

DRAFT ENVIRONMENTAL IMPACT REPORT

Angels Landing Project

Environmental Case: ENV-2018-3273-EIR
State Clearinghouse No. 2019039164

Project Location: 361 S. Hill Street (332–358 S. Olive Street, 351–361 S. Hill Street, 417–425 W. 4th Street), Los Angeles, CA 90013

Community Plan Area: Central City

Council District: 14—De León

Project Description: The Project would involve a two-tower mixed-use development consisting of: 180 residential for-sale condominium units; 252 residential apartments (including a mix of market rate and affordable units); two hotels with a combined total of 515 guest rooms, restaurants, ballrooms, meeting rooms, and amenities (fitness/spa); and 72,091 square feet of general commercial (retail/restaurant) uses. The proposed uses would be distributed through a series of terraced levels in a podium structure and two towers (Tower A and Tower B) that would be constructed above a three-level subterranean parking garage. The Project would also provide public and private open space areas and would retain the existing on-site Metro Pershing Square Station portal. In all, the Project would result in up to 1,269,150 square feet of floor area with a maximum floor area ratio (FAR) of up to 13:1. Tower A would include 63 floors with a building height of up to 854 feet. Tower B would include 42 floors with a building height of up to 494 feet. Excavation would occur to a depth of approximately 70 feet below ground surface, as measured from the elevation of Hill Street adjacent the Project Site.

PREPARED FOR:
The City of Los Angeles
Department of City Planning

PREPARED BY:
Eyestone Environmental, LLC

APPLICANT:
Angels Landing Partners, LLC
