

**Petition to the Napa County Planning Commission  
from  
the residents of The Springs of Napa.**

**Subject: Proposed Homeless and Mentally Ill Housing;  
the Heritage House Project.**

(Even the homeless are given 90 day's notice, but we only learned of this in the Register. What happened to the post card notice?)

We are a retirement community and many of the residents have dogs that they walk every day and we have walking groups that walk every week around the neighborhood; and one energetic walker that goes to the Target store and back. Exercise is very important to our well-being. I have friends in Old Town who complain about the homeless who congregate there. I'll have police statistics when I come to the next meeting, but I know the police have many calls to the low rent apartment areas.

We are VERY concerned about our safety as many of us are elderly and cannot defend ourselves. We do not need these problems near us as we would not be comfortable. We cannot move as we are here for the rest of our lives.
