

ENVIRONMENTAL DETERMINATION

On the basis of this initial evaluation:

I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.

☐

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

☒

I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

☐

I find that the proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.

☐

I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been adequately analyzed in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, or (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

☐

The Calaveras Unified School District has determined that the Jenny Lind Elementary School Wastewater Treatment Project, further defined and discussed in the attached Environmental Checklist/Initial Study, will not have significant effects on the environment. As a result thereof, the preparation of an Environmental Impact Report pursuant to the California Environmental Quality Act (Division 13 of the Public Resource Code of the State of California) is not required.

The Calaveras Unified School District prepared the attached Environmental Checklist/Initial Study for the Jenny Lind Elementary School Wastewater Treatment Project on October 11, 2023. Further information, including the project file, supporting reports, and related studies, may be reviewed at the public offices of the Calaveras Unified School District, located at 3304 Highway 12, San Andreas, California 95249.

MITIGATION MEASURES: Mitigation measures have been identified for the project.
