CARB staff is proposing to amend the At Berth regulation. The proposed regulation will continue controls of vessels covered under the existing regulation plus, require additional vessel types, ro-ro/auto, bulk/general cargo and tankers, and additional California ports to reduce emissions from vessels while at berth and at anchor. The proposed regulation is designed to reduce additional NOx, PM, diesel PM and GHG emissions already achieved by the original At-Berth Regulation. The proposed regulation will also include NOx, PM, and GHG emission reductions from boilers on tankers which operate large steam driven boilers for offloading purposes.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".  
If you have already sent your document to the agency please denote that with an "S".
