Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Long Beach Cruise Terminal Improvement Project	
Lead Agency: City of Long Beach	
Contact Name: Amy L. Harbin, AICP	
Email: amy.harbin@longbeach.gov	Phone Number: 562.570.6872
Project Location: Long Beach	County of Los Angeles
City	County

Project Decription (Proposed actions, location, and/or consequences).

The project applicant, Carnival Corporation & PLC, is proposing to make improvements to its facilities at the Long Beach cruise terminal to accommodate a new and larger class of cruise ships capable of holding approximately 4,008 passengers, to safely moor the larger cruise ships at the existing berth, and to improve existing safety at the berth related to ocean swells. The proposed maritime and onshore improvements would entail all actions and activities necessary to safely accommodate the larger vessel and the associated increase in passenger numbers. Maritime improvements include dredging the existing berth to a deeper depth (approximately 33,250 cubic yards of dredging volume) and constructing two mooring dolphins and associated catwalks, a passenger walkway bridge extension, and fender replacements. Onshore improvements include expanding an existing parking garage, filling an abandoned tunnel, and reconfiguring traffic lanes near the parking garage.

The project would require Site Plan Review from the City of Long Beach and a Harbor Development Permit and New Water Lease Agreement from the City of Long Beach Harbor Department. Building and Safety Permits and Grading Permits would also be required from the City of Long Beach.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Initial Study prepared for the proposed project concluded that the following environmental topical areas would have either no impact or less than significant impacts: Aesthetics; Agriculture and Forestry Resources; Cultural Resources, Energy; Geology and Soils; Greenhouse Gas Emissions; Hazards and Hazardous Materials; Hydrology and Water Quality; Land Use and Planning; Mineral Resources; Population and Housing; Public Services; Recreation; Transportation; Utilities and Service Systems; and Wildfire.

Environmental topical areas identified to have potentially significant impacts include:

Governor's Office of Planning & Research

- Air Quality;
- Biological Resources;
- Noise; and
- Tribal Cultural Resources.

JUN 20 2019

STATE CLEARINGHOUSE

However, implementation of Mitigation Measures AQ-1 and AQ-2, BIO-1 through BIO-3, NOI-1, and TCR-1 would reduce these impacts to less than significant levels. Thus, the proposed project would not have any significant and unavoidable environmental impacts.
