Project Title: Van Dyke Storm Drain Replacement Project

Project Applicant: City of San Diego

Project Location (include county): Ethelda Place cul-de-sac right-of-way, San Diego, CA (San Diego County)

Project Description:
The Applicant proposes to abandon and upgrade storm drain pipes with a new system. The new storm drain system will be split into two systems. Each of these two new systems are proposed to be collected by another new system that replaces an old system that discharges down an existing steep slope into an existing channel. The new system will include a curb inlet, cleanout, and headwall as well as the installation of a 1/2 ton of riprap. A portion of the riprap will be installed with concrete grout. The steep slope will be graded and the old system will be removed resulting in permanent impacts of 0.002 acres and temporary impacts of 0.0007 acres to non-wetland waters of the United States.

This is to advise that the RWQCB - San Diego Region has approved the above ([] Lead Agency or [X] Responsible Agency)

described project on (date) and has made the following determinations regarding the above described project.

- 1. The project [X] will [] will not have a significant effect on the environment.
