Project Title: MDOT Hibbard and Elkhorn Roads Culvert Replacements (Lake or Streambed Alteration Agreement No. 1600-2018-0504-R1)

Project Location: The Project includes two separate locations. The Hibbard Road site (milepost 0.26) is approximately three miles west of Yorkville, and the Elkhorn Road site (mileposts 2.52 and 3.32) is approximately two miles south of Yorkville, in the County of Mendocino, State of California; Section 2, Township 12N, Range 13W; Mt. Diablo Base and Meridian, in the Ormbaun Valley, CA U.S. Geological Survey 7.5-minute quadrangle, and Sections 20 and 29, Township 12N, Range 12W; Mt. Diablo Base and Meridian, in the Big Foot Mountain, CA U.S. Geological Survey 7.5-minute quadrangle. Latitudes and Longitudes: 38.91161°, -123.26774°; 38.8738°, -123.21924°; 38.86508°, -123.22538°.

Project Description: The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2018-0504-R1, pursuant to Section 1602 of the Fish and Game Code to Mendocino County Department of Transportation, represented by Kent Standley.

The project is limited to three encroachments. The Hibbard Road encroachment replaces an undersized and failing culvert with a 24-inch by 18-inch corrugated metal arched pipe. The Elkhorn Road milepost 2.52 encroachment replaces an undersized and damaged culvert with a 30-inch diameter or larger corrugated metal pipe (CMP). The milepost 2.52 encroachment replaces an undersized and damaged culvert with a 24-inch diameter or larger CMP. All culverts will be sized to pass a 100-year flood event and will be aligned and placed to current standards.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

Person or Public Agency Carrying Out Project: Mendocino County Department of Transportation, represented by Kent Standley.

Exempt Status:

- Statutory Exemption. State code number
- Categorical Exemption. Type – Class 2; California Code of Regulations, title 14, section 15302.

Reasons why project is exempt: The Project replaces existing culverts at the same locations and does not change the purpose or capacity of the structures. The culverts are of a larger diameter in order to meet current standards.
