## Form F

# **Sample Summary for Electronic Document Submittal**

15 copies of this document may be included when a Lead Agency is submitting electronic copies of environmental impact reports, negative declarations, mitigated negative declarations, or notices of preparation to the SCH. The SCH will still accept other summaries such as an EIR summary prepared pursuant to CEQA Guidelines Section 15123, attached to the electronic copies of the document.
SCH#
Lead Agency: City of Rio Vista
Project Title: Magic Show, LLC
Project Location: 1000 St. Francis Way Suite E Rio Vista, CA 94571 Solano  City County
City County
Please provide a Project Decription (Proposed Actions, location, and/or consequences).
The applicant requests approval of the following:
1. Conditional Use Permit for a Cannabis Type 12-license 2. Development Agreement for a Cannabis Type 12-license by and between the City of Rio Vista and Magic Show, LLC
Please identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.
The potential significant impact would be multiple complaints about cannabis odors eminating from the business operation. If necessary the Mitigation Measure would give the city leverage to require additional equipment to control odor, or modify business operation, or stop business operations.

~~	-4:-	nued
CO	ntu	nuea

If applicable, please describe any of the project's areas of controversy kn and the public.	own to the Lead Agency, including issues raised by agencies
One person located in the business park has complained about cannal address complaints should the problem be deemed significant.	bis odor. The proposed mitigation will make it possible to
	•
Please provide a list of the responsible or trustee agencies for the project.  None	

### **Notice of Completion & Environmental Document Transmittal**

# CEQA APPENDIX G: ENVIRONMENTAL CHECKLIST FORM

#### 1. Project title:

Magic Show, LLC

#### 2. Lead agency name and address:

City of Rio Vista 1 Main Street

Rio Vista, CA 94571

#### 3. Contact person and phone number:

Lamont C. Thompson (707) 374-6451 ext. 1111

#### 4. Project location:

1000 Saint Francis Way, Suite F, Rio Vista, CA 94571

#### 5. Project sponsor's name and address:

Prapanna Randall Smith

PO Box 1793

Murphys, CA 95247

#### 6. General plan designation:

Industrial / Employment Limited (I-E-L)

#### 7. Zoning:

The building where the Type-12 (manufacturing) Facility will be located has a zoning designation of Business Park (B-P).

#### 8. Description of project:

The applicant requests approval of a Conditional Use Permit that will allow operation of a Type-12 cannabis license for non-volatile extraction of cannabis oils, manufacturing, and wholesale distribution to other retailers, and retail to clients outside Rio Vista. The applicant will lease 2,240 square feet in the George building,1000 Saint Francis Way, Suite F Rio Vista, CA 94571.

#### 9. Surrounding land uses and setting: Briefly describe the project's surroundings:

The property is primarily surrounded on by vacant land and other industrial uses. In the Northeast direction there is vacant land and Rio Vista Muffler shop. In an easterly direction there is Asta Construction equipment yard. To the south is vacant land with an approved Conditional Use Permit for an RV and Boat Storage facility. In the southwest direction is Rio Vista City Transit corporation storage yard. In the westerly direction Endive food processing plant, city of Rio Vista Police Department, Rio Vista Farms. In the Northwesterly direction T-4 Manufacturing and vacant land.

# 10. Other public agencies whose approval is required (e.g., permits, financing approval, or participation agreement.)

None

been mitiga	I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.					
<u></u>	Many	1			8/8/2019	
Signa	ture /	I			Date	
Signa	ture				Date	
FVΔ	LIATION OF ENVIRO	NME	NTAL IMPACTS:			

- 1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g., the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2) All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- Once the lead agency has determined that a particular physical impact may occur, then the checklist 3) answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that

- an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from "Earlier Analyses," as described in (5) below, may be cross-referenced).
- 5) Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:
  - a) Earlier Analysis Used. Identify and state where they are available for review.
  - b) Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
  - c) Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
- 6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- 7) Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.
- 8) This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9) The explanation of each issue should identify:
  - a) the significance criteria or threshold, if any, used to evaluate each question; and
  - b) the mitigation measure identified, if any, to reduce the impact to less than significance

		Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<u>I. A</u>	ESTHETICS. Would the project:				
a)	Have a substantial adverse effect on a scenic vista?				$\bowtie$
	project will not have any substantial adverse effect on a scenic vista. existing views are of industrial facilities or vacant land.		_	_	_
b)	Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?				$\boxtimes$
	posed demolition does not substantially affect scenic resources within a e scenic highway, the project does not affect a scenic highway.				
c)	Substantially degrade the existing visual character or quality of the site and its surroundings?				$\boxtimes$
the	project does not substantially degrade the existing visual character of site and its surroundings as it will place improvements on an already eloped site.				
d)	Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?				$\boxtimes$
area	posed lighting does not adversely affect day or nighttime views in the as it will be down light, dark sky lighting, and minimal necessary for arity and way finding.				
whee effe Eva Dep agri reso agei of F land Leg prov	AGRICULTURE AND FORESTRY RESOURCES. In determining other impacts to agricultural resources are significant environmental cts, lead agencies may refer to the California Agricultural Land luation and Site Assessment Model (1997) prepared by the California ct. of Conservation as an optional model to use in assessing impacts on culture and farmland. In determining whether impacts to forest curces, including timberland, are significant environmental effects, lead noise may refer to information compiled by the California Department corestry and Fire Protection regarding the state's inventory of forest landling the Forest and Range Assessment Project and the Forest acy Assessment project; and forest carbon measurement methodology wided in Forest Protocols adopted by the California Air Resources rd. Would the project:				

		Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a)	Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?				
	posed site mapped as Urban built up land by California's Department of servation Farmland Mapping and Monitoring Program(FMMP).				
b)	Conflict with existing zoning for agricultural use, or a Williamson Act contract?				$\boxtimes$
The	re is no Williamson Act contract in place with existing site.				
c)	Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g))?				
Exi	sting site zoned for an Industrial Land Use, and is currently use as such.

If coroner determines the site is not a crime scene and that the discovery is ive American human remains (pursuant to subdivision (c) of Section 0.5 of the Health and Safety Code), property owner shall immediately fy those persons it believes to be most likely descended from the cased Native American. The descendants may, with the permission of owner of the land, or his or her authorized representative, inspect the of the discovery of the Native American human remains and may ommend to the owner or the person responsible for the excavation work ans for treatment or disposition, with appropriate dignity, of the human				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impac
remains and any associated grave goods. The descendants shall complete their inspection and make recommendations or preferences for treatment within 48 hours of being granted access to the site.				
Upon the discovery of Native American remains, the landowner shall ensure that the immediate vicinity, according to generally accepted cultural or archaeological standards or practices, where the Native American human remains are located, is not damaged or disturbed by further development activity until the landowner has discussed and conferred, as prescribed in this section, with the most likely descendants regarding their recommendations, if applicable, taking into account the possibility of multiple human remains. The landowner shall discuss and confer with the descendants all reasonable options regarding the descendants' preferences for treatment.				
(1) The descendants' preferences for treatment may include the following:				
(A) The nondestructive removal and analysis of human remains and items associated with Native American human remains.				
(B) Preservation of Native American human remains and associated items in place.				
(C) Relinquishment of Native American human remains and associated items to the descendants for treatment.				
(D) Other culturally appropriate treatment.				
VI. GEOLOGY AND SOILS. Would the project:				
a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:				$\boxtimes$
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.				
Alquist- Priolo Fault Zones have not been prepared for Rio Vista.				
ii) Strong seismic ground shaking?				$\boxtimes$
The City of Rio Vista does not have strong seismic ground shaking reports related to site.	_	_	_	_
iii) Seismic-related ground failure, including liquefaction? iii)				$\boxtimes$
No seismic ground failure related to site has been identified.		—	<u>.                                    </u>	<del></del> -
iv) Landslides?				$\bowtie$
No reported incident of landslide on property, the property is relatively flat with no hills or cliffs nearby.			_	
b) Result in substantial soil erosion or the loss of topsoil?				$\bowtie$
No reports of soil erosion observed on site.			_	
d) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?				
No unstable soil observed on the relatively flat site. Property has been observed to contain Tujunga fine sand.				

		Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	t Less Than Significant Impact	No Impact
e)	Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?				$\boxtimes$
	o expansive soil observed on site. According to the Natural Resource onservation, the property consists of Tujunga fine sand.				
	Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?				
	operty will is supplied with city water and sewer. A city sanitary sewer stem is available for use and connection is required by Municipal Code.				
V	II. GREENHOUSE GAS EMISSIONS. Would the project:				
a)	Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?				$\boxtimes$
	ne storage of recreational vehicles or boats will not directly or indirectly ve a significant impact on the environment.				
b)	Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases?				$\boxtimes$
ha	ne storage of recreational vehicles or boats will not directly or indirectly ve a significant impact on General Plan, policy or regulation adopted by a city for the purpose of reducing the emissions of greenhouse gases.				
<u>VI</u>	II. HAZARDS AND HAZARDOUS MATERIALS. Would the project:				
a)	Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?				$\boxtimes$
	proposed handling of hazardous materials in project to create a gnificant hazard to the public or the environment.				
b)	Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?				$\boxtimes$
	o significant hazardous materials are proposed for use on site that would oduce damage to the environment if an accident were to occur.				
c)	Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?				$\boxtimes$
Th	e closest school to the proposed project is approximately 3,000-ft away.				
d)	Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?				
	significant hazardous materials are proposed for use on site that would oduce a significant hazard to the public or to the environment.				

		Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
e)	For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?				
are j	the proposed project shall be less than 35 feet in height. No electronics proposed that would interfere with avionics. Proposed project is not a ificant source of light or glare that would visually interfere with tors' vision.				
f)	For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area?				$\boxtimes$
work elec- proj	The proposed project will not pose a hazard for people residing or king in the area. The project shall be less than 35 feet in height. No tronics are proposed that would interfere with avionics. Proposed ect is not a significant source of light or glare that would visually refere with aviators' vision.				
g)	Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?				$\boxtimes$
have	storage of recreational vehicles or boats will not directly or indirectly a significant impact on emergency response or the emergency reaction plan.				
h)	Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?				$\boxtimes$
sign	site will be paved. Ten percent of the site will have landscaping. No ificant risk to people of loss, injury or death involving wildland fires or ificant exposure of any structure has been identified.				
<u>IX.</u> ]	HYDROLOGY AND WATER QUALITY. Would the project:				
a)	Violate any water quality standards or waste discharge requirements?				$\boxtimes$
Proj	ect does not violate any water quality standards or waste requirements.				
b)	Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?				
from oil a The Prac The shall	stention pond allows water to soak into the soil from rainwater runoff a non-permeable areas on site. The detention basin captures sediment, and grease, and other pollutants prior to discharge into the storm drain. Storm water management plan shall employ Best Management tices to maintain the site's pre-development runoff rates and volumes. performance of the detention basin and other on-site improvements be to mimic the site's predevelopment hydrology by using design iniques that infiltrate, filter, store, evaporate, and detain runoff.				
	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site?				
	ace water that is not absorbed on site shall flow to a retention pond and scaping.				

		Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
d)	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site?				
dete	substantial drainage pattern has been identified. The performance of the ntion basin and other on-site improvements shall be to mimic the site's levelopment hydrology by using design techniques that infiltrate, filter, e, evaporate, and detain runoff.				
e)	Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted				$\boxtimes$
func	business does not produce any runoff. All water related business tions are performed inside, water usage is minimal, primarily for ning equipment.				
f) O	therwise substantially degrade water quality?				$\boxtimes$
f)	Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?				$\boxtimes$
	property is not situated within a 100-year FEMA flood zone. Proposed erty is not within a FEMA 100-year flood plain.				
g)	Place within a 100-year flood hazard area structures which would impede or redirect flood flows?				$\boxtimes$
The	property is not situated within a 100-year FEMA flood zone.				
h)	Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?				$\boxtimes$
	The site is situated outside of the 100-year flood plain.				
i)	Inundation by seiche, tsunami, or mudflow?				$\boxtimes$
	dation by seiche, tsunami, or mudflow would not be an issue given the elevation and distance to the Sacramento River.				
X. L	AND USE AND PLANNING. Would the project:				
a)	Physically divide an established community?	П		П	$\boxtimes$
The	proposed project will not physically divide the community				<u>~</u> 3

b) Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?			$\boxtimes$
The proposed project does not conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect	v		

c) Conflict with any applicable habitat conservation plan or natural community conservation plan?			$\boxtimes$
The proposed project does not conflict with any applicable habitat conservation plan or natural community conservation plan			
XI. MINERAL RESOURCES. Would the project:			
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?			$\boxtimes$
No known mineral resource that would be of value to the region and the residents of the state have been identified.			
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?			$\boxtimes$
No loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan have been identified.			
VII NOISE. Would the avaiest result in			
XII. NOISE Would the project result in:			_
a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?	Ш	Ц	$\bowtie$
No. All production supporting the proposed cannabis business would be conducted indoors.			
b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?			$\boxtimes$
No exposure of persons to or generation of excessive groundborne vibration or groundborne noise level is associated with retail sales or growing of cannabis.			
c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?			$\boxtimes$
No			
d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?			$\boxtimes$
No			
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?			$\boxtimes$
No			
f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?			$\boxtimes$
No			

