Project Title: Oakland EcoBlock

Project Applicant: City of Oakland

Project Location: City block between Fremont, Marshall, 59th, and Stanford Streets

Project Description: An existing Oakland city block will be retrofitted to become its own microgrid (including installation of rooftop solar, energy storage system in underground utility vault, cabinet-mounted power converters and controls, pad-mounted transformer, curbside EV chargers, and trenching [or directional drilling] for placing power and communication lines underground). The houses within the subject block will undergo energy retrofits. Project includes documentation of the results from this work in a planning study.
