feet and an existing 1,267-square-foot grow house. Three 320-square foot storage containers currently exist on the property and would be used for equipment storage and drying. Two new 320-square-foot storage containers are proposed adjacent to the existing greenhouses. An additional one-story 2,500-square-foot building would be constructed for the indoor cultivation as well as the supportive nursery. The project site is located at 8155 Carissa Highway, approximately 38 miles east of the community of Santa Margarita in the Carrizo Planning Area.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X". If you have already sent your document to the agency please denote that with an "S".