XIII. POPULATION AND HOUSING. Would the project:				
a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?				$\boxtimes$
No				
b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?				$\boxtimes$
No				
c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?				$\boxtimes$
No				
XIV. PUBLIC SERVICES.				
a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:				
Fire protection?				$\boxtimes$
Police protection?			П	
Schools?			$\overline{\sqcap}$	
Parks?	$\Box$	$\Box$	Ī	X
Other public facilities?			ī	$\boxtimes$
XV. RECREATION.	_	_	_	
Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?				
No				
Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?				
No				

XVI. TRANSPORTATION/TRAFFIC. Would the project:		
a) Conflict with an applicable plan, ordinance or policy establishing measures of effectiveness for the performance of the circulation system, taking into account all modes of transportation including mass transit and non-motorized travel and relevant components of the circulation system, including but not limited to intersections, streets, highways and freeways, pedestrian and bicycle paths, and mass transit?		
No		
b) Conflict with an applicable congestion management program, including, but not limited to level of service standards and travel demand measures, or other standards established by the county congestion management agency for designated roads or highways?		
No		
c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?		$\boxtimes$
No		
d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?		$\boxtimes$
No		
e) Result in inadequate emergency access?		$\boxtimes$
No		
f) Conflict with adopted policies, plans, or programs regarding public transit, bicycle, or pedestrian facilities, or otherwise decrease the performance or safety of such facilities?		$\boxtimes$

No

XVII. TRIBAL CULTURAL RESOURCES Would the project cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code section 21074 as either a site, feature,		$\boxtimes$
place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is:		
a) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020.1(k),		
The subject property is not listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020. 1(k). The subject property is not associated with events that have made a significant contribution to the broad patterns of California's history and cultural heritage. The subject property is not associated with the lives of persons important in our past. The subject site does not have distinctive		
characteristics of a type, period, region, or method of construction, or represents the work of an important creative individual, or possesses high artistic values. The site is unlikely to yield information important in prehistory or history		
b) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resources Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.		
No significant California Native American tribal resources were identified on the subject property.		
XVIII. UTILITIES AND SERVICE SYSTEMS. Would the project:		
a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?		$\boxtimes$
No		
b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?		
No		
c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?		
No		
d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?		
Yes		
e) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?		
Yes		
f) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?		$\boxtimes$
Yes		
g) Comply with federal, state, and local statutes and regulations related to		$\boxtimes$

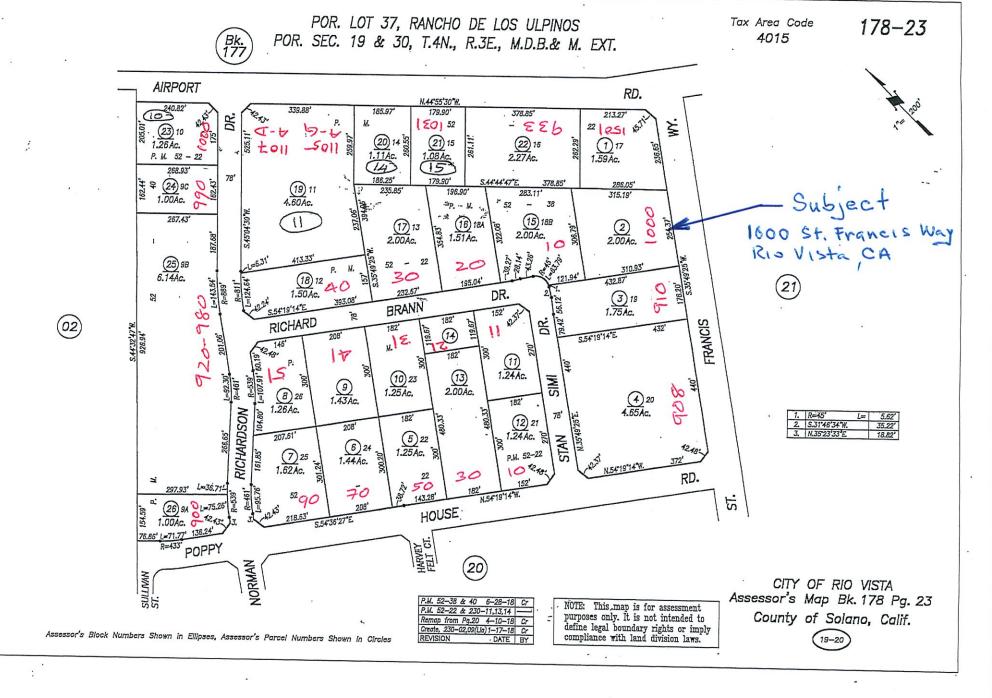

100			~
SO	lid	wast	e'

Yes, the proposed facility will comply with federal, state, and local statutes and regulations related to solid waste.

