

Sample Summary for Electronic Document Submittal

15 copies of this document may be included when a Lead Agency is submitting electronic copies of environmental impact reports, negative declarations, mitigated negative declarations, or notices of preparation to the SCH. The SCH will still accept other summaries, such as an EIR summary prepared pursuant to CEQA Guidelines Section 15123, attached to the electronic copies of the document.

SCH # 2019089021

Lead Agency: Sacramento Municipal Utility District

Project Title: Pocket/Greenhaven 69kV Underground Cable Reliability Project

Project Location: Sacramento Sacramento
City *County*

Please provide a Project Description (Proposed Actions, location, and/or consequences).

The project involves the replacement of approximately 2 miles of existing underground 69kV cable within existing right-of-way and construction of up to 15 new manholes along the route to allow for improved access and maintenance of the power line. The alignment extends west beneath Interstate 5 (I-5) from just southeast of the Florin Road/I-5 interchange to Gloria Drive, where it ends at the Gloria-Florin distribution substation approximately 400 feet west of Florin Road. At Havenside Drive, the underground duct bank splits, with one circuit proceeding along Florin Road (to Gloria Drive, as previously discussed) and a second circuit proceeding south on Havenside Drive to the Havenside-Canal distribution substation located on the northside of Havenside Drive, immediately west of the Pocket Canal. Construction activities would likely take 8 months and are expected to begin as early as November 2019. While construction activities may not be continuous, they are expected to be completed by the end of 2020. City of Sacramento noise restrictions prohibit construction between 10:00 p.m. and 7:00 a.m.

Please identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

- Air Quality. Mitigation Measure 3.3-1: Implement SMAQMD Basic Construction Emission Control Practices.
- Biological Resources. Mitigation Measure 3.4-1: Avoid disturbance of nesting birds. Mitigation Measure 3.4-2: Consistency with City of Sacramento Tree Ordinance
- Cultural Resources. Mitigation Measure 3.5-1: Worker awareness and response for cultural and tribal cultural resources. Mitigation Measure 3.5-2: Halt ground disturbance upon discovery of human remains.
- Paleontological Resources. Mitigation Measure 3.5-1: Worker awareness and response for cultural and tribal cultural resources.
- Traffic and Transportation. Mitigation Measure 3.17-1: Traffic Control Plan.
- Tribal Cultural Resources. Mitigation Measure 3.5-1: Worker awareness and response for cultural and tribal cultural resources. Mitigation Measure 3.18-1: Periodic Monitoring for Potential Unknown Tribal Cultural Resources.

If applicable, please describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None

Please provide a list of the responsible or trustee agencies for the project.
