Project Title: Long Beach Cruise Terminal Improvement Project

Project Applicant: Carnival Corporation, 231 Windsor Way, Long Beach, CA 90802

Project Location (include county): 231 Windsor Way, Long Beach, CA 90802

Project Description:

The project applicant is proposing to make improvements to its facilities at the Long Beach cruise terminal to accommodate a new and larger class of cruise ships capable of holding approximately 4,008 passengers, to safely moor the larger cruise ships at the existing berth, and to improve existing safety at the berth related to ocean swells. The proposed maritime and onshore improvements would entail all actions and activities necessary to safely accommodate the larger vessel and the associated increase in passenger numbers. Maritime improvements include dredging the existing berth to a deeper depth (approximately 33,250 cubic yards of dredging volume) and constructing two mooring dolphins and associated catwalks, a passenger walkway bridge extension, and fender replacements. Onshore improvements include expanding an existing parking garage, filling an abandoned tunnel, and reconfiguring traffic lanes near the parking garage. The project would require Site Plan Review from the City of Long Beach and a Harbor Development Permit and New Water Lease Agreement from the City of Long Beach Harbor Department.

This is to advise that the City of Long Beach has approved the above (Lead Agency or Responsible Agency)
