2019078001

To: Office of Planning and Research
State Clearinghouse
P.O. Box 3044, 1400 Tenth Street, Room 212
Sacramento, California 95812-3044

From: Department of Toxic Substances Control
Permitting Division
8800 Cal Center Drive
Sacramento, California 95826

Project Title: EMERGENCY PERMIT FOR TREATMENT OF HAZARDOUS WASTE, JANSSEN RESEARCH & DEVELOPMENT, LLC, SAN DIEGO, CALIFORNIA

Project Location: 3210 Merryfield Row, San Diego, California 92121

Treatment Location: 3210 Merryfield Row, San Diego, California 92121

County: San Diego County

Project Activities: The California Department of Toxic Substances Control (DTSC), pursuant to authority granted under California Code of Regulations, Title 22, Division 4.5, Chapter 20, Section 66270.61, has issued an Emergency Permit to the Janssen Research & Development, LLC, (Janssen) (EPA ID# CAR000049841) to treat hazardous waste through a controlled reaction with a chemical solution. The hazardous waste to be treated consists of the following items:

Description	Quantity	Hazard Designation	Container Size
1,4 Dioxane	2	Peroxide Forming Material	2x1 liter
Tetrahydrofuran	1	Peroxide Forming Material	1x1000 milliliter
1,2 Dimethoxyethane	1	Peroxide Forming Material	1 x 1 liter
2,4 Dinitrophenylhydrazine	1	Shock-Sensitive Material	1x500 grams

The hazardous waste items are expired and being stored at Janssen located at 3210 Merryfield Row. DTSC has determined as a safety precaution to prevent an accident or severe injury, an Emergency Permit should be issued to chemically stabilize the hazardous waste prior to transportation off-site by Clean Harbors Environmental Services (CHES). The treatment of the hazardous wastes involves the addition of solution to the containers in a controlled manner to reduce the reactive or ignitable characteristics of the chemicals.

Treatment will take place within a designated exclusion zone. The designated exclusion zone will be a 50-ft. radius, well-ventilated area. Only Reactive Material Technicians from CHES will be allowed in the exclusion zone. Movement, preparation, and treatment of the items will be in accordance with established standards.

Within 10 business days of the expiration of this permit, Janssen will submit a final report, signed in accordance with Title 22, California Code of Regulations section 66270.11(d). The report shall include a certification that the treatment area has been cleared of all residual hazardous waste generated from this emergency treatment and all generated waste has been properly managed.

The Emergency Permit is effective beginning July 1, 2019 and shall expire on August 30, 2019.

Name of Public Agency Approving Project: Department of Toxic Substances Control

Name of Person or Agency Carrying Out Project: Janssen Research & Development, LLC

Exemption Status: (check one)

- Ministerial [PRC, Sec. 21080(b)(1); CCR, Sec. 15268]
 Declared Emergency [PRC, Sec. 21080(b)(3); CCR, Sec.15269(a)]
 Emergency Project [PRC, Sec. 21080(b)(4); CCR, Sec.15269(c)]
 Categorical Exemption: [State type and section number]
 Statutory Exemptions: [State code section number]
 General Rule [CCR, Sec. 15061(b)(3)]

Exemption Title: Specific actions necessary to prevent or mitigate an emergency.

Reasons Why Project is Exempt: This action is necessary to prevent an emergency.

Evidence to support the above conclusions is documented in the project file record, available for inspection at:
