Project Description (Proposed actions, location, and/or consequences).

The Los Angeles Unified School District is proposing a comprehensive modernization of 92nd Street Elementary School at 9211 Grape Street, in the neighborhood of Watts, City of Los Angeles, County of Los Angeles. The Project consists of the demolition of 2 permanent buildings (1-story Kindergarten Building and 2-story Classroom Building D), and removal of 6 portable buildings; construction of 17 classrooms in two permanent buildings (2-story Kindergarten Building and 1-story Classroom Building); modernization (remodel, retrofit, paint, HVAC replacement, and roof repairs) of 5 buildings; and site upgrades. The school modernization would not change the number of students or staff at the school. No changes to traditional school operations, school-related events, or community use would occur.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Initial Study for the proposed project substantiates that implementation of the proposed project would not result in any significant impacts or require the implementation of mitigation measures. The Initial Study supports adoption of a Negative Declaration.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No areas of controversy are known to Los Angeles Unified School District.

Provide a list of the responsible or trustee agencies for the project.
