Facility Planning, Construction and Management

PROJECT COUNTY:
San Bernardino County

PHONE NUMBER FOR AGENCY CONTACT:
Robert Sleppy, (916) 255-1141

PROJECT DESCRIPTION:

The California Department of Corrections and Rehabilitation (CDCR) as lead agency has prepared, considered, and certified the Final Environmental Impact Report (Final EIR) for the Mental Health Crisis Facility (MHCF) Project at the California Institution for Men (CIM), located in Chino, California.

The MHCF would be constructed within the current property boundaries of CIM, in the northwest portion of the existing prison grounds. Inmate-patients are typically transferred to a MHCF facility on a limited-term basis (approximately ten days); when stabilized, the inmates are transferred to correctional facilities that provide the required housing and on-going mental health treatment. The new two-story MHCF building would encompass approximately 69,000 gross square feet. The MHCF building would provide space for 50 beds dedicated to inmates in mental health crisis, along with mental health care treatment space, clinical support space, housing, recreation, custody, support, administrative services, and a 360-space paved parking lot south of the Facility D perimeter and immediately east of the existing parking lot (Parking Lot Option B). Housing, treatment, and support space would be built according to CDCR Design Criteria Guidelines; California Building Standards Code; California Code of Regulations (CCR) Title 24; mental health licensing; and other state design policies and regulations. Compliance with CCR Title 24 Building Energy Efficiency Standards would result in an energy-efficient building as it relates to electricity and natural gas consumption.

This is to advise that CDCR, as lead agency, approved the MHCF Project on May 8, 2019, and has made the following determinations regarding the project, pursuant to Public Resources Code section 21108 and CEQA Guidelines section 15094:

1. CDCR has prepared and certified a Final EIR for the MHCF Project. The Final EIR provides a full analysis of all potential environmental effects associated with the MHCF Project. CDCR has considered the information provided in the Final EIR prior to approving the MHCF Project.

2. CDCR, as lead agency, finds that the Final EIR prepared for this project is in compliance with the California Environmental Quality Act (CEQA) (Pub. Res. Code § 21000 et seq.), and the CEQA Guidelines (14 Cal. Code Regs. § 15000 et seq.).
3. Mitigation measures were made a condition of the approval of the MHCF Project and a Mitigation, Monitoring, and Reporting Plan was adopted by CDCR.
4. CDCR has adopted findings pursuant to CEQA Guidelines section 15091.
5. The MHCF Project will not result in any significant and unavoidable effects on the environment, therefore a Statement of Overriding Considerations is not required and was not adopted.

This is to certify that the Final EIR for the MHCF Project and the record of the project approval are available to the general public at: CDCR, Facility Planning, Construction and Management, 9838 Old Placerville Rd, Suite B, Sacramento, CA 95827. Contact Robert Sleppy, Environmental Services Section, at (916) 255-1141 for copies of the Final EIR and record of project approval.
