## Present Land Use/Zoning/General Plan Designation:

The project site is zoned Open Space and designated as Public Facilities in the El Dorado County General Plan

## Project Description: (please use a separate page if necessary)

The proposed solar PV project consists of constructing 1,886-kilowatt (kW) direct current (dc) solar arrays and associated electrical equipment (inverters, transformers, switchgear, system disconnects, and service meters) at the EDH WWTP site. The new solar PV arrays would occupy about 6.5 acres within the boundary of the El Dorado Hills Wastewater Treatment Plant site. Construction staging areas for equipment storage, material delivery, and employee vehicles would be contained entirely on the waste water treatment plant site.
