

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Circle Green "Green Tech" ProjectLead Agency: Phelan Pinon Hills Community Services DistrictContact Name: Don BartzEmail: dbartz@pphcsd.orgPhone Number: (760) 868-1212Project Location: PhelanSan Bernardino*City**County*

Project Description (Proposed actions, location, and/or consequences).

The proposed project is located at the former Meadowbrook Dairy within an unincorporated portion of San Bernardino County, within the PPHCSD's service area. Circle Green leases the project site from PPHCSD. The proposed Green Tech Park facility would be a fully permitted Compost Manufacturing Facility that will comply with all State, and local requirements and be designed and operated to responsibly and safely manage the proposed feedstocks. The compost facility will utilize at least one, if not all of the three existing concrete pads that traverse the site from the southern border to the northern border of the site, and may develop additional concreted areas on site in support of the Green Tech Park operations. The Green Tech Park will utilize an existing office building that includes an attached equipment warehouse, existing shower / restroom facilities as well an employee lunch room. The project site also contains an equipment warehouse, which may be utilized for the purpose of bagging a portion of the finished product. The Green Tech Park does not propose any new structures, and is anticipated to be in operation about 3-6 months after the start of construction in mid-2019.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

None.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.

None.
