Form F

Summary Form for Electronic Document Submittal

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #:	
Project Title: Redwood Apartments	
Lead Agency: County of Sonoma	
Contact Name: Nina Bellucci	
Email: Nina.Bellucci@sonoma-county.org	Phone Number: (707) 565-1236
Project Location: Santa Rosa City	Sonoma County
Project Decription (Proposed actions, location	on, and/or consequences).
one one-story community building on a 4.1 Density Bonus Program, which allows a 10 density is 24 units per acre. Under the Densand very low-income residents, which the pranging between 30 and 60 percent of the A	rdable, 96-unit apartment building consisting of four three-story buildings and 1-acre parcel. The project would utilize the Rental Housing Opportunity 0 percent increase over base density, up to 26 units per acre. The proposed sity Bonus Program, 40 percent of units are required to be affordable to low-project would exceed as all units will be affordable to households with incomes Area Medium Income. The project would be constructed in a single phase. Initial) B6 13 (13 units per acre density), which allows the proposed use.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

- Visual impacts related to light and glare, exterior lighting plan required prior to building permit issuance
- Air quality impacts mitigated by dust control measures
- Potential impacts to biological resources (potential habitat for special species mitigated by payment of mitigation fees, avoidance and minimization during construction, compliance with State and federal requirements for filling wetlands, and tree replacement.
- Potential impacts to cultural resources and tribal cultural resources mitigated by requirement to stop work if any artifacts found.
- Impacts related to geology, soils, hydrology, mitigated by requirements established by local codes
- Noise impacts mitigated by restrictions on construction activities and noise barriers.
