Dist.-Co.-Rte. (or Local Agency) P.M./P.M. E.A/Project No. Federal-Aid Project No. (Local Project)/Project No.

PROJECT DESCRIPTION: (Briefly describe project including need, purpose, location, limits, right-of-way requirements, and activities involved in this box. Use Continuation Sheet, if necessary.)

History: On February 2-3, 2019, heavy rains over the Santa Ynez Mountains in Santa Barbara County caused mud, rock and vegetation to flow down DeVaul Creek, plugging the arched culvert. The drainage area is within the limits of the Whittier fire. Water backed up against SR 154 roadway embankment to a depth of approximately 50-feet deep and has over topped and removed a portion of the roadway at PM.17.36. The route was closed to both directions of traffic and was beyond the ability of maintenance forces to remove all the debris. Work to reopen the route included pumping down the level of the impounded water to access the debris that plugged the culvert, removing the debris material; hauling rock and mulch to a disposal site, and grinding the vegetative material. the embankment slopes and roadway facilities were restored and reopened. A CE/NOE for this work was processed under this project number on 2/13/2019. (See continuation on next page)
