Project Title: Little Stream Restoration and Bank Stabilization Project (Lake or Streambed Alteration Agreement No. 1600-2019-0587-R1)

Project Location (include county): The project to be completed is located within the Martin Slough watershed, within the city of Eureka, County of Humboldt, State of California. The project is located in Section 34, T5N, R1W, Humboldt Base and Meridian; in the Eureka U.S. Geological Survey 7.5-minute quadrangle; Assessor's Parcel Numbers 018-252-017 and 018-252-018; latitude 40.7678 N and longitude 124.1625 W.

Project Description: The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2019-0587-R1, pursuant to Section 1602 of the Fish and Game Code to Terri Vroman Little.

The project is limited to one encroachment. The single proposed encroachment will remediate a stream that was altered during a storm event in the spring of 2019. The applicant modified the stream to ensure protection of infrastructure. The alteration, which occurred on the neighbor's parcel, was not completed in coordination with the property owner. This project will restore the stream function as agreed upon between the adjacent landowners. In addition, the project proposes to add some armoring to existing infrastructure to minimize the potential for damage. Work for this encroachment will include excavation, backfilling and compaction of fill, and rock armoring as necessary to minimize erosion.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

Person or Public Agency Carrying Out Project: Terri Vroman Little

Exempt Status:

- Statutory Exemption. State code number
- Categorical Exemption. Type – Class 1 and 4; California Code of Regulations, title 14, section 15301 and 15304

Reasons why project is exempt: The single proposed encroachment will remediate a stream that was altered during a storm event in the spring of 2019. There would be no significant adverse impact on endangered, rare or threatened species or their habitat pursuant to section 15065. There are no hazardous materials at or around the project site that may be disturbed or removed. The project will not result in impacts that are significant when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.
