Present Land Use/Zoning/General Plan Designation:

Public facility

Project Description: (please use a separate page if necessary)

The Proposed Project is the issuance of a long-term easement for the operation of the Donald C. Tillman Water Reclamation Plant (Plant) in the Sepulveda Dam Flood Control Reservoir. Issuance of a new easement requires raising the existing dikes to meet flood protection requirements. The Proposed Project also includes a suite of components that would be undertaken to update Plant facilities. These components include the construction of a Multi-Purpose Building in service to the Japanese Garden needs, and two capital improvement projects to improve flow-metering in maintenance vaults and sewer service within the Plant grounds.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
