From: Scott Morgan, Director
Re: SCH # 2017052062

VA OFF-SITE IMPROVEMENTS PROJECT

The State Clearinghouse distributed the above-referenced **Supplemental Environmental Impact Report** on **September 13, 2019** to your agency for review and comment. It has come to our attention that the document was issued an *incorrect* State Clearinghouse Number in error. For all future correspondence regarding this project, please use the new State Clearinghouse Number **SCH # 2019080202**. We apologize for any inconvenience this may have caused. All other project information remains the same.

Subject: SCH# 2019080202 VA Clinic Off-Site Improvements Project

Good morning Justin.

As we discussed, BaseCamp is a contractor to the City of Stockton for preparation of the Supplemental EIR for the City's VA Off-Site Improvements Project. When the NOP for the project was filed in August 2019, a new SCH number, referenced above, was assigned. When the Draft SEIR was submitted for public review, however, the review was recorded under the SCH# of the tiering document, the City of Stockton's recent Envision Stockton General Plan EIR #2017052062.

On the City's behalf, I am requesting that the Clearinghouse modify the SCH# for the Draft SEIR to 2019080202, the unique number for the project established with the submittal of the NOP.

Thanks for your help in straightening this out. Let me know if you have any questions or need additional information.

Charlie