	XVIV. MANDATORY FINDINGS OF SIGNIFICANCE.			
	a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory			
	The project as propose does not have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory.			
	c) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?			
	No cumulative impacts past, present, of future have been identified by staff.			
	c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?			$\boxtimes$
]	No substantial environmental effects on human beings, either directly or indirect	ly have been ident	ified.

Magic Show, LLC Proposed Site Layout in a 2240 Square Foot Suite To be located at 1080 St. Francis Way

# NOTICE OF PUBLIC HEARING ON SEPTEMBER 11, 2019 AND NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION

PUBLIC NOTICE IS HEREBY GIVEN that the Planning Commission of the City of Rio Vista will consider the following Application at its Regular Meeting on September 11, 2019, at 6:00 p.m., in the City Hall Council Chambers, 1 Main Street, Rio Vista, CA:

- 1. Magic Show, LLC 1000 Saint Francis Way Suite F, Rio Vista, CA 94571 requests approval of a Conditional Use Permit (CUP) to operate a Type-12 licensed cannabis facility for non-volatile extraction, manufacturing, and wholesale distribution; and, requests the Planning Commission make a recommendation to the City Council to approve a Development Agreement by and between the City of Rio Vista and Magic Show, LLC. for a Type-12 license.
- 2. Adoption of staff's proposed Mitigated Negative Declaration for the proposed Conditional Use Permit, and Development Agreement.

Project Title: Magic Show, LLC Lead Agency Name and Address:

City of Rio Vista 1 Main Street Rio Vista, Ca 94571

Contact Person and Phone Number: Lamont Thompson (707) 374-6451 Ex. 1111

Project Location: 1000 Saint Francis Way, Suite F, Rio Vista, CA 94571

Project Sponsor's Name and Address:

Prapanna Randall Smith PO Box 1793 Murphys, Ca 95247

General Plan Designation: Industrial / Employment Limited (I-E-L)

Zoning: Business Park (B-P).

Description of Project: The applicant requests approval of a Conditional Use Permit, and a Development Agreement that will allow operation of a Type-12 cannabis license for non-volatile extraction of cannabis oils, manufacturing, and wholesale distribution to other retailers, and retail to clients outside Rio Vista. The applicant will lease 2,240 square feet in the George building 1000 Saint Francis Way, Suite F, Rio Vista, Ca 94571.

An Initial Study was undertaken by the City of Rio Vista, as Lead Agency, in accordance with the California Environmental Quality Act Guidelines. The Initial Study was conducted to determine whether the proposed project might have a significant effect on the environment. On the basis of the Initial Study, the Lead Agency's Staff has concluded that the project might have a significant effect on the environment, and has therefore prepared a Mitigated Negative Declaration. The Initial Study reflects the independent judgement of the Lead Agency.

Copies of the Initial Study and Mitigated Negative Declaration are on file and are available for public review at the Lead Agency's office, located at 1 Main Street Rio Vista, CA 94571.

A 30-day Review period for the Initial Study and Mitigated Negative Declaration will commence on August 10, 2018 and conclude on September 11, 2019.

Comments on the Initial Study/Mitigated Negative Declaration can be mailed to the City of Rio Vista Planning Department, 1 Main Street, Rio Vista, CA 94571, or oral comments can be given at the Planning Commission public hearing.

ALL INTERESTED PERSONS are hereby invited to attend this Public Hearing to present written information, express opinions or otherwise present evidence in the above matters. If you wish to legally challenge any action taken by the City on the above matter, you may be limited to raising only those issues you or someone else at the Public Hearing described in this notice, or in written correspondence delivered to the City prior to or at the Public Hearing. If you require accommodation to participate in a Public Hearing please contact the City Clerk's office at (707) 374-6451 ext. 1102. All Agenda materials are available for review at City Hall the Monday before the Public Hearing.

FURTHER INFORMATION on this item may be obtained by contacting Lamont Thompson, Planning Manager at (707) 374-6448 ext. 1111, or at (707) 731-9638. Submitted for publication by Lamont Thompson, Planning Manager DR# 00031802
