Form F

Summary Form for Electronic Document Submittal

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Decription (Proposed actions, location, and/or consequences).

The City is the Lead Agency responsible for preparing an Environmental Impact Report (EIR) addressing potential environmental impacts associated with the General Plan Noise Element (proposed project). The proposed project is a new General Plan Noise Element, which would replace the City's existing 1975 Noise Element. The location of the proposed project (also referred to as the "planning area") encompasses the entire 50 square miles within the limits of the City of Long Beach (excluding the City of Signal Hill, which is completely surrounded by the City of Long Beach) in Los Angeles County, California. The City's Noise Element was last updated in 1975, and at that time, it was implemented through a 1977 Noise Ordinance, Since then, the City's physical development, population, regional context, and the regulatory guidance involving noise have changed significantly. In order to allow for increased flexibility in responding to such changes, the City proposes to update and replace the existing 1975 Noise Element with a new Noise Element. The proposed project is a planning and policy action that does not include or facilitate any physical development. Any future discretionary project within the City would be evaluated individually, and project-specific mitigation would be proposed as needed.

Required discretionary actions associated with the project include a General Plan Update/Amendment for adoption of the proposed Noise Element, a Noise Ordinance Amendment, other Municipal Code Amendment(s) related to noise, and certification of the EIR.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Based on the Initial Study completed for the project, the City has determined that the project could result in impacts related to land use/planning, noise, and transportation/traffic. These topics will be analyzed in the EIR. Mitigation will be developed and included in the EIR, if necessary, to address the project's potentially significant adverse effects.

Governor's Office of Planning & Research

MAY 17 2019 STATE CLEARINGHOUSE

Revised September 2011

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

The project does not have any areas of controversy known to the Lead Agency. To provide an opportunity for public input, the City will be conducting a Scoping Meeting on May 30, 2019.

Provide a list of the responsible or trustee agencies for the project.

يە مەلەردىيى. 14 مەلەردى

There are no responsible or trustee agencies for the proposed project.
