

## CATEGORICAL EXEMPTION/CATEGORICAL EXCLUSION DETERMINATION FORM

## Continuation Sheet

02-MOD-299	PM 20.3	02-4H990	0219000037
Dist.-Co.-Rte. (or Local Agency)	P.M./P.M.	E.A/Project No.	Federal-Aid Project No. (Local Project)/Project No.

Continued from page 1;

**Purpose and Need:**

The purpose of the proposed project is to route stormwater runoff away from the Canby Sandhouse to prevent inundation of the facility during storm events. The project is needed because the existing driveway conveys stormwater runoff directly into the sandhouse, inundating a portion of the storage area.

**Construction Activities:**

Removal of existing pavement adjacent to State Route 299 and the sandhouse facility, minor grading, construction of new structural section, construction of a valley gutter, and construction of a traction sand trap.

**Staging Areas:**

The sandhouse facility has a large Portland concrete cement (PCC) driveway and graded area that will be used for construction staging. Additional staging will not be required.

**Disposal/Borrow Areas:**

No borrow will be required for the project. All waste material will become property of the contractor.

**Right-of-Way and Utilities:**

No additional Right-of-Way will be required for the project. No utility relocation will be performed.

**Consultation/Coordination:**

Consultation was conducted with Regulatory Agencies and Native American Tribes and groups. No issues concerning the project have been received at this time.

**Permits:**

No regulatory permits are required for this project.
