

I am speaking here because I am opposed to the renovation of the Sunrise House on Valle Verde Drive for Heritage House

I am very aware of the acute housing shortage here in Napa and the rest of this state.

These are my reasons:

- There will be no restrictions for the permanent residents due to the program No Place Like Home
- The people who will live there will be adults with serious mental illness including symptoms of violence or psychosis. They may be at risk of requiring acute psychiatric inpatient care.
- Transportation to downtown to the needed social services and limited shopping and dining options are few in this part of Napa.

We are deeply concerned about

- Family safety
- Environmental impacts regarding litter and noise. It's already here with the Bridge development across the street
- Parking and security
- Acute psychiatric services
- Flooding, erosion of Salvador Creek and loss of native habitat and endangered species
- Traffic issues on Valle Verde and Villa Lane
- 

I would like to suggest a better use of the Sunrise Building. That would be to renovate; it for low income seniors the way it was 11 years ago. Also, Roberts Nursing on Browns Valley Rd. has been vacant for many years. It could be a possible alternative for No Place Like Home.

Thank you.
