Project Description (Proposed actions, location, and/or consequences).

The State of California Department of Transportation proposes to improve the intersections on SR 32 (Nord Ave.) at West Sacramento Ave (west) and West Sacramento (east). Three alternatives and a No Build are being considered for this project. Major elements of this project include, the consolidation of driveways between the two intersections, a raised curb median to prevent mid-block crossing, and improvements to the intersection(s). Alternative 3 proposes a roundabout at both intersections, Alternative 4 proposes a roundabout at West Sac. Ave. (west) and signal/intersection improvements at West Sac. Ave. (east); Alternative 5 proposes intersection improvements to both intersections.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

There are no significant effects with the implementation of this project.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Right of Way acquisition will have some challenges and there is some general controversy about roundabouts in general.

Provide a list of the responsible or trustee agencies for the project.

City of Chico is a responsible agency.
