>.

Thank you,

Andrew Chan
