

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: 2018121015

Project Title: San Joaquin Phase 2 Water System Improvements Project

Lead Agency: City of San Joaquin

Contact Name: Lupe Estrada

Email: lupee@cityofsanjoaquin.org Phone Number: 559-693-4311

Project Location: San Joaquin Fresno
City County

Project Description (Proposed actions, location, and/or consequences).

This is an addendum to the original MND. After filing the Notice of Determination, minor changes were made to the Project which included removing some additional pipelines that were not originally included in the IS/MND and adding some additional pipelines that were within the areas that were analyzed in the Project IS/MND. The analysis was consolidated under this Addendum. The Project will involve installing a new well (Well #6), a 71,000-gallon tank for backwash storage and sludge settling and associated filtration equipment, and various new or replacement pipelines in existing roadways to accommodate the Project. These infrastructure improvements will help the City reliably meet the maximum daily demand of 1,500 Gallons Per Minute (GPM) and the peak hour demand of 3,339 GPM.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Cultural Resources
• In the event that archaeological remains are encountered at any time during development or ground-moving activities within the entire Project area, all work in the vicinity of the find should be halted until a qualified archaeologist can assess the discovery and take appropriate actions as necessary.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Controversy known to the Lead Agency:

No known areas of controversy are known regarding this project.

Provide a list of the responsible or trustee agencies for the project.
