Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Sa	roject Title: Sacramento 2040 General Plan and Climate Action & Adaptation Plan	
Lead Agency: Cit	y of Sacramento	
Contact Name: S	cott Johnson	
		Phone Number: (916) 808-5842
Project Location:		Sacramento
	City	County

Project Description (Proposed actions, location, and/or consequences).

The City of Sacramento (City) is updating its general plan and climate action plan to reflect current conditions, new legal requirements for general plans and climate action plans, and changes to reflect the City's planning vision through 2040. The 2040 General Plan provides guidance to the City and the public regarding the physical form and character of Sacramento's land use and development and the conservation of the City's resources. The 2040 General Plan is a comprehensive update and refinement of the 2035 General Plan, which was adopted by the City on March 3, 2015, and the Climate Action & Adaptation Plan (CAAP) sets forth a community-wide strategy for reducing greenhouse gas emissions (GHG) and adaption to the effects of climate change. The CAAP was drafted in response to the state mandate that local actions be coordinated with state goals for reducing GHG emissions. The CAAP replaces the City's prior Climate Action Plan (CAP), which was adopted March 3, 2015. The project location is the city and adjacent areas, collectively defined as the Sacramento 2040 General Plan Planning Area. The proposed 2040 General Plan is based on an updated vision statement and guiding principles that were adopted by the City Council on November 12, 2019. The vision and guiding principles for the proposed Sacramento 2040 General Plan are organized into six general categories or themes: (1) Sustainable and Responsible Growth; (2) Resiliency and Climate Action; (3) Safe, Equitable, Inclusive and Just City; (4) Regional Economic Hub; (5) Livability and Sense of Place; and (6) Interconnected, Accessible City.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

There are no feasible mitigation measures for impacts relating to Biological Resources (Impacts 4.4-10 and 4.4-11), Cultural and Historic Resources (Impacts 4.5-1, 4.5-2, and 4.5-3), Noise (Impacts 4.11-1 and 4.11-5), and Tribal Resources (Impacts 4.15-1, 4.15-2, and 4.15-3) as a result of the projected growth and development under the 2040 General Plan.

Impacts from substantial temporary increases in ambient noise levels would be reduced with NOI-1: Construction Noise, which would ensure effective management of construction noise levels and compliance with the 2040 General Plan policies and City Code.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
None known at this time.
Provide a list of the responsible or trustee agencies for the project.
