Project Description (Proposed actions, location, and/or consequences).

The project is located at various postmiles on Interstate 80, Interstate 880, and Interstate 580 in the City of Oakland, in Alameda County. This project proposes to increase the vertical clearance of the three connectors approximately 1-2 feet, to meet the current Caltrans standard of 16 feet 6 inches, allowing for more efficient travel of freight and oversized vehicles.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

N/A

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A

Provide a list of the responsible or trustee agencies for the project.
