Project Title: John Anson Ford Park Infiltration Cistern Project to Capture Urban Runoff
Project Applicant: City of Bell Gardens
Project Location (include county): John Anson Ford Park, Bell Gardens, Los Angeles County

Project Description:
The project would capture, retain, infiltrate, and replenish urban runoff by installing a stormwater capture and subsurface infiltration system at JAFP. The project would construct a diversion structure and subsurface infiltration basin below JAFP to capture and recharge up to 1,200 acre-feet per year of dry-weather and storm runoff from a catchment area of 2,295 acres. The project would divert stormflows from an existing stormwater drainage system, install a water treatment facility beneath the northerly parking lot at JAFP, and construct bottomless cisterns beneath the existing baseball field and soccer field. The project would be implemented in three phases.

This is to advise that the City of Bell Gardens has approved the above (X) Lead Agency or () Responsible Agency described project on 8/26/2019 and has made the following determinations regarding the above described project.
