Dear Mr. Hernandez:

The California Department of Transportation appreciates the opportunity to have reviewed the proposed 672 square foot, 50 foot tall off-premise billboard at 22420 North State Route 99 West Frontage Road, Acampo. The Department has the following comments:

- All off-premise advertising displays visible to traffic on State facilities need to be constructed in compliance with local government and State regulations. Persons or entities seeking to place an off-premise outdoor advertising display that would be subject to provisions of the Outdoor Advertising Act (Business and Professions Code § 5200 et seq.) are required to submit an Outdoor Advertising Permit Application. Information regarding the Department's regulation of outdoor advertising may be found online at <https://dot.ca.gov/programs/traffic-operations/oda>
- As an alternative, persons or entities may also request a preliminary review determination by submitting a Preliminary Outdoor Advertising Permit Application. Either a full application or preliminary review provides that the Office of Outdoor Advertising would perform a full, in-person inspection of the proposed location and render a formal response as to the viability of the sign permit use and design plan.
