Project Description: (please use a separate page if necessary)

This project is for the acquisition and construction of a stormwater basin. The proposed project includes acquiring 19.55 acres of APN 329-030-19 to develop a stormwater basin and the construction of the pipeline system and stormwater features throughout the drainage area. Basin "AV" will serve an approximately 798 acre drainage area and include a 19.55 acre basin site. The basin site will be developed by excavating 61,000 cubic yards of dirt and constructing a perimeter fence, a pump station, and four outfall structures. Full construction of the stormwater basin can take up to 10 to 20 years.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
